Royal Baking Powder Has no Equal.

The Royal Baking Powder will make sweeter, lighter, finer-flavored and more wholesome bread, biscuit and cake than any other leavening agent. It is of higher strength, and therefore goes further in work and is more economical. All government and scientific tests go to show this. Royal Baking Powder as a leavening agent is absolutely without an equal.

RUSH MEDICAL COLLEGE, CHICAGO.

"As the result of my tests I find the Royal Baking Powder superior to all the others in every respect. It is entirely free from all adulteration and unwholesome impurity, and in baking it gives off a greater volume of leavening gas than any other powder. It is therefore not only the purest but also the strongest powder with which I am acquainted."

"WALTER S. HAINES, M. D.," Prof. of Chemistry.

CHICAGO COLLEGE OF PHARMACY.

"The Royal Baking Powder, which tests the highest in strength, is free from lime, alum, lime phosphates or other adulterations. Its superlative purity, the entire wholesomeness of its ingredients, the scientific manner in which they are combined, together with its much greater strength, make the Royal unquestionably superior to any other baking powder."

"H. D. GARRISON," Prof. of Chemistry.

An Insane Woman's Actions.

The arrival of the flyer at Lincoln was awaited with considerable interest last evening. A telegram had previously been received stating that an insane woman had run every passenger and trainman from the car and held possession by means of a 32-calibre revolver. Several officers were on hand when the train arrived, for the purpose of capturing the woman, and probably 800 people were attracted to the scene by curiosity.

After the train arrived the woman fired two shots, one of which barely missed a bystander. Upon a promise of the police that she would not be killed, she gave herself up. Before the train arrived at Lincoln she had shot a colored porter in the leg, afflicting a slight flesh wound.

The woman was bound and taken through Plattsmouth last evening for Philadelphia, where she will be properly cared for.

NEBRASKA WILL HELP.

The Starving Russians to be Aided From our Over Stocked Granaries.

Several states throughout the union, notably among which are Ohio, Iowa and Nebraska are taking steps to provide for the famishing people in Russia. The following from the state Journal relative to the part Nebraska will take is worthy our attention.

Governor Thayer's appeal to the people of Nebraska for a train load of corn food products is receiving prompt attention. Deputy Labor Commissioner Ludden hopes to raise ninety cars within a short time without much difficulty, judging from liberal donations already offered. Then if the northwestern millers fail to get the 40,000 barrels of flour they have pledged Nebraska people may continue to be liberal and help them raise the balance.

The attention of Nebraska millers is called to the offer of O. A. Cooper of Humboldt, who writes that he has just read Governor Thayer's proclamation, also Mr. Ludden's communication in The Journal. Before seeing them he had agreed to donate one hundred 140-pound sacks of flour for the cause, or if other state millers would give liberally he would not hesitate to give a full car load. He has since received a circular from the Northwestern Miller on the same subject, but he signifies his willingness to donate to the Nebraska project. "I realize," he writes, "that by donating the same amount in cornmeal we would not only do a generous act, but would, as you say, advertise and help to build up a market for our corn products, and I can donate the same amount of corn meal as well as I could in flour. Let me know what other millers of the state are doing."

S. E. Solomon of Culbertson writes that people in that section stand ready to contribute a car of corn and he asks for direction in regard to shipping. Other letters received are of the same generous nature.

Nebraska State Teachers' Association.

For the benefit of our city teachers, or any others who may feel disposed to attend the state teachers' association meeting which convenes Dec. 29, 30 and 31, we again call attention to it. The officers of the association are W. E. Andrews, Hastings, president; W. H. Gardner, Nebraska City, secretary; W. H. Skinner, Crete, treasurer.

The association is divided into three sections, as follows: Public schools, of which J. A. Hornberg, Norfolk, is president; colleges, G. L. Farnham, Peru, president; county superintendents, W. M. Clary, Nebraska City, president. Each section will hold a session in a particular room and discuss questions bearing directly upon its line of work. Quite a lengthy program has been prepared the exercises to be participated in by some of the foremost educators of the state. The teachers of the county that find it convenient to attend this meeting will doubtless be benefited. They can well afford to lay aside the cares of the schoolroom for a few days. Let it be a time of Christmas greeting, a time in which the teachers may mingle together and discuss plans for future work that cannot fail to be mutually helpful.

HERE is what the manufacturer says in regard to Solid Silver Metal goods and Solid Nickel Silverware: "There has been a growing demand for years for a grade of Spoons and Forks to take the place of Solid silver and plate ware. We have experimented for some time to attain this end, and are now able to offer the public our Rogers' Metal and Rogers' Solid Nickel Silver. We guarantee this metal superior to any Nickel Silver manufactured and have the greatest confidence in assuring our customers that this ware is superior to service only to solid silver. It is a beautiful white color, is highly polished and can hardly be distinguished from pure silver. We recommend this ware especially for hotels, restaurants and boarding houses, as it will stand more hard usage than any other metal; is very tough and hard; will hold its color and will outwear any plated ware ever manufactured. All our customers know Rogers' ware by reputation. This firm have manufactured ware since 1865, and their name is never put on goods that are not of a high grade, so our customer can rest assured that they are getting some very desirable goods when they get goods under their brand. Come in early and secure a share of these goods before it is too late."

A. C. O. T. Social.
The C. O. T. society, composed of about a dozen young ladies, held a "hen" social at the home of Miss Ida Boeck last evening. The O. D. C's were "shut out" entirely, but notwithstanding this the girls report that they never enjoyed themselves better. The evening was spent indulging in musical and instrumental, and other amusements of a delightful nature. At a seasonable hour a well prepared luncheon was served.

The following were present: Mesdames Sam Patterson and Schmittman - Misses Mae Dutton, Bert Wise Mamie Stiles, Frankie Stiles, Nettie Ballance and May Patterson.
