BABY A SOLID SCAB

Forturing Disease of Blood and Skin. Many Doctors Fail. Cured by the Cuticura Remedies.

Thave a sister troubled with blood or skin disease. It commenced when about one year old. We would try one doctor and then another, and it seemed like they were (jast to get rid of it. When they would commence, they would say it is easy dried up and cured, but at last they would say it could not be cured. It ran on about two years. We had tried all the doctors around, and they had failed. I saw your advertisement in the paper, and wrote you for directions and you sent me a copy of your book at once. We then got Curicuna Remannes and used it. It dried up the sores and healed them up right away. Her face, head and parts of her body were a solid scab. The way it would commence it would raise a small jump under the skin, then became a small purple and itched so that she got no rest night or day, and she would scatch them, and yellow matter I have a sister troubled with blood or skin disease. day, and she would scratch them, and yellow unite would come out of them and they would kee spreading and itching. The judiciary committee reported an ordinance entitled an ordinance to extend the fire limits of the City of Plattsmouth," and upon motion the ordinance was rejected.

An ordinance was reported by the judiciary committee entitled, "an ordinance to prohibit the posting of obscene lithographs on the bill boards." The ordinance was placed upon its second and third reading and adopted.

Mr. Larsen moved that the claim of A. N. Sullivan against the city for \$600 be allowed. As Mr. Larsen received no second to his motion, it was moved and seconded that the matter lay over until the second meeting in April. Carried.

Mr. Peterson then brought to the council's attention the fact that the water from Pearl Street flooded his property, and asked that some action be taken to prevent it by putting in a drain pipe on Pearl and run it through his property and connect it with the sewer in the alley. Mr. Peterson said that if the council would allow him \$30 he would put in the pipe and fix everything satisfactory. Mr. Peterson's

Wasking Little Indians.

We were camped at the Hot Springs on the Lo Lo trail, made famous in Indian annals by the escape of Chief Joseph and his band of Nez Perces. Just above us was a large camp of Flatheads who were making their fall hunt. One morning we were awakened by shouts and cries. Evidently there was great excitement somewhere, and we promptly jumped up. It was just after daylight and cold clouds of steam were rising from the big basin shaped pool at the foot of the granite wall, from which poured a thick stream of boiling water. The pool was so large that at the lower edge the water was almost cold. The nearer you approached to the place where the water burst from the rock the allied with Missouri in sentiment better chance you stood of getting boiled.

At the edge, at a point where the water ored men. was of a comfortable temperature, stood two Indians, one on the bank and the other on a stone in the water. Near by were a dozen other Indians guarding a number of little Indian boys and girls who had nothing on and were howling and crying.

When we looked out of the tent the two Indians at the pool had an Indian boy, one holding him by the feet the other by the hands, and were gravely swinging him backward and forward through the warm water, while he yelled at every dip. As soon as they had finished with him he was set upon the bank,

and ran to the willow brush near by. Then the noise redoubled, for each child in the group guarded by the Indians feared that it was his turn. They all tried to escape to the brush, but their elders pursued and caught them, until. the very last one had been put through the cleansing process.-New York Sun.

Big Field Guns and Their Effect.

If you insist on high velocity you have to add so much additional machinery to your gun carriage and have to sogreatly strengthen its construction that you destroy its mobility, while even if you gain a long range you are still unable to the question. They stated their make use of your most efficient projectile at it. Moreover, since the remaining velocity of its shrapnel is a truer measure of the value of a gun than its initial velocity, and the two are by no means directly proportional, it does not follow that we benefit as much as we might expect by submitting to these disadvantages. Thus, the 12-pounder has an initial velocity of over 1,700 feet per second and a remaining velocity at 3,000 yards of 862 feet; while the 13-pounder, with an initial velocity of only 1,560 feet, has at the same range a remaining velocity greater by six feet per second than that of its rival.

One of our highest authorities on field artillery has, indeed, recorded his opinion, that, as regards the efficiency of shrapuel, we gain nothing by the increased muzzle velocity of "the best field gun in Europe" at all practical ranges. Mereover, it is the attempt to squeeze out the last few extra feet that does all the harm.—Loudon Saturday Review.

Modern Education.

With all its novel modern powers and practical sense I am forced to admit that the purely scientific brain is miserably mechanical; it seems to have become a First ward-Clerks, L. C. Skill In the Wrist.

It is wonderful what a part the wrist plays in exercises in which physical skill and delicacy are required. After a man learns to play billiards well enough to Levi Churchill, Fritz Heinrich and be ismillar with the cushions and the Dr. John Black; policeman, William | English, the important thing to cultivate is his stroke. Now, the stroke wholly depends on the action of the wrist. Jake Scharffer, or any good player, will make a shot of seven cushions with less apparent force than a beginner will exert in getting three. This is due to the superior wrist movement.

the recent meeting in the Cooper Union were brought together to protect the common right of democratic citizens by insisting that forms should not be used to strangle substance. To say that these democrats-many of them long eminent in the party councils for devotion and faithful service-were disaffected or disloyal or "mugwumps" is wholly beside grievance and based their reluctance to arbitrary dictation upon the statement above quoted. If the fact was as stated by them, who could deny the justice of their remonstrance? If it were otherwise and the hastening of the convention at so unusual a season was not intended to effect an ulterior and unavowed purpose, then it was incumbent on the movers to justify their action otherwise than by frivolous pretences or angry denunciation. Just remonstrances deserve something more than ebullitions of temper in reply. Strike, if you please, but answer if you can otherwise than by blows.
