

# ANOTHER RED HOT GAME.

The Home Team Lose Another Game.

TWO HOME RUNS MADE YESTERDAY

An Exciting Game at the Ball Park Yesterday--Beatrice Wins After a Hard Fought Battle

--Fremont Beats Hastings.

Plattsmouth yesterday was given the benefit of another big, everlasting dose of defeat. The Beatrices were the ministering angels of the occasion and they were properly onto their job. They jumped out with the lead and kept on increasing it with alarming regularity. They gathered in a profusion of base hits--entirely too many for the good of the Plattsmouth team--among other hits being a couple of home runs, thrown in by Mr. O'Hoolihan and Mr. Slagle. These two gentlemen made themselves entirely too prominent in the game by their uncharitable acts.

Mr. Slagle distinguished himself by pitching a wicked, nasty, diareputable and entirely too crooked ball for the Plattsmouth team to hit and for this reason he did stir up the bleachers to a high and mighty pitch of excitement.

And then Beatrice has several other mean and ornery players on her team. There is a man named Howe. How he ever got in a three-base hit is a mystery, but he got it just the same.

And then that rising young man, Mr. Taylor, got in a two-base hit by way of variation, and it proved a very valuable variation, just the same.

And Mr. Jones. He, too, thought he ought to play ball and he caught a full-grown game. There are no chinchillas on Mr. Jones.

And the inspiring youth, Mr. Gatewood. He, also, has a face and at frequent intervals he would raise his wet, moist eyes and appeal for "fair play." He ought to have got it. If he had he would have ornamented the bench.

But Plattsmouth has a few players herself. There is one of them named "Long" John Reeves. This prosperous human raked off two large, luscious base hits yesterday, and one not quite so luscious. He found one of Mr. Slagle's curves wandering around without any perceptible signs of ownership attached to it and he swiped it out in the lot for three bases. Again, he espied another of those things straying about loose and no whiskeys whatsoever nailed to it and this one he hit for two bags. Then he harvested in a single just for luck. Taken all around, he is a large man.

And then our Mr. John Patterson. He, too, had a 7x12 eye yesterday. A stray two-base hit was conveyed about his person and he delivered it at the proper time.

The remaining batting was performed by Long and Sam Patterson.

Of course, we would have won the game but--well, you've heard of the rabbit, etc.

Kennedy, erstwhile the great, adorned the players' bench and chewed tooth picks for a living during the game. He was suffering from bad eyes and the management thought it best to give him a rest. We would suggest that the management needs a little more back bone.

We have no desire to criticize the players for the loss of yesterday's game. They played excellent ball and we hope they will play a winning game to-morrow.

For several weeks Judge Archer has sentenced all the "vags" and drunks that have been brought before him to work their fine out upon the streets, but as yet not one of them has done it. Now what is the matter with Mayor Butler and the city council providing some place for those sentenced to work out their fines, erecting a suitable building and provide the necessary stone and set them to breaking stone? The stone, after it has been broken, can be profitably used. The city government of Nebraska City are talking of such a move. Mayor Butler should take hold of this matter and push it to completion. It is something that the city needs. The building could also be used to shelter the city's machinery. THE HERALD would like to see Mayor Butler and the new council take hold of the matter.

In almost every neighborhood throughout the west there is some one or more persons whose lives have been saved by Chamberlain's Colic, Cholera and Diarrhoea Remedy, or who have been cured of chronic diarrhoea by it. Such persons take especial pleasure in recommending the remedy to others. The praise that follows its introduction and use makes it very popular. 25 and 50-cent bottles for sale by F. G. Fricke & Co.

Will Send a Women Delegate.  
Wyoming will in all probabilities send a women delegate to the national convention at Minneapolis. A telegram from Wyoming says:

"There is every probability that for the first time in the history of the United States a woman will be a delegate to a national convention, and Wyoming will have the honor of inaugurating the custom. Miss Edna Schulte and Mrs. Fidelia Elliott, are candidates for the position of delegate to the national convention at Minneapolis. Since woman suffrage was conferred on the sisterhood of this state they have become adepts in pulling the political wire. The first step in the journey to Minneapolis has been taken in their election as delegates from Laramie county to the state convention, which convenes here Wednesday. It is considered probable that one will be elected."

Some of the Grand Army boys may be interested in the following from Alex. B. Pope, A. D. C., Commander, Dep't. Tenn. and Ga. He says: "We have had an epidemic of whooping cough here, (Stewart, Tenn.) and Chamberlain's Cough Remedy has been the only medicine that has done any good." There is no danger from whooping cough, when this remedy is freely given. It completely controls the disease. 50 cent bottles for sale by F. G. Fricke & Co., druggists.

The Favored Classes.  
Teachers, ministers, farmers, mechanics, merchants, as well as their wives, daughters and sons, who would like to devote at least a part of their time and attention to a work that would bring them in a lot of ready money during the next few months, would do well to look up the advertisement of B. F. Johnson & Co., Richmond, Va., in another column, as it may be the means of opening up to many new life and larger possibilities. These gentlemen have been extensively and successfully engaged in business for many years, and they know what they are talking about when they tell you they can show you how to your financial condition.

Pocketknives and Scissors.  
Any hardware store clerk will tell you that there is a marked falling off in the demand for pocketknives and a very conspicuous increase in the demand for pocket scissors. Up until recently almost every man carried a knife, not for the purpose of protection, but to have it handy for sharpening pencils or any similar purpose. Now, however, the fashion has grown to keeping a knife always on the desk, and as the knives are generally of a high quality they are preferred to those carried in the pocket. On the other hand the convenience of pocket shears is so great and they are now made so cheaply and more convenient than formerly that men now carry them who never thought of doing so until quite recently.--Interview in St. Louis Globe-Democrat.

Movable Curtain Pole.  
A firm in Birmingham, England, is manufacturing a new style of pole for hanging portieres in such a manner that the curtain will not interfere with opening the door. One of the brackets supporting the pole is attached to the door frame, the other being fastened to the door itself. A joint in the pole on the line of the hinge of the door allows the pole to swing back with the door when opened. The pole is held loosely in the bracket on the door and slides over a small roller in the bracket when the door is moved.

One of these fixtures, all brass, with rod three-quarters of an inch in diameter, sells for about \$1.50 all complete.--Philadelphia Record.
