THE WILD WINDS. Loss of Life and Property. A Railroad Bond Case. General Miscellany.

GOVERNOR WASHBURN DEAD. Portland, Me., May 13.—A private dispatch announces the death of Governor Israel Washburn, at Philadelphia, whither he had gone for medical treatment. AUTHORIZED TO NEGOTIATE A LOAN. City of Mexico, May 13.—The chamber of deputies passed a bill authorizing the president to negotiate a loan for current expenses of the government, including public works. THE WINDS. St. Louis, May 13.—The opinion of Judge McCrary, in the Hannibal & St. Joe railroad bond case, was rendered in the United States circuit court at Jefferson City. It is decided that the railroad company is in debt to the state in the sum of \$476,619, with interest at three per cent till paid, in addition to the \$3,000,000 paid by the company in June, 1881, but from this sum is to be deducted \$189,000, interest due on the bonds last January, and \$29,000 due thereon the first of July next, leaving an actual due to the state \$258,619. Neither party is satisfied with the decision, and the case will be appealed to the United States supreme court.

A MURDERER LYNCHED. Sheveport, May 13.—D. C. Hutchins who murdered Will H. Lyon, at the ferry landing, Bossier parish, opposite here, Tuesday night last, while being conveyed to the Bellevue jail, was taken from the guards by a crowd of 100 men and hanged in the woods. As Hutchins saw the masked men coming he pulled a large dirk from his pocket and stabbed himself three times near the heart. After hanging him the following placards were pinned to the body: "There is a point where forbearance ceases to be a virtue—citizens." "Fettermen (both of you) never return, if you do you will follow this desperado and thief." The Fettermen kept stores on the opposite side of the river, and are some way mixed up with Hutchins in the murder. Thousands of people visited the body hanging.

ON THE WAR PATH. Helena, Mont., May 13.—Col. Higes, commanding at Ft. Assinaboine, has information that the Cree Indians are preparing for a general war. Three hundred lodges under Big Bear, Lucky Man and Little Pine, camped within twenty-five miles of Ft. Walsh, ready to cross into Montana to avenge the loss of the Crees in the late horse stealing raid. Higes sent couriers to Ft. Walsh demanding that the British authorities take steps to prevent the Indians crossing the line. Higes thinks the first attack will be made on the Grosventres and Assinaboines, causing great going on the war path and loss to Montana stock interests. A party of Crees a few days ago stole forty horses from the Benton & St. Louis cattle company, and are being pursued by two companies of cavalry from Ft. Assinaboine. A fight will probably result.

A DESTRUCTIVE CYCLONE. Kansas City, May 13.—A destructive cyclone swept across the northern part of this city shortly after five o'clock this evening, unroofing or demolishing buildings for a distance of two miles, the track of the storm ranging from half a block to blocks in width. A number of persons were injured. Some fatalities are reported, but the loss of life is not so great as might be expected in view of the extent and destruction of property. Nothing definite can be given yet, but the loss of property is estimated up in the hundreds of thousands.

THE EXPEDITION. Washington, May 13.—The organization and outfit of the signal service relief expedition to Lady Franklin Bay, under the command of Lt. Garlington, is now practically complete, and Gen. Hazen will shortly go to St. Johns, N. B., in person, to select a ship for the use of the party. Everything, he says, which experience could suggest has been done to ensure the success of the undertaking. Lieutenant Garlington's men were selected with great care by General Terry from among plainmen under his command, and they are believed to be unusually well qualified in point of physical efficiency for the arduous service which may be before them. The best sailing steamer obtainable will be chartered to carry the relief party north, and it is hoped that under the management and guidance of an experienced captain and two or more skilled ice pilots, she will be able to make her way through Smith's sound and Kennedy channel to the signal service station.

CIVIL SERVICE. Messrs. Thompson and Gregory of the civil service commission, left this evening, and Eaton will leave tomorrow. Each of the commissioners will visit a number of principal cities in the country for the purpose of establishing local examining boards to carry out the provisions of the civil service reform act. The commissioners expect to return to Washington by June 1st, and begin examinations for the department.

house was blown completely off its foundations, leaving the family unhurt at the table. A gentleman, sitting at an open window near the track of the storm, was blown across the room through another window and down a passage way, and escaped with little injury. Another gentleman with a little child in his arms was blown 200 feet and came down unharmed. One woman was blown against a tree and had her neck broken. A large number of families were rendered homeless. The mayor has issued a proclamation for a meeting of citizens tomorrow for relief purposes.

Special reports of the storm did considerable damage at Liberty, Mo., damaging large buildings and blowing down smaller ones. The large portion of the Marshall Jewell college was torn away. Damage to similar extent is reported from Pattersonburg in Davis county. The Onondago, St. Louis & Santa Fe road is said to have suffered severely, but nothing definite is learned yet. The wires in this vicinity, north and south, are down and communication with towns in those directions is suspended. The telegraph company report the interruptions are south of St. Joseph and east of Topeka, therefore if the other towns suffered they must be within a comparatively small radius of this city. It is thought there has been no disastrous results except those occurring here. Very meagre information has been received here that a cyclone passed over the lead mining region in southwest Missouri, between 7 and 8 o'clock tonight, doing great damage to the little towns of Oregon and Webb City, on the Kansas branch of the St. Louis and San Francisco railroad. It is said both towns were nearly destroyed and a number of lives lost. The telegraph lines are down and no particulars can be obtained.

THE 'OLD WORLD. The International Fishery Exhibition. Other Matters.

PRAYING FOR BRADY. Liverpool, May 12.—The Irish people here have arranged for the saying of mass Monday for the repose of the soul of Joe Brady, who is to be hanged at Dublin on that day.

CHINA WILL NOT ESTABLISH. London, May 13.—It is understood that the foreign office has received news to the effect that China intends to oppose the plans of France regarding the establishment of a French protectorate in Tonquin.

DALTON ARRANGED. Liverpool, May 12.—O'Connor, alias Dalton, dynamite conspirator, prisoner, who was released from custody in London, rearrested and brought here, was arraigned in court this morning and formally remanded on charge of having been concerned with O'Hearily and Kennedy in dynamite plots.

THE FISHERY EXHIBITION. London, May 13.—The international fishery exhibition was opened today at South Kensington. The United States and Canada exhibits received much favorable comment. Minister Lowell was present with the Prince of Wales, and other members of the royal party at the opening address, made by the Duke of Richmond. He then formally invited the Prince of Wales and his party to the exhibition. The Prince then read the report. After further exercises the exhibition was declared open.

TO THE CITIZENS OF CASS COUNTY

Knowing that you realize the fact that within the last six months we have caused the prices of

Drugs, Medicines, Oils Etc.

to be reduced to "living and let live" prices. We announce that we will not be undersold, and will duplicate any prices quoted by our competitors, which are but a small advance over wholesale prices, from which a faint idea may be gained of the enormous profit at which goods have been sold and the prices imposed upon by consuming public. We sell at a small profit, and expect to build our trade on good goods and low prices, and parties wanting anything in the
