An Auspicious Departure.

WASHINGTON, Sept. 30. - The presidential party started on time this morning. The station was crowded with an immense crowd of people, all cager to see the start and bid good bye to the president. There was no noisy demonstration, but all the men in the crowd respectfully raised their hats as the president passed through the line which had been formed inside the train yard. There were a number of officials and politicians. Secretary Bayard and daughter, Secretary Fairchild, Sceretary Whitney and Secretary Endicott with Mrs. Lamar and Marshal Wilson. They were on hand nearly half an hour before the time fixed upon for the start. The president and Mrs. Cleveland accompanied by Mrs. Folsom drove up in the presidential carriage fifteen minutes before 10. Superintendent Baldwin, of the Pullman Palace Car company, escorted the president to the train and Major John M. Carson, correspondent of the Philadelphia Ledger, to 1charge of Mrs. Cleveland. The pre-

nence of the major caused his associates to here with some but it was no use. He was tucas and a surged to keep back with the common spectators. Just as the party arrived at the station the clouds which had obscured the sky for several days began to break away, and Mrs. Cleveland noticing this remarked to her escort: "Oh, we shall have Cleveland weather. We always take good weather along with us." The train started promptly on time and under the most

NEW YORK, Sept. 30 .- The second attempt to sail the ocean race in the two Bunch, from Illinois, who was a passenout of three match for the America's cup, ger. was accomplished to day, under circumsinnees that compelled the most ultra-Britisher to say the Thistle was beaten fairly and soundly. The day did not open propitiously. The same old storm that had been hanging around for two days was still hung over the sea. The start was made, however, and every one of the 25,000 spectators saw as square a race as was ever sailed in any water.

It was precisely 10:30 this morning that the preparatory signal was given. At that time excursion boats and steam yachts had gathered about the line, makng a gala day picture. A River Steamer Burned.

MEMPHIS, Sept. 30. - The steamer T. B. Simms, plying between Momphis and St. Louis, burned this morning at Island Forty, sixteen miles above this city. She had about 275 bales of cotton and 6,000 barrels of flour and meal aboard, all of The Superiority of American Ship which was destroyed with the boat. The Simms was valued at \$20,000 and is a total loss. So far as known only one life was lost-a young man named

Mourning for a Chief.

Sunnatonna is dead. His life passed peacefully away at noon on Sunday. Sunnatonna held two important and lucrative posts. He was an Otoe chief and a po liceman. His mercenary friends dressed him three times for the grave, thinking no doubt, that this would hasten his demise. When the memory people learned this they had him brought in from camp. dismissed his covetous friends, and coaxed him back to life again; but his fate seemed sealed from the first, and the white flag waves over one more grave of the hillside, and one less is there to receive rations.

Sunnatonna was a clean, tasteful In-dian. He had a pleasant face and a smill for every one. The clerk had given him a pair of alligator slippers in exchange for of civilization, and his cleanly habits and genial disposition, Sumatonna was be loved by more than the wife whom he left to mourn for him, and he will be missed by others than his immediate kinsfolk.

Around Sunnatonna's deathbed stood his wife and some near and distant relu tives. When it was known that he was dead his wife mourned quietly but siucerely. [Press]-Aboui fifty persons gathered in front of the white house this morning to witness the departure of the President and Mrs. Cloveland on their western trip. The President, Mrs. Cleveland, Mrs. Fol som and Mrs. Cleveland's maid were driven to the Pennsylvania railroad depot and boarded the special train in waiting for them. They were shortly followed by Marshal Wilson, Secretaries Fairchild, Whitney, Endicott and Bayard, Miss Bayard, Dr. Bryant and Mr. Bissell. The special train at precisely 10 o'clock mov ed off on its long journey.

The president wore his usual black suit, while Mrs. Cleveland was dressed in a brown silk bodice with white sprig skirt and bonnet to match.

The train looked very handsome in its new paint and glistening bronze fittings. Through the plate glass windows could

Chicago Labor and Soldier Organizations Will Not Boom Cleveland CHICAGO, Sept. 30 .- At the office of he presidential reception committee it was learned to-day that none of the labor organizations had yet recovered from the shock of the "corner stone affair," in spite of the assurance that the president would not lay it, and it looks as though labor would strictly boycott the parade. Another feature is that very few Grand Army posts are accepting the cordial invitation extended them and the reasons given in their declinations are all much

the same. Here is a sample received today from the secretary of the Union Veteran elub:

The modus operandi of manipulating the kalian likewise comes in for a slight modification here. The ordinary Persian method before handing the water pipe to another, is to lift off the top while taking the last pull and thus empty the water chamber of smoke. The Tabbasites accomplish the same end by raising the top and blowing down the stem. This mighty difference in the manner of clearing the water chamber of a hubble-bubble will no doubt impress the minds of intellectual Wisconsin Central roads have filed notice | Occidentals as a remarkably important and valuable piece of information.
