A GENERAL WALKOUT.

Chairman Stevens Says Nearly All "Q" Employees Will Strike Soon.

KANSAS CITY, April 10.—Chairman Stevens, of the strike committee, said today he had received important information from Chicago to the effect that from now on the strike would be confined exclusively to the Burlington road, and that the fight from now on would be to a finish.

"What does that mean?" "It means that before Saturday night the switchmen, brakemen, yardmasters and shop men will go out. The yardmasters at Chicago went out yesterday. The Knights of Labor are now with us, and the places cannot be filled."

"Will the strike extend here, or will it be confined to Chicago?" "It will reach to every branch of the road. Chief Arthur is now assembling the executive committee of the brotherhood at Cleveland to raise the assessment of the brotherhood men so as to give us more money."

Mormons in Northern Chihuahua.

EL PASO, Tex., April 9.—There is a heavy immigration of Mormons into the valley of the Casas Grandes River, in Northern Chihuahua. They have already several settlements there, which are usually flourishing and prosperous. They enter into all kinds of pursuits—stock raising, mining, but principally in agriculture. They have for two years past tried to raise the staple crops of the country without irrigation, and have succeeded admirably, although they may have met with exceptionally favorable seasons. At all events they believe that they can raise crops and carry on a general system of agriculture without irrigation and by depending entirely on the rainfall. If the Mormon population of the Casas Grandes Valley increases much more a railroad from there to El Paso will assuredly be built.

The Pope to the President.

WASHINGTON, April 10.—Pope Leo has sent a letter to President Cleveland, thanking him for the jubilee present of a copy of the constitution. The communication was handed so the president by Cardinal Gibbons. The pope speaks of the great distinction of receiving from the ruler of a free people a gift which he never expected to be sent him, and expresses his appreciation of the appropriateness of the present. The pope wishes peace and prosperity, and prays for the American people and their country, the perpetuation of their institutions of liberty, and the plenitude of God's favor.

A Sweeping Bill.

WASHINGTON, April 10.—A bill, general in its character, forfeiting all lands opposite railroad lines not completed within the time specified by law, was agreed to by the house committee on Pacific railroads today.

Four bills have been reported by the committee. The bill agreed to today is intended to cover all unearned railroad land grants not included in those measures, and the committee estimates the land recovered under all of the bills will amount to about fifty million acres.

Fireman and Brakeman Killed.

CORRINZO, Ariz., April 10.—Last evening about 8:30, as a west-bound freight on the Atlantic & Pacific was nearing this place, the engine became derailed and plunged down a steep embankment. Frank Ashton, the fireman, John Bell, a brakeman, were killed. The engineer jumped and escaped without injury. Ten cars were badly wrecked.

Red Cloud's Street Railway.

RED CLOUD, Neb., April 10.—Red Cloud feels decidedly metropolitan over the fact that her first street railway was commenced today by laying track on Forth avenue. With the street railway and Missouri Pacific and high license for the ensuing year the prospects are good for a big boom. The track will be completed as fast as possible.

A Bridge Gives Way.

PENDER, Neb., April 10.—Last evening as a herd of cattle were crossing the Logan bridge at this place, it gave way in consequence of misplacement by the late floods and ice. A number of cattle were precipitated into the water but most of them were got out alive.

Counterfeits in Circulation.

NEBRASKA CITY, Neb., April 10.—A large number of counterfeit silver dollars have been found in circulation in this city, but as yet no one has been caught possessing them. It is believed there is a gang of counterfeiters at work in this city.

FACE TO FACE.

If my face could only promise that its color would remain,
If my heart were only certain it would hide the moment's pain,
I would meet you and would greet you in the old familiar tone,
And naught should ever show you the wrong that you have done.

If my trembling hand were steady, if my smiles had not all fled,
If my eyes spoke not so plainly of the tears they often shed,
I would meet you and would greet you at the old sweet trysting place,
And perchance you'd deem me happy if you met me face to face.

If the melody of spring tide awoke no wild refrain,
If the autumn's golden burden awoke no living pain,
I would meet thee, and would greet thee, as years ago we met,
Before our hearts were shipwrecked, on the ocean of regret.

If my woman's soul were stronger, if my heart were not so true,
I should long have ceased remembering the love I had for you;
But I dare not meet or greet thee, in the old familiar way,
Until we meet in heaven, when tears have passed away.

Central American Coast Traffic.

Most of the coastwise traffic, the carrying of goods of American or European production, to the various trading posts along the shore, and the bringing back fruits, rubber, sarsaparilla, palm nuts, skins, and such other products as the Indians gather in the forests lying eastward from Trujillo, is done by the aid of dories. These are no more than canoes, hollowed and heaved from Spanish cedar, mahogany or other trees. Some of them are of good size, six or seven feet beam, forty or fifty feet over all and four or five feet deep. Of course they are buoyant, and under the management of the Caribs make good weather of it even in rather rough water. But on a wind they slide as fast to leeward as they force ahead. I am not sure that they do not, as a matter of fact, go two miles to leeward for every one they go ahead, with a head wind. Of course they are practically useless, except when the wind is fair.—E. W. Perry's Honduras Letter in Chicago Times.

The Gray Hair Puller.

Possibly the most unique method of earning a living known is that adopted by a big, rosy, 20-year-old blonde, who finds engagements with women just lamenting their first gray hairs, to weed out, so to speak, those obnoxious reminders of advancing years. The gray hair puller is gentle in her methods of treatment, and makes periodic visits at intervals of a few weeks, spending from half an hour to two or three hours, letting down the hair, combing it out and spraying for tell tale silver threads. She carries an innocent looking little reticule, which contains various glycerine and rose water preparations for a healing application when the work of torture has been done. It is not especially disagreeable work, and it is said to pay.—Kansas City Journal.
