Work of School Children.

As the school season advances, the subject of mental overpressure becomes important enough not only for parental consideration, but for scientific investigation. The capacity of the child, the number and nature of the studies, and especially the length of the recitations, are features which ought not to be overlooked or be left to the direction of edusators. That much can be gained by experimental study of overpressure, is shown by a paper read by Dr. Burgenstein, of Vienna, before the congress of hygiene in London, upon "The Working Curve of an Hour." The writer had for his object the study of the mental power of children, and he arranged his experiments with a view to demonstrating the fluctuations of brain power in children during one hour's occupation with a familiar subject.

Simple addition and multiplication sums were given to two classes of girls, of an average age of eleven years and eleven years and ten months, and two classes of boys of the average age of twelve years and two months and thirteen years and one month. After ten minutes' work the sums were taken away from the children. After a pause of ten minutes the work was resumed, the alternation continuing for an hour, so that there were three periods of work. The results were interesting. During the whole experiment the 162 children worked out 135,010 figures, making 6,504 mistakes. It was found that the number of mistakes increased in the different periods, and that during the third period the quality of work was at the lowest.-Boston Journal.

Photography and Crime. The exhibition of the Photographic Sodety of Great Britain is of great interest, both from the artistic and the scientific point of view. Dr. P. Jeserich, a German, has devoted his attention to the development of photography as a means of assisting the administration of the law. The screen which cantains Dr. Jeserich's plates is one of the chief curiosities of the exhibition. He has shown, by enlarging photographs taken upon sensitized plates, that it is possible to detect certain kinds of forgery in the most unimpeachable way; for example, where a figure or a word has been alsered-and this is one of the commonest kinds of forgery-the different inks employed appear in the plate in quite different colors.

Similarly, where a name has first been written in pencil and then traced over in ink, however carefully the pencil marks have been erased, some faint traces of 4 e plumbago are sme to remain in the interstices of the paper, and these are revealed in the magnified photograph. Dr. Jeserich's photographs of hair and of pure and impure blood, before and after treatment with reducing agents, are also most curious, and several stories are told of the use that has been made of them in murder trials in Germany .-London Times.

Lost His Leg in a Bear Fight.

Two of the crew of the schooner Marguerite, of Seattle, met with a severe accident at Port Muller, on the north eide of the Alaskan peninsula. Their names are Thomas Bosweil and J. Schieffelin, and they were ashore prospecting for coal. Both were armed with rifles. They came across a bear and both fired Though badly wounded the animal made | ning by the Chicago Lady Quara rush at the men, and in the excitement tette was first class in every respect. Boswell got a cartridge jammed in his Our people are enthusiastic over gun. Before Schieffelin coald reload, the bear was upon them and knocked them down, one after the other, with a blow from its paw. Boswell tried to get to his feet, but the bear seized him by the leg and crushed it from the knee down. | them. The animal then ran away, but returned about ten minutes later, when Schieffelin, who had recovered consciousness, shot it. The two men got back to the schooner and the captain made sail for Oonalaska. It took eight days to get there and then Surgeon Berry Hill, of the Marion, amputated Boswell's leg .-San Francisco Report.

Union Correspondence Teams are grading on the "Y."

J. G. Zimmers was a passenger to Nebraska City last Thursday.

T. W. Faught, of the Murray lumber firm, was in town Monday.

E. A. Kirkpatrick of Nehawka is

shipping apples from this point.

Miss Maggie Eikenbary visited frien is in Plattsmouth the last of the week.

R. C. Kendall and Virgil Rose were doing business in Plattsmouth Saturday.

Julius Pepperberg, the cigar man of Plattsmouth, was rustling the cigar trade here Monday.

The recent cold weather has stopped the plastering on Hiram Du Boise's residence and on the C. P. parsonage.

At the present writing Mr. J. H Austin is lying very low at his residence in this village. We trust his sickness will not prove fatal. Last Friday his five sons went to Nebraska City and had a photograph taken of the group. It was the first time in several years they had been assembled together.

The telephone worked jay on the Ledger man in ascertaining the required information of who was responsible for an item that, recorded the fact of a certain telephone operator joining the matrimonial list. While we are armed with authentic representations of the facts chronicled in one of our county papers, we intelligently state that the party of the firs!, that "came down," is not the subject of this, or of the piece that chronicled the marriage. By the statement made in the Ledger of the 14th inst. one unacquainted with its "local" would take it as his English (?) put it-viz., we had no foundation to the item. We are very sorry the Ledger didn't get to AT THE WATERMAN record this event. But rest assured. brother, the items found under this head are authentic and not sold at five cents a line, regardless of the veracity of the statements. We the messenger at Plattsmouth. A Wonderful Dakota Ralubow.

Dr. McVean has arrived in the city after a tour of the country. The doctor resides at Armour, S. D., and has much to tell about that region. "A few days ago," he said, "the people, among the number myself, witnessed one of the most remarkable phenomena seen in that or any other portion of the United States. The phenomenon consisted of the appearance of the northern lights under remarkable circumstances. The lights formed a regular rainbow and sp- ly they will poke over a few charred peared at night. The bow extended the whole length of the horizon and was thirty feet wide. Everything was seen on the broad prairie just as if it had been lit up by electricity. The old set tlers claim that such a thing was noticed in 1862, but not since."-St. Louis Globe-Democrat.

A Sail on His Lawn Mower.

One of our neighbors had a sail on his lawn mower one day last week. At any rate it looked like a sail, for he had several square feet of canvas attached to the back side of the machine, and people thought he was trying to have a regatta all to himself. However, closer investigation showed that his sail was simply a large bag into which the cut grass was thrown instead of falling on to the ground. He was quite happy over his contrivance, because he didn't have to rake his lawn after he had cut the grass. -Ashland Cor. Fratingham (Mass.) Tribune.

A charitably disposed geutleman is to erect a home for newspaper men in Washington city. Nothing could be more desirable or display a larger measure of generosity toward a needy class. It is to cost \$2,000,000 and will afford a hospitable shelter for worthy members of the profession.

The most powerful telescope yet made has just been finished in Munich. Its ordinary power is 11,000, which can be increased to 16,000. An electric lamp of minute type is used in it, and a spe-dal device which sprays minute particles of liquid earbonic acid is used to keep is

Mrs. A. Cohen, who has been visit ing with her sister for the the past three weeks, Mrs, Jos. Kline, returned home at Denver this morning.

Redeeming Destroyed Money.

Undoubtedly the redemption division does sometimes get swindled, though not often. The women experts employed to examine the money sent in are wonderfully skillful. It is marvelous how deftfragments of notes and set an accurate valuation upon them. The other day a poor woman in Ohio sent a wee corner of a twenty dollar bill, with a pitiful story about her baby having burnt it. Hardly more was left than a fragment large enough to show the figures of the denomination, but she will get the money back.

Mice are great destroyers of paper currency, and some of the most hopeless specimens that come in have been chewed up for beds by those little rodents. Sometimes a pillbox full of indistinguishable ashes will arrive, accompanied by a certificate stating the amount represented. Of course such a case is hopeless. It is usually a kitchen stove catastrophe.-Washington Letter.

Library and Museum of War Relies. Plans have been drawn for the erection in this city, by the Military Order of the Loyal Legion, of a library and museum of war relics, which would in time become a most valuable institution. The history of the war has not yet been written, and probably cannot be until all who took part in the struggle have passed away, and then it must be written by some patient, disinterested historian, who shall examine all the evidence on disputed questions of fact, which he can do only by the aid of a great reference library. The Loyal Legion is engaged in a national undertaking, but it is one of peculiar local interest to Philadelphia, where it is proposed to erect this grand memorial of the war. -Philadelphia Ledger.

SECOND SALE OF SAMPLE SHOES

FACTORY PRICES

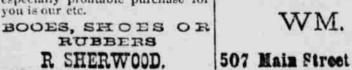

We take pleasure in annoucing to the people of Plattsmouth and surrounding towns that we have succeeded in getting another line of sample shoes. Our success with the last line was phenominal and hun dreds were disappointed because they came too late to secure some of the bargains that we offered. This line is better if anything than the last, being Walter H. Temmy & Co., of Boston, Mass., full line consisting of La. dies, Misses, Childrens, Mens and Boys shoes of all kinds and of all de scriptions. Among them is 300 pair of boys and Mens boots, in which we can give the best value for your money that you ever "laid eyes on," Don't think that because we don't ask high prices for shoes that the shoes are not of any high quality. We have among these shoes that are as fine as any shown in the city, everything extrinsic is stripped away and the shoes that you buy of us stands on their intrinsic worth. We dig

at the root of values and give you the worth of your money.

HERE'S A FEW OF THEM:

We are Still Giving Great Bargains in When you go to a shoe store your object isnot only to buy shoes but to procure for what you spend the best that your money will buy. Less than this will not content you; more than this you cannot, in reason, ask. Our methods are as simple as your desires. We do not lift your expectations to the clouds, but we realize them whatever they are. We will never sacrifice your interests to ours and nowhere else can you get a fuller and fairer equivalent for your money. An Sizes. especially profitable purchase for

Underwett.
