CITY CORDIALS.

—A pocket medicine case was lost by Mr. E. D. Cummins, who offers a reward for its return to Drs. Livingston's office.

—A child of Mr. F. P. Stevenson's died this morning about 8 o'clock. They have not yet decided when the funeral will take place.

—Mr. Antill has remodeled his place of business recently, over Bennett's store and has now a complete parlor in which to serve his ice cream and other luxuries which he has constantly on hand.

—The Ladies' Aid society of the M. E. church will meet Tuesday afternoon at two o'clock at the home of Mrs. Lovrin, corner of 10th and Marble streets. All members are requested to be present as there is business of importance to attend to.

—The friends of Mrs. Will Beech will be grieved to learn that she has been ill for about a week with a severe attack of remittent fever. It was reported this morning that there were hopes of her recovery but she is as yet, quite low. We will be pleased to hear of her recovery soon.

—Don't forget the concert Wednesday evening at the M. E. church, by the Woody Brothers' male quartette, of Chicago, assisted by Miss Maggie Woody contralto soloist. The profits will go toward buying a library for the Sabbath school. Tickets can be secured at the door or at J. P. Young's, L. D. Bennett's, W. H. Baker's, C. E. Wescott's. Children 25 cents, adults 50 cents. No extra charge for reserved seats.

—It is rumored that invitations have been issued recently for a wedding which is to take place Friday evening at 9 o'clock at the residence of Mr. J. N. Wise, the event being the marriage of his daughter, Miss Evelyn to Mr. Jesse L. Root, of this city. We join heartily with the citizens in wishing them a bright and prosperous voyage over the great matrimonial sea. Mr. Root is a wise man. Let some more of the Plattsmouth bachelors follow the good example set by him.

—At the G. A. R. hall Saturday night Lieut. Col. Moses P. O'Brien, of Omaha, assisted by the members of the Grand Army, mustered a camp of the Sons of Veterans. The name adopted by the camp is Capt. Henry E. Palmer Camp No. 50 Division of Nebraska. Twenty-one members were mustered. The officers are as follows: Capt. Sigel E. Green, First Lieut. James E. Johnson, Second Lieut. Bert H. McElwain, First Sergt. Edward G. Vanatta, Q. M. Sergt. Edward McKamen.

—We are sad to be obliged to chronicle the demise of one of the most highly respected ladies of our city, Mrs. L. S. Cole, wife of Mr. W. W. Cole, who died at 10:45 last evening. She had been sick for only one week, but during that time suffered intense agony. The cause of her death was erysipelas with complications. Mrs. Cole was born at Lyons, Wayne Co., N. Y., and was aged 58 years, 9 months and 10 days. The remains will be sent to her old home for interment, but it has not yet been decided when they will be removed. She leaves a husband and two children, one 14, the other 8 years old, to mourn her loss. We sincerely sympathize with the family in their sad bereavement.

—We are sorry to say that the fine large building which has recently been erected by the Anheuser-Busch Association of St. Louis, does not prove to be as genuine as it looks from an outside view. Yesterday sometime the only foundation under which the forty feet of the front part rests on by iron pillars which were to serve as attachments for the main entrance door, gave way. The brick foundation is cracked and the large piece of iron plate which the step rests on is also cracked. Experienced men say that the building is liable to fall at any minute and some say they would not work there for \$500 an hour at present. Some say it can be repaired for \$50, but we will consider them experts if they are able to do it.

—On Wednesday evening next the celebrated male quartette of Chicago, consisting of the Woody brothers, will appear at the M. E. church. This club has a wide reputation, having traveled from the eastern to the western extremities of the country and visited all the principal cities with great success. They are at present working under a Chicago bureau and this week, as they will have two days to themselves in which they were not dated by the company, they concluded to fill in that time on their own responsibility and have selected Plattsmouth as one of the places in which they intend to hold forth. We are glad to be afforded this opportunity of hearing good music and we trust the citizens will take advantage of it.

—Mr. Jas. Wentworth Brown, treasurer of the Consolidated Water Works Company, of Boston, and Mr. M. L. Henry, expert accountant, are in the city auditing the company's books and looking over the property here. These gentlemen visit Old Orchard, Maine; Racine, Wis.; Janesville, Wis.; Salem, Ohio; Minneapolis, Kas.; and Helena, Montana, where the company has property and are making reports to the headquarters at Boston as to the successfulness of the works at each place, and arranging the books so that no trouble will be found in keeping accounts at each place satisfactory to the headquarters.

—We were shown a pair of overalls in a certain clothing store the other evening which, if the cloth was tacked together in the proper shape, would serve as material for a half dozen or more suits for ordinary sized men. The pants measured over six feet in length and over sixty inches around the largest part. The proprietor was asked if he had ordered them as a sign for his store. His answer was strongly "No, such an advertisement as that would be altogether too expensive for a man with only a retail house to back it! Those pants were made to a special order, a man whom you all know and I have no doubt but that he is the only man in the city who can say 'they are just my size.'" The chairman of the board of county commissioners. Ammi right or Ammi wrong.

—We are at a loss to know what harm we have ever done to the editor of the Journal that would call forth such slander as he saw fit to publish in his issue of Saturday. We acknowledge we have said some pretty hard things but the idea of spelling his name wrong never even entered our crananium, and we cannot see why the gentleman should wish to ruin our reputation in such a manner. But perhaps this may be an error due to his unsophisticated ignorance and when he learns his mistake will be willing to make the correction. But however this may be we take this opportunity to inform his majesty's pure and unadulterated mind that there is but one of us, and that our name is always spelled in the singular and should the gentleman ever be guilty of such gross misrepresentation again he will have to suffer the consequence of having three letters attached to his name and be Sherman's great advocate, at the ex-confederate X roads.

—A matter has recently come to light, and from such a direct source that doubt on our part is entirely out of the question and we feel duty bound through interest taken in the parties directly interested and the citizens, to touch the matter lightly with the promise of a full revelation of the act should a similar one be indulged in again. We learned that several of the mechanics who are employed in the brick shop on high school hill, formed a delegation and represented Plattsmouth in Omaha in grand shape one day last week. They apparently forgot their object in visiting Omaha when they reached that large city, and after considerable time was spent in viewing the grand sights, they finally lost their way. We do not know what the saloon keeper did with them, and we are unable to ascertain from them how they found their way again and reached Plattsmouth in safety. We believe they would give us such information if their memory could be brought into service. Don't make such a mistake again or it will go hard with you. LATER:—At first we learned through a mistake that the full delegation had returned, but since we have been told that the leader of the party only put in an appearance last evening. We are not prepared to give reasons for the delay of this certain one of the party, but it is supposed that person formed an acquaintance with some of the Omaha police, and was unable to procure bail.

—Of late, Plattsmouth appears to be infested with a large number of would-be burglars, and but for the little annoyance they furnish the citizens, no harm has been done. Late Saturday night or early Sunday morning burglars attempted to open a safe belonging to Richard Billestein, proprietor of the Union Meat Market, and for some reason left their job unfinished. Several of their tools were left as they were used in operating. A tool like an auger was found bored into the door casing for the purpose of prying the lock off, but as the window was found afterwards to be a more convenient entrance, only a screen being in their way, the door was left and the entrance made through the window. A good sized hole had been drilled into the door of the safe near the lock, and there were signs of powder as though they had attempted to blow it open and failed. Mr. Billestein has been using his spare time ever since in trying to gain an entrance with his old combination, but it didn't work. The drill had penetrated the lock and injured it in some way so that the only way to open it will be to continue in the same style and open it burglar fashion. The thieves must either have been green at their business and weakened at the critical moment and skipped, or professionals who were scared away by some one. The police have been on the lookout ever since, but no clue has yet been obtained, and the would-be burglars have had good time to make themselves scarce in this vicinity.

A PROBABLY FATAL ACCIDENT.

A Boy is Seriously Injured by an Engine While Attempting to Save His Pet Dog.

His Skull Badly Fractured.—Little Hopes of His Recovery.

Yesterday morning, as engine No. 138 pulled an extra freight train from the yards here, a boy about 18 years of age, named Judd Vance, accompanied by Mr. George Bachelor and wife, were making preparations in the vicinity of the Water Works engine house for a little sport in the way of fishing. The boy was not satisfied with the location as a fishing quarter and requested the rest of the party to move further up the river to a more favorable spot he knew of, where he thought there were better chances to secure a good supply of the finny tribes. The boy had brought his pet dog along to participate in the sports, and as they were nicely started on their way up the river the engine neared them. Just at that time the dog jumped on the track, and the boy fearing he would be crushed by the engine, jumped to his rescue, but did not succeed in keeping out of the way himself, and, as he stooped to seize the dog, he received a terrible blow on the top of his head, to the right of center line, from the cross-bar over the cow-catcher, severely crushing his skull in. He was removed to his home on Billings avenue, and is still alive although in a very critical condition. Dr. T. P. Livingston was soon in attendance and rendered what assistance was in his power for the boy's recovery. The piece of his skull which the doctor removed measured 2½ by 2½ inches. This piece was driven in under the skull. He is resting a little easier today, but serious doubts are entertained as to his recovery, as it is said he stands about one chance in a hundred.

From Weeping Water.

Decoration day has come and gone by. It passed off quite acceptably. Not near as many people were out as should be on such occasions. There were two runaways caused by the beating of the drums. One team smashed the buggy, the other was stopped before any damage was done. The address was very good.

Buildings are going up everywhere.

Politics is not boiling very much now. Too cool weather for it. Too cool for corn, even for small grain. When hot weather comes, then will the water works be of service here. Politics will boil; steam will rise on the surface. There will be need of a good deal of stirring with the stirrer to keep it from boiling over.

MAY TEMPERATURE, 1888.

Mean temperature 55.8, last May, 64.5; highest temperature 86, on the 21st; lowest, 31, on the 14th; over 86 three days. Last May seventeen days five of which days the temperature reached 90. Mean temperature for the spring months 44.5; last year 51.1. Rainfall 6½ inches, most of which fell the first part of the month. Number of thunder storms, 8; rainy days, 13; frosts, 3; fair days, 8; cloudy days, 11. May had many cool nights, being unfavorable for growth of corn. Spring was very backward.

—As our reporter was wending his way down Main street the other evening, his attention was attracted by several loud talkers who were about to risk a small quantity of "filthy lucre" on their capability as to lung power by testing the amount of wind which they each could utilize on a lung tester which Mr. Gering had on exhibition in his drug store. After each had exercised his lungs to such an extent by a loud flow of eloquence and were quite sure none could blow the machine out of gear, each had his turn. As is invariably the case where a crowd is seen in trouble on the street, a couple of politicians were participating in the exercises, and from all appearances were doing excellent work. The democrat, being defeated in his contest with the other politician apparently did not feel the best over the defeat and wishing to knock his competitor out of the box, became a little sarcastic over the matter and expressed himself by saying he always knew the republican to be a good blower. In reply the republican said that he had received and accepted in good part considerable abuse from him in various ways, but the worst rub against his grain was occasioned a short time ago when he handed in his name to the Young Men's Democratic Club, stating that he wished to become an honorary member. As the democrat is a much smaller man, the republican restrained himself considerably, but threatens him, if a second offense as serious as the first on his good character ever presents itself, that it will surely go hard with his opponent, the democrat.

It is solid proof of the substantial growth of South Park that no lots have been sold to outside speculators. The buildings are of the most permanent character. Not a week passes but notes some new improvement in this beautiful addition.

By reason of its exceptional advantages South Park is destined to be the future most desirable residence locality of the city. With its admirable avenues, magnificent groves, convenience to water-works, the prospect of railroad and street car privileges in the near future, South Park offers inducements that no other part of the city can to those wishing to make profitable investments.

Corner lots \$1.75, inside lots \$150. Payments to suit purchaser. If money is wanted to construct buildings it can be had and paid back in monthly installments. WINDHAM & DAVIES.
