Yesterday morning as No. 4 was crossing the Thirteenth street bridge in Omaha it ran over a 13-year-old boy named Miles Nields, horribly mangled him and causing instant death. The boy was gathering up coal along the track for his parents, they being very poor. His father told him to go for a large lump lying on the bridge, and as he did so, he met with his fearful death. Engineer Robert Smith of this city was running the engine and reports the scene of the mangled boy as a frightful one.

The funeral services of Henry Schult-hoff was held this morning at 10 o'clock from the Catholic church. The remains were followed to the grave by many sorrowing friends. The Bohemian band furnished the music. The Liederkranz choir sang at the church and grave. At the church the coffin was strewn with floral tributes. The pall-bearers were Messrs. J. V. Weckbach, A. B. Knotts, J. W. Cutright, F. D. Lehmann, Wm. Neville and Theodore Hoffmann.

A "coon" driving a small span of mules attempted to drive his team through an alley. He struck a mud hole and his mules went down up to their ears. Pretty soon his wagon began to settle, and finally nothing but the box remained in sight. The colored individual seeing that his property had disappeared, attempted to extricate himself. He jumped from the wagon and went in up to his waist. The last heard of him as he disappeared below the surface was "For de Lord sake, this South Omaha mud is orful!" The remains of the outfit will be dug out next summer.-Hoof & Horn.

A full attendance of the board is very much desired and the HERALD hopes every member of the board will be present and let the year be one of activity.

The Swiss Farmer's Stable.

Whether the Swiss farmer of the lowlands lives in a village or upon his land, his dwelling and his stable are usually under the same roof. Great, roomy and homely structures they are, those houses and barns covered by the same steep and projecting roof of red tiles. Under the spreading eaves are stored the wagons and other farm machinery when out of use. The end of the building which shelters the family may be of wood, with picturesque balconies and exterior stairways. The upper part of the other half, in which the hay is stored, is often built of squared pine logs, or clapboarded, with large and frequent openings for ventilation of the hay, which is cut and thrown in fresh and fragrant, almost without any covering, in the rainy, cloudy climate of Switzerland.

But the stable, the chief feature of the establishment, which underlies the hay-loft, is invariably built of stone. Its solid walls of masonry are two feet in thickness and plastered within and without. The heavy oaken stable door fits into its casings like the cork of a bottle. The ceiling is as nearly air tight as possible. One or two small openings through the thick wall admit only a feeble glimmer of light. The floor is of plank or stone, with a sunken section through the middle to catch the wet and waste. Heavy mangers along the sides receive the food.-Globe-Democrat.

Francis's Bounty for wolves.

It is rather odd, considering the age and dense population of France, that that country should be compelled to pay bounties to prevent an increase in the number of wolves, yet that is what it has been doing for many years. In 1882 423 were killed, in 1883, 1,316; in 1884, 1,035; in 1885, 900, and in 1886, 760. The bounty now is \$40 for killing a wolf that has attacked human beings, \$30 for one in young, \$20 for a male wolf, and \$8 for a cub.-Chicago Times.

Russian Proverbs.

Pray to God, but row to shore. Modesty is a maiden's necklace. A maiden's heart is a dark forest. By a wedge may a wedge be driven. To marry in May is to suffer always. A bad peace is better than a good quarrel. To stir the fire with another's hands is no hardship. Calumny is like a coal, if it does not burn it will soil. A mother's prayer has power to save from the bottom of the sea. It is not so much the dew of heaven as the sweat of a man's brow which renders soil fruitful.

A Distillery to be Converted into a Starch Factory.

Atlantic is to have a starch factory in the near future. Prominent capitalists of that city have been quietly perfecting arrangements to that end for the last two weeks and indications now point to the alcohol works being converted into a factory with a capacity of 400 bushels per day, and will employ from thirty to forty men. The gentlemen who are at the head of this enterprise are F. H. Whitney, S. B. Miner, S. F. Martin, M. M. Rutt and Frank Haven. Mr. Haven will furnish the experience, gained by several years' employment in the Kingsford Starch Works, of Oswego, N. W.-Glenwood (La.) Opinion.

7. The only new addition to the city reached by water mains and with a prospect of being supplied in the near future with complete water privileges.
8. New sidewalks recently constructed to within a few feet of the addition and will shortly be extended.
9. Will certainly have street car privileges at no distant date.
