Fifth has a female artillery battery and they were at the celebration at Wy-more the other day, and under their cap-tain, Mrs. M. A. Adams, the young can-oners did nobly; they captured all the university cadets, and Nebraska is proud of her female soldiers.

HON. THOS. E. HILL, author of "Hill's Manual of Social and Business Forms," has just issued another book entitled, "Hill's Album of Biography and Art." It is an elegant and valuable book, and is one that every family should have.

THE Methodist general conference has declared unequivocally in favor of "complete legal prohibition" as the proper plan of temperance reform.

AN Austrian chemist claims to have invented a destructive fluid that will be more deadly in its effects than the fabled Yupas tree. He claims that this fluid when brought in contact with the air after the explosion of a shell in which it has been contained, is transformed into a gas, which being heavier than the air, descends to the ground killing all men and animals within its reach, and more-over destroying iron, bronze and other metals, as well as setting all inflammable things on fire.

MR. CLEVELAND'S FOLLY.

Nobody doubts now that the "humilia-tion" of Hill by the administration, which has recently been accomplished, was as deliberately and studiously contrived as was the scheme by which the same agency "downed" Randall.

The feud between the president and the distinguished Pennsylvania democrat has been in progress for over a year. The refusal of Mr. Randall to bow to the behests of the administration on the tariff question was an offense which could not be condoned, and he was marked for slaughter.

It will strike the average intelligent person, however, that this Cleveland scheme to crush Hill and Randall is bad politics. Of course the administration has nothing to expect from the Penn-sylvania democrats, even under the most favorable conditions.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively un-known,—today it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past.

PROTECTION THE MOTHER OF INVENTIONS.

The advocates of protection often refer to its stimulating effect upon those for whom its influence secures high wages, leisure, and opportunities for education and advancement.

It becomes interesting, in view of the general concession that inventors promote the public welfare, to ascertain under which fiscal policy they have been most numerous. As in another case, in order to institute a comparison between two epochs, we shall take the free-trade period of twenty-six years prior to 1861, and the protection era which began with that date.

Like his master, the America thorough-bred horse is fast becoming a distinct species. Like him, too, the best strains may come from his English prototype, but the air of the western world has toughened his muscle, stimulated his nerve and made him distinctive.

The American Thoroughbred.

Neither mind nor body can act health-fully, if the blood is vitiated. Cleanse the vital current from impurities by the use of Ayer's Sarsaparilla. This remedy purifies the blood, recruits the wasted energies, and restores health to the debilitated system.

Oysters cannot be kept without a knowledge of their habits. They feed twice in a day of twenty-four hours, and then just at that stillness preceding the turn of the tide.

Oysters at Feeding Time.

Eczema causes an itching so persistent as to produce not only sleeplessness, but, at times, even delirium. Local applica-tions will not remove the cause, which is impure blood. Ayer's Sarsaparilla cures this disease by cleansing the blood and eradicating all humors.

What a Prison Warden Says.

The great difficulty in the case of all well disposed ex-convicts would be re-moved if the system under which they are sentenced and discharged could be changed. If criminals were sent to the penitentiary under a system by which they would be kept there if found to be incorrigible, and thus permanently se-cluded from society, or if found corrigi-ble released on parole, employment being provided for them in all cases before they were paroled, I am satisfied that a large majority could be thus saved to society and would become self supporting citi-zens in due time.

Vincent Lundberg, of Stockholm, Physician-in-Chief to the King of Sweden, recommends Hall's Vegetable Sicilian Hair renewer for the scalp and hair.

Practical Art for Girls.

Think of 500 girls painting egg shells! These shells are suspended from windows and mantels by silken threads or they are used as breakfast or German favors. It is alleged that decorative painting is more remunerative than any other branch of art and is at the present time more popular in refined society than piano playing or dancing.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively un-known,—today it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively un-known,—today it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past.

THE SPIRIT OF THE PAST.

The twilight hour descends upon the land, And with a solemn moan the mighty deep Rolls on the beach and lulls me into sleep: And while I dream I feel a gentle hand Upon my arm, and, coming from the strand, A sweet, sad voice bids me to ever keep My purpose true and adds, "That ye may reap Ye first must sow; 'tis by divine command."

Not a Modern Idea.

Records of building associations—that is, societies for enabling subscribers to build or purchase dwelling houses—date back as far as 1781 in Birmingham, Eng-land. The number and cost of houses built depended upon the number of shares owned by the subscriber.

Happy and Home-Loving French.

I assert that, to those who will look at us without bias, we must appear in our true light the happiest and most home-loving people among modern nations. That provincial life in France is narrow, I have admitted, but what a very dove-cote is almost every little home! If the time to be happy is now, and the way to be so is to make all those around us happy, then are we the most enviable people on earth, for we put that theory into practice.

\$500 Reward.

We will pay the above reward for any case of liver complaint, dyspepsia, sick headache, indigestion, constipation or costiveness we cannot cure with West's Vegetable Liver Pills, when the directions are strictly complied with.

Common Sense

In the treatment of slight ailments would save a vast amount of sickness and misery. One of Ayer's Pills, taken after dinner, will assist Digestion; taken at night, will relieve Constipation; taken at any time, will correct irregu-larities of the Stomach and Bowels, stimulate the Liver, and cure Sick Headache.

Cathartic

for myself and family."—J. T. Hess, Leithsville, Pa. "Ayer's Pills have been in use in my family upwards of twenty years, and have completely verified all that is claimed for them."—Thomas F. Adams, San Diego, Texas.

Ayer's Pills,

PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Dealers in Medicine.
