We hear all the talk and the surmises that are afloat, and to our own satisfaction can figure out that this is the most practical route for the new road, but what we want to see is the man who knows something about that new railroad.

Who is Your Best Friend?

Your stomach of course. Why? Because if it is out of order you are one of the most miserable creatures living. Give it a fair chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink wait until your stomach is through with breakfast. You can drink more and smoke more in the evening and it will tell on you less. If your food ferments and does not digest right - if you are troubled with Heartburn, Dizziness of the head, coming up of the food after eating, biliousness, indigestion, or any other trouble of the stomach, you had best use Green's August Flower, as no person can use it without immediate relief.
