THE republicans experienced no difficulty selecting a candidate for speaker.

GROVER CLEVELAND, Esq., is probably the most restless man in the country these days.

NEW YORK still leads the van. It is stated that 70 females have licences for selling beer and whiskey in that city.

SPENDING \$2,000,000 to have over \$33,000,000 in the same time, looks like good economy, yet this is what porter of the doctrine and in the is meant by improving the Missouri river system.

GERMANY expended \$100,000,000 in improving the Rhine: New York invested \$34,000,000 in the Erie canal Neither could afford to lose the advantage thus gained for many times the sums so invested.

GOVERNOR SENATOR HILL WILL doubtless experience some inconvenience looking after his duties as Governor while he is filling his doubt however, that he will arrange to receive his salary regularly.

CRISP, Mills and Springer might settle their differences by uniting on Ex-speaker Reed for speaker. In doing this the blunders of a democrat speaker would not endanger the chances of party success in '92 and the country at large would fare better.

It has been said by good authority ventors at the late election. If we that Russell Sage is the most charit able man living. While he does not as a rule, write out a check for any amount which many be asked for, he does make it a point to re lieve distress where it is most needed and give to the most deserving.

THE countries with which a Mc-Kinley reciprocity has already been concluded are Brazil, Cuba, Porto Rico, San Domingo and the Hawaiian Islands. It is well known that the Cleveland element of the democratic house favors Mills for the speaker- use, ship, because Mills, more than any other man, represents the Cleveland free trade idea. Let them have Mills. All the republicans plush, in which is kept some family heirdesire to insure them the earth in 92 is a thoroughly democratic house this session.

THE republicans of Ohio are making an effort to inaugurate Governor M'Kinley with ceremonies that have never been more imposing. Republican clubs and representative republicans from all over the union will probably be in attendance. It will be a proud day for the foremost champion of the American system of protection to American industry and labor.

THE western democratic papers favor Boise for the second place on have discovered with regret that your the ticket far 92, banking on the probability of his carrying lowa. #### CRIP'S ELECTION.

In the nomination of Mr. Crisp for the speakership the democracy of this country has taken a decidedly aggressive and some may term progressive step. Heretofore the policy of the democratic party has been outlined by the Carlisle as against the Randall element, resulting in the steady drift toward years Cleveland has been considered the most pronounced supcandidacy of Mills in this contest, the future prestige of this free trade element was involved. Crisp, on the other hand received support, in a great measure from the old Randall following with such accessions as he might obtain because of hostility to Cleveland, views on the silver question. Crisp has placed himself on record as favoring the free colonge of silver and being decidedly against free trade. The result is in a measure a victory for the republican party, though in ache science. J. Sommers, Stephney, seat as senator. There is little, the end, the party will probably not Conn. fare as well as it would had Mills been the choice, inasmuch as a radical free trade bill would likely have been presented and that party placed upon the defensive on that

The choice of Crisp may be interpreted as a triumph for the Hill faction of the democracy, a set back for free trade and the promotion of the free silver idea as was favored by the platform of an as was favored by the platform of silver idea as was favored by the platform of silver idea as was favored by the platform of silver in the definition of the definition, and the definition of the definition, and the definition of the definition of the definition, and the definition of the free silver idea as was favored by the platform of the definition of the free silver idea as was favored by the platform of the free silver idea as was favored by the plat free trade, we shall have to be con- free. tent with honest money vs. free coinage in the campaign of '92.

One Way to Fix Up an Old Room. If you are repairing an old house and wish to have one or two striking and effective features, choose a room for a den and have the whole of a windowless side finished with drawers, cupboards, nooks and pigeon holes. Shut in some of these with stained glass doors, drape others with real silk or blue and white porcewith matting and rugs. If possible place low seats in the windows for plants or books. Select wrought iron frames for hanging lamps, with a copper candlo stick placed here and there for pick up

An old portable clothes closet may be converted into a corner shrine for such a room by being covered with dark red looms or a beautiful vase. A few odd bamboo pieces of furniture will best harmonize with the rest of the room, or stiff carved chairs in dark mahogany. The Trouble With the Pepper.

The late P. T. Barnum, being a pronounced joker, turned also his witty faculty to use. When he told the Adirondack landlord, with great solemnity, that he hesitated to find fault with anything about the hotel when so much was agreeable, he was urged by the landord by all means to be frank and do so. "Well," said Barnum, "it is only one thing; I pepper is half peas." The landlord declared it could not be; but, on being assured that Barnum knew pepper as well as ginger, he wrote a caustic letter to his grocers about sending him such stuff. They, knowing doubtless who the real would spell "pepper" he would find half of it composed of p's, and that that which they sold had only the amount the orthography required.-Printer's Ink.
