A Salisbury Dentist, in Rockwood Building.

Dr. Siggins, Office and Residence, Sherwood Block, Telephone No. 12

Mrs. J. L. Babb is reported as being quite sick.

The two cases before Judge Pottenger to-day, both went by default.

The little daughter of E. G. Dovey, Miss Anna, is quite sick with croup.

The complaint against Miss Mate Safford, made yesterday by Engineer Mart Cushing, was to-day withdrawn.

There are only eight unmarried men on the St. Louis police force. Many of the captains are wealthy, and are all well off.

One plain drunk before Judge Matthews to-day; a fine of \$5 and costs was the penalty. He had no money, so languishes in jail.

At the beginning of the present year the total railway mileage in the United States was 150,710 miles. The increase for the past year was 12,724.

California has an electric girl, and when she rubs her hands together they emit flashes. A fellow should think, at least twice, before he asks for one of those hands.

Liberty is the right to do what the law allows; and if a citizen could do what they forbid, it would be no longer liberty, because others would have the same powers.

In Salt Lake City the houses of the Mormons all have two doors, even the smallest. Some have, also, two woodsheds and two wells. A house that is begun with only one room is frequently lengthened out room by room and door by door as new wives are taken.

Thos. G. Williams formerly of this city, but now of Glendale Mont Territory writes to a friend here that he carried the mail from Glendale to another station when the Thermometer stood 30 below zero. How is that for a Plattsmouth boy? The snow was four feet deep and the wind was blowing a Hurricane.

An exchange tells the story of a boy who was sent to market with a sack full of rabbits, lingering around town all day, and came home without selling them. When asked by his mother why he had not sold the rabbits, he said no one had asked him what was in the sack. How many of our merchants are like this little boy? They have plenty of goods for sale but fail to tell people what is in the sack. If you expect to sell goods in this day and age of the world, you must open your sack and keep shouting the merits of your stock in trade.

The other day President Cleveland called in Brown, the new York tailor, who has made clothes for the presidents ever since Andrew Johnson's term, and ordered seven suits at one time. He had been getting along with four yearly, but Mrs. Cleveland has convinced him it his duty to not only dress well, but to have a change for every day in the week. She picked out the cloth and colors and practically managed the order, which included one very fine dress suit, and the others were business suits. The president measures 56 inches around the waist and 47 around the chest.—Ex.

During the past few months of inclement weather, in addition to the two fires which have resulted seriously. Several incipient blazes have started in different parts of the city at which the fire department were not called out which might have resulted in total loss, but for the prompt action on the part of neighbors. Almost invariably the fires have originated from defective flues. It seems to us that the proper thing for the mayor and council to do would be to appoint a fire warden, a live active man who would look into these matters closely in all the wards of the city and take prompt action in all such cases.

J. L. Babington has invented a contrivance to measure and roll carpet. It consists of a cylinder with necessary rollers attached, and a measure graph which registers the number of yards to a fractional unit. Eighty yards of carpet can be measured and rolled in a tight and compact form in ten minutes. It is a great labor saving invention, doing the work in a half day that formerly took one week to accomplish. We called at Mr. Dovey's store this morning and found they had the machine in operation measuring his carpets which he is invoicing. It was working like a charm and Mr. Dovey is well pleased with its successful work.

PERSONAL.

Capt. H. E. Palmer was in Lincoln to-day.

Sheriff Eikenbary was in Lincoln to-day.

W. S. Hammond of McCook, is at the Perkins.

M. G. Madison of Manley, was in the city to-day.

Mrs. H. E. Whiting was Council Bluffs bound this a. m.

Mrs. W. H. Grant was an Omaha passenger this morning.

J. Stoutforth of Center Valley, visited in the city to-day.

Mrs. J. S. Newland was an Omaha passenger this a. m.

Mrs. Con O'Connor went up to the metropolis this morning.

Miss Della Meighen took the train for Lincoln this morning.

Mr. and Mrs. John R. Cox were in Council Bluffs to-day.

Mr. and Mrs. J. A. Conner went out to Ashland this morning.

Mr. and Mrs. Julius Pepperberg and Miss Dora Frickie were in Ashland to-day.

J. J. Ballinger, wife and son Lewis, went to Lincoln to visit with friends this morning.

C. F. Palmer who has been visiting S. Waugh took the train for the metropolis this a. m.

J. P. Antill's old time friend, Phil. Huston, was in the city last night and went up to Omaha to-day.

Dr. J. L. McCrea and wife of Ash Grove, are visiting in the city, with their daughter Mrs. J. F. Johnson.

Miss Marista Cagney left last evening for Lincoln, after remaining there a few days she will go to St. Paul to attend the ice carnival.

Grandma Henton Dead.

Mrs. Mary Henton died this morning at 9:15 at the home of her daughter, Mrs. G. B. Mullis, who resides on west Oak street. Mrs. Henton was familiarly known as "Grandma" Henton. The cause of her death was partly due to a cancer on the face, but principally to old age, she being 88 years, 3 months and 13 days of age at the time of her death. She was born in Connecticut in October, 1799, and married in 1825, afterwards moving to Indiana, where she lived for many years, coming to Plattsmouth about 1878, which has since been her home. She enjoyed good health most of her life and survived, beside her husband, four of her seven children. The three children remaining are: Geo. Henton, of York, Neb.; Frank Henton, of Yuma, Col., and Mrs. G. B. Mullis, of this city. Mrs. Henton was a member of the Christian church, and the pastor of that church, Mr. Hampton, will officiate at the funeral which will occur from the home of Mrs. Mullis, Sunday morning, at 10:30. The remains will be interred in the Eikenbary cemetery south of the city.

The A. O. U. W. Social.

The members of the A. O. U. W. assembled at half past eight o'clock last night in the K. of P. hall. It was one of the largest gatherings in attendance ever present on such an occasion in this city.

Scattered through the spacious K. of P. halls, were little tables surrounded by from four to six ladies and gentlemen who enjoyed themselves playing euchre, whist, muggins and other games while others were engaged in lively conversation. The entertainment was interspersed by select songs from the Glee club which were as usual well received.

Some choice selections were rendered, both vocal and instrumental, by different ladies. At about 10:30 or 11 o'clock an elegant repast was served to all present, the same having been prepared and brought to the hall by the wives and friends of the members of the A. O. U. W. The order is in an excellent condition and its future prospect is very flattering.

Lives in Omaha.

Very few people know it, but the man who first invented and patented the rotary snow-plow, now in use on several western railroads, lives in Omaha. At present he is engaged in the festive and quite lucrative pastime of extracting aching teeth, and his name is Houghawout. In March, 1881, he applied for a patent on his invention and it was given to him on the 9th of June following. It is claimed by the doctor that he not only patented the invention, but every principle connected with it. As the plow now in use was not patented until 1884, litigation for infringement is very liable to develop before long.—Bee.

Register!

The badges are now ready at Frank Carruth's jewelry store for the Coasting Carnival to be held on Saturday evening. In order to help pay expenses, fifty cents will be charged for traverse badges, and ten cents for hand sleds.

—Eight or ten couple consisting of Rey, and Mrs. Alexander and members of the Methodist church were out to the pleasant home of Mr. Nelson Jeans two miles southwest, last evening and passed the evening very pleasantly in social enjoyment.

GEO. C. MILN.

Candies and Footlights.—The Church and the Stage as Friendly Forces.

The audience was a small one that greeted Mr. Miln, the lecturer, last night at Rockwood hall. However, he seemed in excellent humor, and began by saying, "the crowd, though small, is a social one." He reviewed the drama, theatres and museums in a graphic manner, giving the early history and influences of the drama in the ancient cities of Greece. He also related the condition of the church, stage and drama at the present time, claiming they should be in close connection with each other. His lecture, throughout, was in defense of the theatre and its influences, as compared with that of the church. Mr. Miln is a polished speaker, though not an orator. His attainments as an actor are much greater than his accomplishments as a speaker. He is now, and has been through the winter, taking a rest, but expects to leave for Europe in about one month, where he goes with the intention of playing in the provinces, visiting France studying the character of Napoleon, his pictures, the conditions under which he labored, the surroundings, also the dress and manners of the time of the first emperor of France, with a view to presenting a play founded on the career of that personage. When Mr. Miln will produce the piece he does not know, and he has not yet determined as to whether the temper of the people of England will warrant the production of the play in that country.

Hard on the Drug Stores.

DES MOINES, IOWA, Jan. 27.—Mr. Custer, chairman of the Committee on the Suppression of Intemperance, and a very radical prohibitionist, introduced in the House yesterday, the bill which the prohibitionists want. It provides for doing away with all sale of liquor by drug stores or other dealers, and makes the county auditor the sole agent and superintendent to all sales, for legitimate purposes. It provides that he shall have four assistants or sub-agents in each county, who shall be the legalized dealers. There shall be a system of stamps for selling each package, which he shall obtain from the state auditor, and whenever a package of liquor is used the stamps shall be cancelled the same as revenue stamps on cigar boxes now are. The State Temperance Alliance and Women's Christian Temperance Union are understood to be favoring some such bill as this which will have all liquor selling, for purposes not forbidden by law, done by legal agents, rather than by irresponsible parties, as at present.

Quickest Time on Record.

I hereby cheerfully attest to the following facts: On Monday morning, Jan. 16th, 1888, my house and almost my entire household furniture situated in Plattsmouth, Neb., was entirely destroyed by fire. I had for years had it insured in the German Insurance Company, of Freeport, Ill. On Jan. 26th, exactly ten days from the time of my loss, the general adjuster of the German came to Plattsmouth and in two hours' time the loss was adjusted to my entire satisfaction, and draft paid me for \$544.20, being every claim the property was insured for. This was done pleasantly and courteously, and without any captious objections, so frequent among insurance men in adjusting losses. I want to say the German is my company and I take pleasure in recommending it to the citizens of Plattsmouth and Cass county.

ANTON BUCKMEYER.

Skinner & Ritchie are the local agents for the German. Plattsmouth, Neb., Jan. 27, 1888.

Chief Seavey Wedded.

CORTLAND, Neb., Jan. 27.—Chief of Police W. S. Seavey, of Omaha, and Mrs. Lillie B. Hollenback, also of Omaha, were married last evening at the residence of the bride's parents, Mr. and Mrs. J. B. Doiley, of this city. The wedding was a very quiet affair, only a few intimate friends of the family being present. Mr. and Mrs. Seavey left on the early train this morning for Omaha.
