KNOTTS BROS., Publishers & Proprietors.

REPUBLICAN STATE TICKET.

For Supreme Judge, SAMUEL MAXWELL. For University Regents, DR. B. B. DAVIS. DR. GEORGE ROBERTS. For Judges of Second Judicial District, HON. SAMUEL M. CHAPMAN. HON. ALLEN W. FIELD.

REPUBLICAN COUNTY TICKET.

For Treasurer, B. A. CAMPBELL. For Clerk, BIRD CRITCHFIELD. For Recorder, WM. H. POOL. For Judge, CALVIN RUSSELL. For Superintendent of Public Instruction, MAYNARD SPINK. Sheriff, J. C. EIKENBARY. For Clerk of District Court, H. J. STREIGHT. For County Commissioner, GEORGE YOUNG. For Surveyor, A. MADOLE. For Coroner, HENRY BECK.

PROHIBITION TICKET.

STATE TICKET. For Justice of the Supreme Court, E. S. ABBOT. Regents of the State University, REV. J. D. NEWELL. REV. H. S. HILTON. District Judges Second Judicial District, ADA C. BITTENBENDER, I. C. HUMPHREY. CASS COUNTY TICKET. For Clerk, SAMUEL CARLYLE. For Recorder, SAMUEL L. DUNHAM. For Treasurer, H. M. GAULT. For Judge, P. P. GASS. For Clerk of District Court, SULLIVAN HUTCHINS. For Sheriff, J. C. COLEMAN. For Superintendent Public Instruction, E. A. LAKE. For Coroner, E. W. MURLESS. For County Commissioner, WM. TUCKER.

The Republican State Platform.

The republican party of Nebraska, while ever a champion of property rights, and holding no animosity against the anarchists, nevertheless, its determination that the great railway corporations of the state which hold relations of the closest interest to the people shall be placed under the control of legislative control in the state and under such control until all causes of complaint are removed, and a just and equitable distribution in favor of individuals of localities shall cease to exist. Assuming the responsibility which fairly belongs to it of having originated all legislation looking to railroad control and the creation of those tribunals or commissions which have been established to grapple with corporate power, the republican party will see to it that by a needed enlargement of powers these commissions shall be armed for battle and their vigor maintained. While favoring such a change in the constitution of this state as will permit the railroad commissioners to be elected by the people, it hereby values its confidence in the existing board of transportation, and commends its efforts to obtain for Nebraska the same tariff rates for freight and carriage of passengers as is accorded to neighboring states, and similarly unimpaired. It is grossly unjust and a grievous wrong that Nebraska should pay more for the transportation of her products than Minnesota and Dakota, with their 500 miles of railway, and that she should be maintained lines of railroad and the republicans of this state will not cease their efforts until all wrongs be righted. We affirm our adherence to the American system of tariff, under which, with its broad protection of American labor, our country is prepared beyond any other. As the business of the country now demands revision, the republican party is the friend of every national interest, will see to it that such revision shall be made at the earliest practical day. We condemn the action of the democratic majority in congress in that after repeated pledges of tariff reform, it has utterly failed, while leaving a large majority in the hands of representatives, who will still must originate, to bring about such reform, which must come from the party that has ever been the friend of the American laborer and producer. The great thanks of the American people are due to those who defended the union in the late war and we are in favor of providing suitable pensions for soldiers and sailors who were disabled in its service or who have since without their fault or vice, become objects of public or private charity and to the widows and orphans of such soldiers and sailors. We heartily sympathize with the ambition and efforts of the people of this state to conduct to obtain for their country the blessing of free institutions and local self-government. We recognize in Charles Stewart, Cornell and the Hon. William E. Gladstone worthy champions of the fundamental principle of the Declaration of Independence. We condemn the action of the president in his attempt to return the trophies won by bravery on the field of battle. We condemn the narrow, intolerant and partial action of the democratic party in excluding from the privileges of state citizenship the half million people of Dakota, solely on the unmanly and indefensible ground of difference in political views. Not content with their efforts to exclude the negro from the elective franchise, they now seek to deprive the intelligent, prosperous and patriotic people because of their political opinions. We view with alarm the abuse of the veto power by the president of the United States. A power from the use of which England sovereigns have abstained for two centuries; a power used but six times during the first forty years of our national government, a power by the people interested to the president for the purpose of preventing many legislation, has by the present incumbent of that office been used to thwart the well-deserved will of the people and to resist their repeated demands. He has, in one-half of a single term of office, used his veto power more times than all the predecessors combined. He has sought by all the precedents and extraordinary power, to constitute himself a perpetual veto power, to constitute himself a veto power by the constitution of the national legislature. He has frequently exercised this veto power by the use of the method of the "pocket veto" by which important measures have been defeated without any reason being given for withholding its approval.

The republicans have a man for commissioner who lives in the same neighborhood that Mr. Foltz does. His interests are the same as those of Foltz's. He is in every way the equal of Mr. Foltz, and has always been a republican. See that the name of Geo. Young is on your ticket.

STRAY SCIENCE

An eminent physician of Austria has strongly recommended the use of the gall of the rattlesnake as an antidote for snake bites. It is said, further, that as a remedy it is inexpensive and efficacious and instantaneous in operation.

It has been suggested that ropes used for scaffolding purposes, especially in localities where the atmosphere is apt to destroy hemp, should be dipped when dry in a bath containing twenty grains of sulphate of copper per litre of water and kept in this solution about four days. The sulphate of copper absorbed will, it is believed, preserve them from attacks of parasites and rot.

The impression is that dying persons gradually lapse into a state of unconsciousness that ends their bodily pain and deadens the agony of the final parting with earth. While this may in many cases be true, the fact remains that frequently occurs the retention of control over some special sense as, for example, the hearing, long after apparent unconsciousness. This fact should be born in mind by those in attendance upon the sick-bed.

When a piece of metal requires hardening and tempering at one part only, heat the steel behind the part to be tempered to redness, and dip the article so as to harden the required part and leave sufficient heat in the contiguous metal to raise the temperature of the hardened part enough to temper it. This plan is usually followed in the tempering of lathe and planer tools, flat drills, etc. If, however, the method of dipping is to hold the steel in the water at an even depth after the immersion, the temper color will be very narrow, while if the steel be raised and lowered in the water, the color band will be broad.

At a recent meeting of the London Society of Telegraph engineers the particulars of an interesting experiment made by submerging a microphone in a public bath were given. By the unassisted ear no sound could be distinguished, but, by the aid of the microphone, a great confusion of sounds was revealed, doors being shut, footsteps, voices, water flowing, all mingled together. This proved the vibratory of water, and a practical application of the phenomenon is found in the fact that the microphone is now part of the regular equipment of officers of certain water companies in Germany, where it is used to detect leakage from the pipes by the noise of the water flow.

An invention that extracts tin from tinned sheet metal cuttings consists in conveying hydrochloric acid gas into a closed vessel containing the tinned sheet metal, the separation of the tin, of which is desired. After the closed vessel has been completely saturated with hydrochloric acid gas, whereby the latter combines with the tin, a shower of water is allowed to fall over the sheet metal, and the gas is converted into liquid protochloride of tin; the tin entirely removed from the sheet metal, is dissolved in the protochloride of tin. The protochloride is drawn off, and the tin is precipitated either by means of zinc or by lime wash, the tin obtained being almost pure.

If a man is known to be incompetent or a rascal, he is not deserving of his party vote. If he has held the office and abused the confidence placed in him by the people, a voter has some excuse for scratching his name; but a man's political honor should prevent him from searching for any other reason. The republican candidates are all known to be well qualified, while some of the democrats are known not to be. Those of the republicans who ask for re-election have all been tried and found to be the right men in the right places. Therefore we say that no republican should allow himself, for any trivial personal matter, to scratch a single name on the ticket. Stand by your honor as republicans and roll up an old time majority for the entire ticket, and for once let us know the democrats under—every mother's son of them! There is no reason why a portion of the democratic ticket should be elected every year in Cass county, and now, above all other times, all possible reason is removed and we would like to see republicans receive the republican vote next Tuesday.

SPEAKING of boodle reminds us of the fact that Geo. H. Babbitt, democratic candidate for sheriff, was in the city Tuesday night. Some of the saloons yesterday morning were shouting long for Mr. Babbitt, where until the effect of his visit was manifest, the Babbitt boom was so cold and still you could hear the boys call for an extra touch of cocktail.

HIGGINS acknowledges that he is not qualified to fill the office of treasurer, but says he can learn. It is a hard matter to teach an old dog new tricks. Campbell has had the office but one term and has made as good an officer as the county ever had. Give him another term and be sure the cash of the county is in safe hands.

The republicans of the county must do some vigorous work from now on, if they expect to succeed, as the democrats are thoroughly alive and seem to be working very zealously for the success of their ticket. Republicans should remember that the simple fact that they have three hundred majority in this county is not sufficient to allow them to rest on their arms, but should stir them up to work all the more earnestly for the success of the ticket. It would certainly be a shame for the republican ticket, just as good as could be nominated in this county by any party to be defeated, in the face of this majority. The theory of so many republicans to vote for personal friends on the democratic ticket has grown so strong in the minds of a good many voters of this party that it is with difficulty that they are able to see the effect of so voting when they have a man on their own ticket equally as honest, equally as well qualified in every particular to fill the office to which he aspires.

THE HERALD is a great admirer of honest John Fitzgerald; yet at the same time, we think Mr. Fitzgerald might be misled in regard to A. J. Sawyer's paramount ability, as well as some other people. While the HERALD has not claimed that Mr. Sawyer was a fourth class lawyer, yet we have insisted that he was not the peer of Allen Field. Mr. Fitzgerald, who appears to be so intimately acquainted with respect to A. J. Sawyer, it seems to the HERALD is pursuing a peculiar course when he gives his large and lucrative legal business over to another firm, thus leaving the gifted Sawyer out.

THE railroad influence failed to nominate Colonel Colby for judge of the first district. It failed likewise, to displace Judge Maxwell from the supreme bench. It will fail, furthermore, to bleed the whole state a great while longer. The railroads have had their day, in politics and business, but it begins to look now as though the people intended to take a turn. Every defeat of the people makes them more determined to have their rights, and the worse it will be for the corporations.—Beatrice Express.

Who is the republican lawyer that says the farmers of Cass county would not support Mr. Chapman for judge? Without knowing him, THE HERALD ventures to say he is a slyster, be the republican or democrat. A great many of the farmers of Cass county, to the personal knowledge of THE HERALD, will support Mr. Chapman earnestly regardless of party ties, knowing him as an able lawyer and a fair impartial judge.

THE Journal claims that Mr. Campbell should be beaten in the interest of the public. If the public is suffering no one except Mr. Sherman has ever been wise enough to find it out. The expected deputyship, apparently, makes Mr. Sherman very zealous. The firm of Higgins and Sherman talking about the interests of the public is a little thin at this time.

J. M. HIGGINS, according to Mr. Sherman, is a chronic office seeker. A voter demand at Vienna, at a meeting held a few weeks ago, claimed the monopoly of the manufacture and sale of ice cream, as against the coffee houses, restaurants and other places purveying that fashionable relish to the public. They took their stand upon the privileges of the obsolete guilds, and applied to the chamber of commerce and industry for an opinion, which said: "Everybody, a cook as well as a baker or publican, is entitled to make and sell ice cream without passing an examination and proving his ability to do it." That decision is nothing remarkable, but it is remarkable that a demand for such a monopoly could be advanced by a number of sane business men in this day of ours.—Chicago Herald.

Orange and Persimmon. An orange grower near Lake Eustis, Fla., found on one of his trees a fruit that seemed to be about two-thirds orange and one-third Japan persimmon. The latter resembles a fully grown and ripe red pepper. He dug down to the roots of the orange tree and there found the living root of a Japanese persimmon tree, twisted among the orange tree roots.—Chicago Herald.

An Unlucky Mistake. A druggist the other day committed a fatal error. In putting up a prescription he poisoned the patient. When the terrible news was announced to him he tore out quite a handful of hair and remarked: "Well! that was unlucky! It was my best customer."—Judge.

Consumption of Sugar. Statistics show that the consumption of sugar in the last fifty years has gone up from about fifteen to seventy pounds per head, of tea from one and one-quarter to four and three-quarter pounds per head; of tobacco from eighty-six hundredths to one and forty hundredths pounds per head, and so on.—Chicago News.

The Age of Euphemism. First Burglar—How yer comin' on, Bill? Second Burglar—Bully. Me an' Jake an' Mike an' a lot of others has agreed ter work together an' divide the swag between us. "Robbin' banks?" "No, that's too risky. Robbin' houses, but not in the old way. We're goin' to take only a little at a time from each house so the people won't suspect we're robbin' 'em until we kin retire." "I see. What do you call y'r copartner-ship, the 'forty thieves' or the 'cut throat gang,' er what?" "We call it 'The Other People's Property Trust.'"—Omaha World.

Information to Capital Seeking Investment.

POINTERS ABOUT PLATTSMOUTH. It is the gateway to the great South Platte country. It is situated on the Missouri River at the mouth of the Platte, at a point about half way between Chicago and Denver, only two hours by rail from Lincoln the capital, and forty minutes from Omaha, the metropolis of the State. Population about 9,000 and rapidly increasing. Has one of the finest systems of Water Works in the State. Streets are well lighted by gas. A street railway in operation. Grades of the streets established, and bonds voted for the purpose of constructing sewerage and paving of Main Street, work to commence thereon in the spring of 1888. Has a fine four story high school building and six ward school houses. Aside from business houses over 100 residences have been constructed during the year 1887. An Opera House costing \$50,000. Nebraska Preserve and Canning factory, capital \$13,000, capacity 300,000 cans per year and employs 40 hands. Brick and Terra Works, capital - 50,000, capacity 10,000 bricks per day, employs thirty hands. Plattsmouth Canning Factory, capital \$30,000, capacity 1,500,000 cans per year and employs 125 hands, turns over in one year's business about \$100,000. Two daily papers; one Republican and one Democratic. Schmelbacher buggy and wagon factory. Pepperberg's cigar manufactory, employs fifteen hands, and largely supplies the trade of southwestern Nebraska. Dufnor & Co's. new Packing House. The great C. B. & Q. Railroad machine shops, round houses, storehouses, &c., are maintained at this point for the use of its system west of the Missouri River, employing many hundreds of hands, and disbursing to employes monthly about \$30,000. One of the finest railroad bridges in the United States spans the Missouri River at the Southern limit of the city. Over 2,000 miles of railroad conveys its freight traffic into and through our city. Ten passenger trains leave Plattsmouth daily for north, south, east and west over the C. B. & Q.; K. C., St. Joe & C. B. and the B. M. R. R. in Nebraska. The cheapness of the land around Plattsmouth and its nearness to Omaha markets together with good railroad facilities, make it not only a pleasant place to reside, but a desirable place for the establishment of manufactories. To healthy, legitimate manufacturing enterprises, the citizens of Plattsmouth would doubtless make reasonable inducements to secure their location, and correspondence is solicited. While real estate values are growing firmer each day, yet there is nothing speculative or fictitious about them, and good residence lots can be bought at from \$150 to \$350; land near the city can be purchased at from \$200 to \$400 per acre. Within the next twelve months our city expects to welcome the Missouri Pacific and the Omaha and Southern Railways into its corporate limits. The above facts are given without exaggeration and the prospects for the future prosperity of our city, more than above indicated. Parties seeking investments in Realty are earnestly requested to come and make personal investigation. While here you will be given a free ride to South Park, the most beautiful and desirable residence locality in the city, where lots may be purchased at from \$150 to \$200, each. This picturesque addition is accessible by either Chicago or Lincoln Avenues or by South 9th Street and may be reached in a ten minutes walk from the business center. South Park is more rapidly building up than any other part of the city. Correspondence solicited. Robt. B. Windham.

General Grant's Fame will always grow brighter with age. Balyeat's Fig Tonic requires only a trial to illustrate whether the enfeebled constitution will change to one of stout or robust form and the ruddy glow of perfect health will appear where disease once was. No cure, no pay. Price 50c and \$1. For sale by Will J. Warrick.

Dr. C. A. Marshall.

DENTIST! Preservation of natural teeth a specialty. Teeth extracted without pain by use of Laughlin's Gas. All work warranted. Prices reasonable. FITZGERALD BLOCK, PLATTSMOUTH, NEB.

WHEN YOU WANT WORK DONE —OF— Any Kind —CALL ON— L. G. Larsen, Cor. 12th and Granite Streets. Contractor and Builder Sept. 12-6m.
