WHO WAVES THE BLOODY SHIRT?

Some recent utterances of New Orleans journals are worthy of attention. On the 17th of this month the Daily States printed a double headed leader, congratulatory of "harmony" between the Nicholls and McEnery Democrats.

The Democracy of New Orleans have a double duty to discharge: First to aid the gallant Democracy of the country parishes to elect the Democratic State ticket and thus plant the Democratic party still more firmly upon an impregnable basis in the state.

The Radicals in Louisiana have tough lives; nothing discourages them, and they have again attracted public attention by treating themselves to a convention of which the consequences may be feared so far as they relate to their safety in this state.

The time has come to give Mr. Warmoth and his friends to understand that if they intend to continue to dwell upon the hospitable soil of our state they are at liberty to engage in all kinds of agricultural and industrial enterprises, but they must, for all times, abandon all pretensions to regain the reins of government.

We believe that inaction on our part would be deplorable on the eve of Mr. Warmoth's projected canvass. We are in favor of an aggressive campaign—so aggressive, that in their efforts to regain control of the government the radicals will be mercilessly crushed.

The Daily States calls on "the Democracy of New Orleans" to do more than the work of carrying the city, even to "aid the gallant Democracy of the parishes to elect the State ticket."

And since then the Committee of One Hundred have discovered 24,000 fraudulent registrations in the city of New Orleans alone. It is reported that Register Brewster is aiding the committee in its laudable efforts toward expurgation.

Governor McEnery pledged his honor to a fair election, and upon that pledge the Republican party has put a ticket in the field. It taxes very little reading between the lines of even such conservative newspapers as the Daily States and Times-Democrat to discern a belief in the insufficiency of the pledge; while such outspoken organs as L'Opinion boldly threaten "the safety" of active Republicans.

At 10 o'clock this morning the entire "Q" system was securely tied up by the strike or "walk out" of the engineers and firemen. No. 1, due in this city from the east this morning at 5 o'clock, was left standing at Pacific Junction where it remained until noon.

The Herald is not fully informed as to the merits of the claims of engineers and firemen, but is inclined to think, if they could get the same pay for all work on the main lines that it would be nothing but fair that less pay should be had for services on some of the branch roads which are operated at but little profit.

poorest men to do the most work on the main line. However, if what the boys want is better for them and is to their interests, THE HERALD hopes they may succeed, and that too without much delay.

ANY man that will peruse the clippings from prominent democratic newspapers of New Orleans found in these columns today, and will then have the hardihood to say that fair elections are held in the south,—that Cleveland was the choice of a majority of the people, and that the father of fraud S. J. Tilden was elected president, is a hidebound knave whose intellect is of that lower order described by Darwin in his history of the missing link.

How Men Die. If we know all the methods of approach adopted by an enemy we are the better enabled to ward off the danger and postpone the moment when surrender becomes inevitable. In many instances the inherent strength of the body suffices to enable it to oppose the tendency toward death.

"All signs fail"—except pimples and blotches. These never fail to indicate an impure condition of the blood, which may be thoroughly cleansed and renewed by the use of Ayer's Sarsaparilla.

Begg's Blood Purifier and Blood Maker. No remedy in the world has gained the popularity that this medicine has, as it holds on family medicine. No one should be without it.

George W. Cable lectured on the Y. M. C. A. Hall of Boston the other night and books for the library served as admission tickets.

Begg's Cherry Cough Syrup. Is the only medicine that acts directly on the Lungs, Blood and Bowels, it relieves a cough instantly and in time effects a permanent cure.

ENTRE-ACTE REVERIES.

Between the acts, while the orchestra played That sweet old waltz with the lilting measure, I drifted away to a dear dead day, When the dance for me was the man of all men.

The Equinox pantheon is pretty well occupied, there being gods to preside over the different natural phenomena, such as the rain, snow, ice, tides and so forth, and others controlling human destiny in the chase, at home and elsewhere.

Chinese Shoes and Shoemaking. Shoemaking, shoe mending and shoe selling are distinct branches of business in China. Chinese shoes exhibit great variety of shape. Except in the hob-nailed shoe for wet weather, there is little leather used—the materials being principally calico, silk, satin, velvet and felt.

Something About "Zante Currants." The word currant is said to be a corruption of Corinth, a city from which once came all the Greek currants. The currants, commonly called zante, are really raisins, produced from a grape that grows no larger than raisins.

Duration of Infection Stages. The duration of the infection stages of various diseases is thus given by Dr. T. F. Peave, an English physician. Measles from the second day of the disease, for three weeks; smallpox from the first day, for four weeks; scarlet fever from the fourth day, for seven weeks; mumps from the second day, for three weeks; diphtheria from the first day, for three weeks.

Made Her Feet at Home. A lady from Nebraska was the guest of a Pittsburg family. As the thermometer only touched zero once during the winter the fair stranger would have been homeless but for the thoughtfulness of her host.

Florida's Opium Industry. Florida promises to become a large producer of opium. The poppy grows there very readily, and larger than anywhere else in the United States. Sixteen plants will produce an ounce of opium, and an acre should give a profit of \$1,000.

Almost miraculous are some of the cures accomplished by the use of Ayer's Sarsaparilla. In the case of B. L. King, Richmond, Va., who suffered for 47 years with an aggravated form of scrofula, Ayer's Sarsaparilla effected astonishing results.
