BLAINE'S letter will nominate Harrison by a unanimous vote without the least opposition.

ALL that the Minneapolis convention will have to do will be to make a platform and nominate a candidate for vice president. Its work in other respects is already done.

In January, 1891, the United States shipped only 2,720 sacks of flour to Cuba; in January, 1892, the amount was 62,371 sacks. This is one of the latest facts in vindication of what the democrats call "the Blaine reciprocity humbug."

THE anti-Hill democrats in New York have decided to choose a full set of presidential delegates, who will claim admission to the national convention. This will make two sets of delegates, and it is more than probable that that body in the wrangle between these delegates will admit half of each set and thereby defeat both Cleveland and Hill, and nominate a dark horse.

BRITISH WARNING TO WELSH TIN PLATE MAKERS.

It is seemingly but a few years ago that we made all the rails that America needed. It was the Welsh rail which linked the puritan north to the cavalier states of the south; which crossed the great pampas and wastes, bringing the Mormon into control and helping to subdue the redskin, and bringing, we may add, the granaries of Chicago and the great industries of Pennsylvania as tributaries to European needs. What do we now make? Not a solitary rail goes from Wales to the States! Ironmasters once thought that the Americans could not make steel rails. They have now beaten our record. We have dreamt that we only can make tin plate; that there is something in the coal and iron we have different to others. This is only a dream. The shrewd American, a product of the keenest of every land—many expatriated for the fact that their quick brains were not under moral discipline—will be sure to meet home demand with home supplies.—London Iron Trade Circular.

SEAL PLUSH, PRICE AND TARIFF.

The Dry Goods Chronicle of Jan 22 published an interesting article on the effect of the McKinley tariff on seal plush. It was anticipated says the Chronicle, that the new tariff would lead to a considerable increase of price. But no increase has taken place, though the increased duty on imported plushes has been in operation for about fifteen months. This is due to what our contemporary calls "the large and continued extension of the manufacture in this country." When the McKinley bill was under debate the free trade told us with great solemnity that there was but one seal plush factory in the United States, that it would be the sole beneficiary of the addition to the duty on plush, and that it would be the difference between 50 per cent ad valorem, which was the duty under the old law, and \$1.75 to \$3.50 per yard, plus 15 per cent ad valorem, which is the duty, to the selling price. They denied that new factories would spring up and create competition.

They had the argument; the fact, now that the fact has time to appear, is, as usual, against them. The Dry Goods Chronicle states the present condition thus: "Manufacturers have failed to keep the advantage in the way of higher prices, which they expected from the tariff. The cause is that plushes made here are sold at a substantial re-

duction on price of imported goods."

Which is just what protectionists said the tariff would result in, and just what free traders said it would not result in.

The Dry Goods Chronicle further says:

"The consumer, however, benefits by this, and now can obtain for \$1.75 per yard a very serviceable fabric which heretofore cost importers \$2, if not more, to land."

That is to say, we now make much of our own plush, instead of importing most of it. We get of as good quality as ever and at a lower price than ever. "Wherefore," says the free trader, "the tariff is a tax." The people, however, welcome all "taxation" that leaves money in their pockets.

PRICE OF FARM PRODUCTS.

If the farmer will carefully study the changes in the market price of all farm products by a comparison of the farmer's price and the manufacturing price, or in other words, the price on the farm and the price at the factory, he will see what an advantage manufacturing states have over those which are pure agricultural. The manufacturing states during the past year have been paying an average of 91 cents for corn, 95 cents for wheat, 60 cents for rye, 55 cents for oats, 60 cents for barley, 58 cents for Irish potatoes, and \$11.25 per ton for hay; while in the agriculture states the average price for the same period was for corn 25 cents, wheat 66 cents, rye 34 cents, oats 20 cents, barley 40 cents, Irish potatoes 25 cents, and hay \$5.30 per ton, being an average of about 60 per cent, in favor of the manufacturing states. It can not be said that the cost of production in Pennsylvania is any greater than it is in Wisconsin, therefore the comparison leads the thoughtful producer in this investigation to clearly see and understand that the farm needs the factory in order to secure the best prices.

Dissolution Notice.

The firm of Weidman & Brekenfeld is this day dissolved by mutual consent. Mr. Weidman retiring and Mr. Brekenfeld continuing the business and assumes all indebtedness contracted by said firm. All persons knowing themselves indebted to the firm will call and settle at the old stand. GEO. P. WEIDMANN, C. BREKENFELD. February 4, 1892.

Going to Hastings.

March 15, I will move my stock of hardware to Hastings, Neb., and to avoid moving will sell any goods I have at prices never before heard of. Come early and avoid the rush. J. FINLEY JOHNSON.

I feel it my duty to say a few words in regard to Ely's Cream Balm, and I do so entirely without solicitation. I have used it more or less half a year, and have found it to be most admirable. I have suffered from catarrh of the worst kind ever since I was a little boy and I never hoped for cure, but Cream Balm seems to do even that. Many of my acquaintances have used it with excellent results.—Oscar Ostum, 45 Warren Ave., Chicago, Ill.

Circulating Library.

The Y. L. R. A. are placing their books in J. P. Young's store for the purpose of establishing a circulating library. They expect to add a large installment of books at once. Anyone purchasing a yearly or quarterly ticket will have the privilege of adding the name of one book to the list, which will be purchased in the new installment. The intention is to keep the new and popular books in circulation. Yearly tickets, \$1.00; quarterly, 50 cents; monthly, 25 cents; and 10 cents a volume.

La Grippe.

No healthy person need fear any dangerous consequences from an attack of la grippe if properly treated. It is much the same as a severe cold and requires precisely the same treatment. Remain quietly at home and take Chamberlain's Cough Remedy as directed for a severe cold and a prompt and complete recovery is sure to follow. This remedy also counteracts any tendency of la grippe to result in pneumonia. Among the many thousands who have used it during the epidemics of the past two years we have yet to learn of a single case that has not recovered or that has resulted in pneumonia. 25 and 50 cent bottles for sale by F. G. Fricke & Co.

The Factoryville Roller Mills' new process buck wheat flour "takes the cake." There is no better made. Ask your grocer for it. All live grocers keep it, if they do not they will order it for you. T. M. WARNE, Union, Neb.
