REPUBLICAN CITY TICKET.
For Mayor, H. N. DOVEY.
For Treasurer, T. H. POLLOCK.
For Clerk, M. N. GRIFFITH.
For Police Judge, WM. B. SHORT.
For Members School Board, J. I. UNRUH.
W. N. McLENNAN.

For Councilman First ward, GEORGE LONGENHAGEN.
For Councilman Second ward, P. D. BATES.
For Councilman Third ward, F. H. STEINKEK.
For Councilman Fourth ward, J. F. LAKE.
For Councilman Fifth ward, A. J. GRAVES.

THE nickel congress has set June 1 as the probable date of adjournment.

DAVID B. HILL has made republican success a sure thing this year, he can have the apples.

H. N. DOVEY is growing in popularity every day and will be elected mayor by a handsome majority.

It looks now as if Hill was off the track and that there may be another Harrison-Cleveland canvass after all.

J. I. UNRUH should be re-elected to the school board. He is the best secretary by all odds that that board ever had.

G. LONGENHAGEN will make a No. 1 councilman and the citizens of the First ward will see that he fills that place for the next two years.

W. N. McLENNAN, the republican nominee for member of the school board for the Fifth ward, is a college bred man, and is the right man for the school board and should be elected.

THREE negroes were sold at public auction to the highest bidder yesterday at Fayette, Mo., their names are G. W. Patterson who was bought by a farmer for \$25; Henry Lee sold for \$3 and the other one Otto Williams was sold for \$1.00.

A son of the largest shoe manufacturer in Glasgow, Scotland, is studying the shoe business in Brockton, Mass., with a view of applying American methods to the manufacture of shoes in the old country. American methods are now supreme not only in the manufacture of shoes, but in iron, steel, cotton goods and many other industries. Indeed, the great nations of Europe are gradually awakening to a knowledge of the fact that in the short period of one hundred years we have become the greatest industrial nation on the globe. The only one who does not seem to be able to get this truth into his calamity-billed head is the tariff "reformer," who still looks upon us as an agricultural community.—American Economist.

MODERN CARRIAGE.

The new disappearing gun carriage, which has been in position at the proving grounds since November, was yesterday put through a proving test. The former test proving satisfactory, the carriage was turned over to the government and yesterday's tests were intended to try its power and workings before recommending its acceptance by the government. The machine is a triumph for American skill and genius, and is the first carriage of its kind to be successful. A large number of tests have been made by England, Germany, France and

Russia to find just such a carriage as this, but all unsuccessful. The gun was mounted on a parapet of the old fortification, with her muzzle turned toward the lightship. When prepared to load no part of the gun could be seen from the beach in front of the parapet, but the moment the loading was completed the machinery is set at work and in an instant the big gun weighing 67,000 pounds is raised above the water. The elevation for fire was eight feet from the load position. The gun was fired with an electric primer and the recoil was easy. The time elapsing from the completion of the loading position to recovery after reaching the firing position and dropping back was less than half a minute, and it is estimated that the gun could be hoisted, fired and lowered to its original position in less than twelve seconds. The gun used yesterday was one of the new ten inch steel rifles, and the projectile used weighed 565 pounds. The carriage was designed by H. H. Sillers, one of the designers of the Terror. Its operation was automatic and it weighs twenty-five tons.

DEATH OF A NOTED EDITOR.

For more than twenty years Morrison Mumford has been a prominent character and an important factor in political and general affairs of the rapidly growing west, and to Kansas City he has been a never faltering champion and a never tiring friend. His death leaves his place vacant. In whatever he undertook to do he never recognized the possibility of failure so long as physical endurance and time left a straw within his grasp. Countless beneficiaries of these characteristics of the man will read of the ending of his life work with feelings of the sincerest grief. If there are any exceptions to the rule, they are of those who received but never gave. At all times his chief pride was his newspaper (the Times). In that were centered his ambitions, his hopes and his cares. It is not without warrant to say that his failure to stem the tide of business complications, which resulted in the loss of his paper, was in a very great measure responsible for his death. This fact, if nothing else, would account for the feeling of universal sympathy that to-day prevades this community, where his every influence has been so strongly felt. The world is just to one who has its sympathies, and even enemies and cowards smile approval of the truth when death stands witness.—Kans City Journal.

The latest news in the lace curtain industry is that another factory is to be started at Philadelphia. Rowland & Schmidt, who were manufacturers of Brussels carpets and who sold their carpet plant last fall, have ordered ten lace curtain machines and are now fitting up a factory on Lawrence street, above Girard avenue, in Philadelphia. Mr. A. E. Schmidt's visit to England some weeks ago was for the purpose of investigating the manufacture of lace curtains, and the result of his mission must have been favorable, as shown by the firm's decision to embark in the industry. The factory to be occupied was formerly used by John W. Priestly for the manufacture of carpets, and is a five story building, about 40x100. The firm have ample capital to prosecute the business and enlarge their production if successful.—The Carpet and Upholstery Trades Review, March 15, 1892.

JUDGE MAYNARD is not the first member of New York's supreme court to be disgraced. There were two judges impeached about twenty years ago under similar circumstances to those which surround Maynard now. At that time there was a great corruptionist in New York known as Boss Tweed. He controlled the legislature and the courts for a time, and when the people drove him from the country they necessarily had to purge the supreme court. The circumstances are similar now. Tammany has lifted up another boss who stops at no form of corruption, and while Dave Hill has not yet been driven from the country as an exiled criminal, he has made the supreme court almost as notorious by placing a corrupt judge on the bench. History repeats itself.—Inter Ocean.

G. A. R. CAMP FIRE
APRIL 9, 1892 AT
ROCKWOOD HALL.

McConihe Post No. 45 will hold a rousing camp fire on Saturday evening, April 9th, the anniversary. Turn out everybody as we will have something that will interest you.

D. A. DORSEY
Will give us a talk on the Anderson raid which consisted of 24 men who went down in the very heart of the rebellion at Big Shanty, Georgia, captured an engine and several cars and made their escape. It is one of the most thrilling incidents of the war. Money spent to hear Conrad Dorsey will be well spent.

COMRADE DORSEY is no humbug as he was one of the 24 raiders called by the rebels "the engine thieves."

ADMISSION 25 CENTS.
Supper will be served by the W. R. C. in the G. A. R. Hall.
