while having a large majority in the house of representatives, where tariff bills must originate, to bring about such reform, which must come from the party that has ever been the friend of the American laborer and producer. The grateful thacks of the American people are due to those who defended the union in the late war and we are in favor of providing suitable pensions for soldlers and sailors who were disabled in its service or who have since, without their fault or vice, become objects of public or private charity and to the widows and orthans of those who fell in its defense.

Hastings, Fremont, Auburn, Crete, York.

Stone worthy champions of the fundamental principals of the Declaration of Indepen-dence. We condemn the action of the president in his attempt to return the trophles won by bravery on the field of battle. We condemn the narrow, intolerant and par-tisan action of the democratic party in exclud-ing from the privileges of state citizenship the haff million people of Dakota, solely on the un-manly and indefensible ground of a difference is political views. Not content with their ef-forts to exclude the negro from the elective franchise, they now seek to proceribe an intel-ligent, preserous and patriotic people because of their political opinions. We view with alarm the abuse of the veto power from the use of which England sov-ereigns have abstained for two centuries ; a power used but six times during the first forty years of our national government, a power by the provie intrasted to the president for the purpose of preventing hastylegislation, has by the power more times than all the predecessors combined. He has sought by all the prece-dented use of extraordinary power, to consti-tute himself a co-ordinate branch of the na-tional legislature. He has frequently exer-cised this "one man power" by the cowardly method of the "pocket veto" by which import ant measures have been defeated without any reason being given for withholding its ap-proval.

A Dress Made of Thrend.

A young lady of Austin, who has much time to spare and who is very skillful with the needle and excels in all fancy crochet work, has made a unique dress. The material is common spool thread, white, and the ontire dress is hand crocheted work, beautifully flowered and strongly made, and about 10,000 yards of thread were used in its construction. The sleaves are crocheted in the proper shape, and are fastened in by a lock crocheted stitch. It is a very beautiful dress, and the young lady tells us that it took her three months to complete it .- Austin -Warrick has a very nice line of birth- (Nev.) Reveille.
