Shot Down in His Tracks.

HARTFORD, Ky., Nov. 18. -P. D. Bays left this place for his home Tuesday night after cashing a check at the bank for \$400. Three miles from town he was halted in the woods by three men, who demanded that he surrender his horse and money. Bays drew his pistol and fired at the robber who was holding his horse. The man fell, and urging the animal over the man's body, Bays put spurs to him and escaped. Wednesday morning an investigation was made, and it was found that the man who had been shot, was Henry Flener, a young man of the neighborhood who, with his companions, had undertaken to trighten Bays. He is dangerously wounded. The names of the other two who were in the scrape were not learned.

WASHINGTON, Nov. 17. - The secretary of the interior has reversed the decision of the commissioner of the land office in the case of Simeon Margarlidge, who made a homestead entry for two half sections of land in Valentine district, Nebraska. The land office rejected his application to amend the original filing, and the secretary, in the absence of adverse rights, sees no reason why the application should not be granted. The secretary also reverses the commissioner's decision in the case of John M. Wynant, who made a timber culture entry for two quarter sections, and one-half section in McCook district. Sparks held Wynant's entry for cancellation on the ground that the affidavit accompanying the case set forth that natural timber was growing on the ground. The secretary holds that notwithstanding the fact that small trees are growing on the banks of the creek, within the land claimed, the land is subject to timber culture entry.

A Steamer's Crow Driven From Their Posts, Except the Wheelman.

MARQUETTE, Mich., Nov. 17 .- The steamer Arizons, of the Lake Superior transit line, was burned to the water's edge this morning. She left this port at 9 o'clock last night, bound for Pottage, carrying a full cargo of merchandise. When out thirty miles a heavy sea was encountered, and the boat turned about to come back to Marquette, When she was five miles away the boat commenced rocking heavily, when a tank of acid began leaking and set the boat on fire. Nothing could be done to put the fire out-every man, except the wheelman, being driven from his post by carried off their wounded. The troops the fumes of the acid. There being a good head of steam on, the boat kept right on moving. A beat was lowered and ready for rescuing the men in case they could not make the harbor. The boat rounded the breakwater at 4:30, running close enough to enable the crew to jump off. After the boat was abandoned near the shore at the government piershe was soon destroyed. The fire department was called out, but could ∠e nothing to save the boat which burned to the water's edge. The Arizona was a freight boat, valued at about \$10,000. Rich Deposits of Coal.

CLINTON, Mo., November 18 .- A company was recently formed in the west part of the county with a view to prospecting for coal near Urich. Drills were started and at a depth of 35 feet a vein of coal 6 feet thick was reached. The coal proved to be of the best quality of cannal coal. and seven car-loads put on the market yesterday in Kansas City brought 24c per bushel. Several hundred acres of land have been leased, and it is announced that next week the officials of the Gulf Railroad will visit the new find and determine whether or not a spur will be built from the main line to the mines, a distance of three miles. INDIANAPOLIS, Ind., 17 .- Dillard Brewins and wife, an aged couple that have depended upon cherity for years, have just received information that they have inherited an estate valued at upwards of \$1,000,000. Tehre is something of romance in the story of their good fortune. The parents of Mrs. Brewins died when -he was an infant, and she was adopted by a rich couple living in Leigh Valley,

Pa.; but when she married a poor laborer in the neighborhood against their wishes they cast her off. With her husband she lef: her old home, and she has never since had more of the comforts of life than the small carnings of a poor laborer would afford. Several years ago her husband became blind, and they have since depended upon a charity organization of Indianapolis for sustenance. Through this organization, however, came the information of the estate that had been left in Pennsylvania for an adopted child of a wealthy couple, and the story agreed so well with the history of Mrs. Brewins as it appeared upon the charity records, that the matt-r was investigated, and it has just been found that she is really the heiress.

Nebraska's Coal Production. The amount of coal now being sold at the coal mine is from ten to twelve tons per day. And yet the demand for it is five times as great as the supply. We believe that at this time the miners would sell fifty and perhaps seventy-five tons per day if they could get it out. On Sunday great unmbers of people visited the coal mines, and at one time there were over a hundred in the large

mine viewing the interior and the work that was being done. At 3 o'clock, when the crowd was largest, the new mine which was opened last week was christened with appropriate ceremonies. It was named the "Ethel" mine, in honor of Mr. Gantt's little daughter .- Ponca Journal.
