

The Plattsmouth Weekly Herald

VOL. XXVII. NO. 38. PLATTSMOUTH, CASS COUNTY, NEBRASKA. THURSDAY DECEMBER 17, 1891. \$1.50 A YEAR.

33 per ct. difference. Royal Baking Powder, Strongest, Purest, Most Economical.

Certain baking powder makers are publishing falsified extracts from the Government reports, with pretended analyses and certificates, wherein an attempt is made to compare their baking powders with the "Royal," or making bogus tests from house to house, their obvious purpose being to counteract the recent exposures of the inferiority of their own goods arising from their impurity, low strength, and lack of keeping qualities as shown by the Government chemists and others.

As to whether any of these baking powders are equal to the "Royal," the official tests clearly determine. When samples of various baking powders were purchased from the grocers, and analyzed by the United States Government Chemists and the Chemists of State and City Boards of Health, the reports revealed the fact that the "Royal" contained from 28 per cent. to 60 per cent. more leavening strength than any other cream of tartar baking powder and also that it was more perfectly made, of purer ingredients, and altogether wholesome.

As these powders are sold to consumers at the same price, by the use of the Royal Baking Powder there is an average saving of over one third, besides the advantage of assured purity and wholesomeness of food, and of bread, biscuit and cake made perfectly light, sweet, and palatable—advantages not to be had in the use of the low grade, cheaply made baking powders that contain lime, alum, and other impurities.

Advantages of Plattsmouth.
The high school has been studying the past, present and future of Plattsmouth in their general instruction work. One question was to name the advantages of Plattsmouth as a manufacturing center. It thought that the advantages named by Henry Snyder were the most complete and thinking they will be interesting to our readers we produce in full:

1. It is the gateway to the South Platte country.
2. It is on the Missouri river, assuring great water privileges.
3. It is located by nature so that the best of water-power can be secured from the Platte river.
4. It is located on two trunk line rail-roads, the C. B. & Q. and M. P., thus securing the best of shipping facilities.
5. It is in direct and close connection with the great coal-fields of Missouri, thus securing cheap fuel.
6. It has plenty of cheap land that can be secured for manufacturing purposes.
7. It has an energetic class of business men, who are willing to give time and money to secure manufacturing institutions.
8. It is not influenced by labor unions and will thus avoid all troubles on account of strikes.
9. It has an endless supply of lime-stone for building purposes and for the making of lime.
10. It has a never-ending supply of clay for the manufacture of tile and brick, and two extensive brick-yards.
11. It is the center of the best fruit growing section of the state, and needs a copper-shop to prepare for the shipment of fruit.
12. It is in the center of the best stock country in the world and needs a packing establishment.
13. It is by nature the distributing and collecting center to the South Platte country, which can raise the best sugar-beet in the world; so a beet-sugar factory would be an excellent investment.
14. It is the market for endless quantities of straw and flax, which would insure a prosperous paper mill.
15. It is the market for a never failing potato and corn crop, so that a starch factory would be a paying investment.
16. It is surrounded by one of the best wheat and oats regions in the world, so that a cracker and oatmeal factory would not fail to prosper.
17. It has an excellent system of water works which secures it against fire and supplies an endless amount of pure water for private and manufacturing purposes.
18. It is located in a pocket formed by the Platte and Missouri rivers which protects it from severe storms, making a climate unsurpassed by any city in the world.
19. It has a natural drainage and an extensive system of sewerage which insures a good sanitary condition and good health.
20. It has an excellent system of public schools and a high school that is anxious to do what it can to benefit the town mentally, morally, and financially.
21. It has prospering church organizations of every denomination.
22. It has the best hotel accommodations of any city of its size in the west.
23. It is the county seat of Cass county and a new \$80,000 court house is now being constructed.
24. It has all the improvements of a modern city of 10,000 inhabitants and has more natural advantage for becoming a great manufacturing city than Omaha. Any manufacturing establishment that would be a profitable investment in

Omaha would pay much better if located in Plattsmouth. Capitalists seeking profitable investments in the great west will do well to address.

HENRY E. SNYDER,
Plattsmouth, Neb.

Some of the advantages were given in the following answers:—
Because it has plenty of men needing employment who would work cheaply.
It does not have many manufacturing establishments so there are plenty of room for more.
Because it has thirteen saloons.
It has plenty of rags and should have a paper mill to manufacture them.
It has good policemen.
Because a great many hogs are raised in the vicinity of Plattsmouth.

When Bobby Gaylor is in New York he stops at the house of an Irish lady who hails from the historical city of Cork. Bobby claims that he tries all his new gags and songs on her first and that she is the best audience he ever played to.
The many friends of Jake Hendrich will regret to learn that he is still lying in a critical condition, with very little or no hope entertained for his recovery. His strength is almost exhausted and the end is thought to be only a matter of a few weeks at the most.
Several of the Plattsmouth delegates to the Missouri river improvement convention which convened at Kansas City yesterday were given recognized in the appointment of committees. We notice that M. B. Murphy was selected as a member of the committee on credentials; C. W. Sherman a member of committee on permanent organization and Senator Thomas as a member of the committee on rules. Gov. Thayer was selected chairman. But little business was transacted aside from preliminary arrangements. The business will largely be done to-day.

HERE is what the manufacturer says in regard to Solid Silver Metal goods and Solid Nickel Silverware: "There has been a growing demand for years for a grade of Spoons and Forks to take the place of Solid silver and plate ware. We have experimented for some time to attain this end, and are now able to offer the public our Rogers' Metal and Rogers' Solid Nickel Silver. We guarantee this metal superior to any Nickel Silver manufactured and have the greatest confidence in assuring our customers that this ware is inferior to service only to solid silver. It is a beautiful white color, is highly polished and can hardly be distinguished from pure silver. We recommend this ware especially for hotels, restaurants and boarding houses, as it will stand more hard usage than any other metal; is very tough and hard; will hold its color and will outwear any plateware ever manufactured. All our customers know Rogers' ware by reputation. This firm have manufactured plated ware since 1865, and their name is never put on goods that are not of a high grade, so our customer can rest assured that they are getting some very desirable goods when they get goods under their brand. Come in early and secure a share of these goods before it is too late.

We Guarantee our Prices to be the Lowest and Invite Competition.
