PHILADELPHIA has reduced her saloons sixty per cent this spring and on last Monday the judges comprising the license court refused three hundred and fourteen applications. This is a good showing for so large a city and we hope the good work will go on.

The government has made its annual payment of interest. It has paid out this week nearly \$7,500,000 interest to bondholders. The money will now be distributed through the money circles all over the United States, and it is hoped it will relieve the stringency in the money market.

The Pinkerton trial and Senator Van Wyck's meeting seem to have opened up the bottled spirit of anarchy which has been smoldering in the breast of our Journal man. Labor is his hobby. Herr Most and Herr Sherman are kindred spirits on this subject and can speak of those who hold views differing with theirs only with blasphemy and blackguardism. "Once a railroad lawyer always a railroad lawyer" is the sacred of the Journal man. If a lawyer accepts a fee from a railroad he is forever lost and will always be looked upon with suspicion by the Herr Most of the Journal. Dishonesty is a thing the Journal cannot stand? A lawyer who consents to serve a corporation as its counsel and legal adviser bears the mark of Cain on his brow and may consider himself socially and politically ostracized and damned by the Journal man. A man may be a dead beat in a community, refuse to pay his debts, run his business at the expense of his creditors, and support himself and family by such questionable methods, and howl for the laboring man and be all right; yet, if he pays his debts honestly supports himself, and practices his honorable profession as the legal adviser of a corporation he is a scoundrel and a thief. We add to the quotation from Senator Van Wyck another truism, "once a dead beat always a dead beat."

**CANADIAN POSTAL TREATY.**

The reports submitted to the senate with regard to the Canadian postal treaty show very plainly that a serious wrong has been done to the American people by the present administration under the pretext of facilitating intercourse with another nation. In the first place, there was no positive authority for the negotiation of such a treaty, without the concurrent action of the senate; and in the second place, the terms of the treaty are directly in the interest of Canada at the expense of this

county. The rate of postage on seeds and bulbs in the United States is four times as large as that which prevails in Canada; and by the provisions of this singular document, such products can be sent into our markets at the Canadian rate, while our own dealers are required to pay the highest domestic rate. This implies not only a ruinous form of foreign competition as to seeds and bulbs of every kind, but it also means the turning over of from \$2,000,000 to \$3,000,000 per annum of postal revenue to the Canadian government. Already, American seedsmen have begun to transfer their business to Canada in order to escape this invidious distinction; and our post office department claims the right to prevent them from thus evading the effect of the treaty by searching the mails for packages which they may send from Canada and charging up the American rate of postage thereon.

It is impossible to understand why such an advantage should have been given to the Canadians. If it was done purposely it was contrary to all sound notions of public duty and discretion; and if it was done inadvertently it was a piece of unpardonable ignorance and carelessness. And yet it has been practically indorsed and commended by the democratic majority of the house of representatives. A resolution calling upon the postmaster general for information concerning the operation of the treaty, with a view to bringing about a change where a change is so clearly desirable, was voted down in that body on Tuesday, after having been adversely reported by the post office committee. The chairman of said committee, Mr. Blount, declared the treaty to be a just and proper one, and maintained that the postmaster general had a perfect right of espionage over the mails from Canada for the purpose of defeating the use of such mails by American seedsmen, and of collecting 16c postage where Canada charges only 4c. He added that he had no objection to the house receiving the information asked for in the pending resolution, but that the request was made in disrespectful language. Thereupon, Mr. Peters asked leave to amend the resolution by striking out so much of it as was said to be offensive, but he was refused permission to do so, and the resolution was tabled by a vote of 125 to 123. As the matter now stands, therefore, the democratic majority of the house may be said to have ratified and confirmed the proposition that American citizens may fairly be prohibited from using the United States mails on the same terms as Canadian citizens who are competing with them in business. Such action is not to be wondered at, however, when the fact is considered that the whole economic policy of the democratic party is so adjusted as to favor foreign interests and dis courage home labor and enterprise.—*Globe Democrat.*

Your stomach of course. Why? Because if it is out of order you are one of the most miserable creatures living. Give it a fair chance and see if it is not the best friend you have in the end. Don't smoke in the morning. Don't drink in the morning. If you must smoke and drink wait until your stomach is through with breakfast. **"Didn't Know it Was Loaded."**  
The young man fell dead!  
A friend had pointed a revolver at him "He didn't know it was loaded!"  
We often hear it stated that a man is not responsible for what he does not know. The law presupposes knowledge and therefore convicts the man who excuses crime by ignorance!  
"If I had only known" has often been an unfortunate man's apology for some evil unknowingly wrought, but in a matter of general interest—as for instance that laudanum is a poison, that naphtha is a deadly explosive, that blood heavily charged with a winter's accumulations of the waste of the system,—I, is one's duty to know the fact and the consequences thereof. Our good old grandmothers knew for instance, that the opening of spring was the most perilous period of the year.

Why?  
Because then the blood stream is sluggish and chilled by the cold weather, and if not thinned a good deal and made to flow quickly and healthfully through the arteries and veins, it is impossible to have good vigor the rest of the year. Hence, without exception, what is now known as Warner's Log Cabin Sarsaparilla, was plentifully made and religiously given to every member of the family regularly March, April, May and June. It is a matter of record that this prudential, preventative and restorative custom saved many a fit of sickness, prolonged life and happiness to vigorous old age, and did away with heavy medical expenditures.

Mrs. Maggie Kerchval Lexington, Ky., used Warner's Log Cabin Sarsaparilla "for nervous sick headache of which I had been a sufferer for years." Capt. Hugh Harkins, 1114 S. 15th St., Philadelphia, Pa., says "it purified my blood and removed the blotches from my skin." Mrs. Aarea Smith, Topton, Berks Co., Pa., says she "was entirely cured of a skin disease of the worst kind," by Log Cabin Sarsaparilla. Bad skin indicates a very bad condition of the blood.

If you would live and be well, go to your druggist today and get Warner's Log Cabin Sarsaparilla and take no other.—there's nothing like it or so good,—and completely renovate your impaired system with this simple, old-fashioned preparation of roots and herbs.

Warner, who makes the famous Safe Cure, puts it up, and that is a guarantee of excellence all over the known world. Take it yourself and give it to the other members of the family, including the children. You will be astonished at its health-giving and life-prolonging powers. We say this editorially because we have heard good things of it everywhere, and its name is a guarantee that it is first class in every particular.

**AN EXTRAORDINARY OFFER TO ALL WANTING EMPLOYMENT.**

We want live, energetic, agents in every county in the United States and Canada to sell a patent article of great merit, OR ITS MERITS. An article having a large sale paying over 100 per cent. profit, having no competition, and on which the agent is protected in the exclusive sale by a deed given for each and every county he may secure from us. With all these advantages to our agents, and the fact that it is an article that can be sold to every household, it might not be necessary to make "An Extraordinary Offer" to secure good agents at once, but we have concluded to make it to show, not only our confidence in the merits of our invention, but in its salubility by any agent that will handle it with energy. Our agents now at work are making from \$100 to \$200 a month clear, and this fact makes it safe for us to make our offer to all who are out of employment. Any agent that will give our business a thirty day trial and fail to clear at least \$100 in this time, above all expenses, can return all goods unsold to us and we will refund the money paid for them. No such employment agent ever dared to make such offers, nor would we if we did not know that we have agents now making more than double this amount. Our large descriptive circulars explain our offer fully, and these we wish to send to everyone out of employment who will send us three one cent stamps for postage. Send at once and secure the agency in time for the boom, and go to work at once, in our extraordinary offer. Address at once, NATIONAL NOVELTY CO., 118 3rd-d&w 514 Smithfield St., Pittsburg, Pa.

Neglect kills injuries; revenge increases them. A neglected cold increases its injurious effects on the system till consumption finally kills, unless cured by Warner's Log Cabin Cough and Consumption Remedy. It is ye reliable remedy of ye olden time.

**Maro on Autograph Frenchie.**  
Young ladies with a passion for autographs will not relish the arrangement which a number of the poets and authors and other celebrities of this and other countries have adopted of using a typewriter for all correspondence, except in the most important and private letters. A lady who lately wrote an ingenious note to the poet Tennyson, asking an expression of opinion on a matter that could not fail to command his attention, was deeply chagrined to receive an answer wholly typewritten, including the signature. If this is to be kept up it is quite clear that the autograph hunter's occupation is gone.—*Philadelphia Times.*

**Horseshoes for Bad Roads.**  
The Germans have invented horseshoes for bad roads. This is how they do it. The blacksmith, when finishing a horse's shoe, punches a hole in the two ends. When the shoe is cold he taps in a screw thread and screws into the shoe, when on the horse's foot, a sharp pointed stud of an inch in length, which shoes thus fitted the horse travels securely over the worst possible roads. When the horse comes to the stable the groom unscrews the pointed stud and screws in a button, so that no damage can happen to the horse, and the screw holes are prevented from filling.—*Home Journal.*
