A. Salsbery, Dentist, Rockwood Building, Telephone No. 35. Dr. Higgins, Office in Sherwood Block, Residence Cor. Sixth and Granite, Telephone No. 42. Drs. Cave & Smith, the Palms Dentists, Union Block, over Citizens' Bank, Plattsmouth.

All members of the Y. L. R. R. A. are requested to meet at the reading room this evening at 7:30 o'clock, to make arrangements for a lawn social to be given at the home of Mrs. W. S. Wise, Friday evening June 22.

We thank the citizens who so kindly donated yesterday and in that way assisted us in securing the dispatches from the Chicago convention. They can be seen on the bulletin board in front of M. B. Murphy's store as soon as received by us.

Mr. Henry Weckbach returned from his trip east. He spent a few days at Chicago, Milwaukee and other eastern cities. He thinks there is no use in remaining in Chicago now if you only go there with the intention of seeing the convention. It is reported that seats are selling as high as one hundred dollars each, and that would be too rich for Plattsmouth blood.

The following few well selected words appeared today in the Union correspondence, which strongly encourage us in our strenuous efforts to make THE HERALD a good live newspaper. We are receiving new subscribers every day, and with such brightened hopes of prosperity in every way we will put forth extra efforts to make the paper one of interest to all, and one that will soon find its way to every house and be read by all: "We are in search of a newspaper. We like THE HERALD. Can't ye editors start a branch printing house here?"

Mr. Joe McVey has recently purchased an instrument which has never been introduced to the city before and which has created considerable excitement among men who are interested in novelties. It is called a "sausage grinder talkophone." The manipulation of the strange instrument is quite different from anything we have seen and is certainly worthy of due consideration and thorough investigation by those who may have use for such a machine. A column might be used in giving a full description, but as we are crowded for space today, further details will be omitted, but we earnestly request all to examine it.

Mrs. Florence Kessler, who has for the last two years been afflicted with consumption, died last night about 11:20 o'clock. Although she has not been enjoying good health for that length of time, yet she did not subdue herself until just a short time ago to the disease which at last conquered her. She was married to Mr. Kessler last August and is only a young woman of about 19 years of age. The funeral will take place tomorrow morning from her husband's residence, Valley place, situated at the end of the street car line. Friends and acquaintances are cordially invited to attend. She will be buried at the Oak Hill cemetery.

The performance at the opera house last night by Mr. and Mrs. Harry Vim was witnessed by a fair sized audience notwithstanding the terrible heat. It was greatly enjoyed by all was easily to be seen by the frequent round of applause they got. It is the most interesting entertainment as well as being very funny. Mr. and Mrs. Vim are truly great artists and their talent is well appreciated by the people of Nebraska City as will be seen by the crowd we know they will have at the opera house tonight. We advise everyone to go and see these great artists to night. It is a splendid entertainment."—Nebraska City Times. A performance will be given at the Waterman opera house this evening by Mr. and Mrs. Harry Vim. The notice for their entertainment has been very short owing to the misunderstanding about their advertising. Mrs. Vim has acquired a wide reputation as a mind reader and has recently created considerable excitement in the largest cities. Wherever performances have been given by them, a strong recommendation follows them through the press. The city has not had an evening's entertainment for some time, and as this is coming along about the right time and coming in contact with no other amusement, a full house should be the result.

An Outside Opinion.

A quarter column squib appeared in our sister ink fiend last night which was entitled an outside opinion. It certainly was an outside opinion, or we have not much respect for a head that would contain such a chunk of fool beef as to display, as much ignorance. No doubt the author of the squib desired a little cheap notoriety by pondering a whole week probably in order to get his beef head to grasp what he had the gall to call an opinion, for the purpose of aspiring to editorship of the Journal during the campaign. We are quite sure he was in a sad condition of helplessness when he dropped his signature on the bottom of such a display of ignorance. He made a good display, and certainly showed that he knew nothing of what he was writing about. He made every effort his poor cranium was capable of tackling and tried to show Mr. Murphy up because he helped secure the printing for this office. Mr. M. was not the only man, as he stated, and if a thick skull could admit any reason, there might be a chance for such a man as Maguire, but as he is in such a sad plight, we expect nothing more of him. Perhaps we are foolish for using as much space over such a piece of worthlessness.

If such a man as Maguire would know what people require He would certainly close up his trap And save himself many a tap.

A Meeting of Seven Men.

CEDAR CREEK, Neb., June 18.—A democratic meeting was held here tonight at Sayles hall. Three speakers came out from Plattsmouth, C. W. Sherman, editor of the Journal, Hon. J. C. Gilmore and Matthew Gering. After trying until ten o'clock they managed to get seven men and four boys together. Gering addressed the audience for about thirty minutes and then adjourned the meeting for one week to see if they could not get enough people together to elect officers for a permanent organization at this point.—Bee. The enthusiastic workers of the O. D. party here in Plattsmouth do not seem to be having much success in organizing democratic clubs throughout Cass county. Possibly the Cedar Creekites knew the delegation that was sent out from Plattsmouth and as soon as they found Sherman was to orate took to their holes or tall timber. We don't blame you boys you have our sympathy on this occasion, we would have done likewise.

Death of An Old Citizen.

MINATARE, June 16, 1888. John H. Hilbert dropped dead without a moments warning on the 12th inst., eight miles above Ft. Laramie. A messenger was dispatched to this place immediately to his family, and his wife went to the Ft. where the remains were taken. Mr. Hilbert was an old citizen of Plattsmouth, he removed to this place two years ago from there, to prepare for himself and family a home, and has procured a lovely tract of land and was fast improving it; but right in the midst of his labor of love he was called to lay down his burden. He leaves a widow and five children to mourn his loss. (Journal please copy.) S. J. F.

The party given last evening by Miss Hattie Latham in honor of Dr. F. D. and Miss Lulu L. Burgess who have been attending college at Omaha, was a most enjoyable event and will ever be remembered by the young people who participated. Miss Latham prayed herself to be an efficient hostess and those present feel very thankful for the enjoyment furnished by her. The following is a list of the names of those present: Messrs. L. A. Moore, Dr. R. R. Livingston Jr., Dr. T. P. Livingston, Dr. E. W. Cook, W. Crowthers, E. Schlegel, Bert Wheeler of Omaha, Byron Drew, W. A. Derrick; Misses Sherman, Edna Gering, Mira Gering, Mary Hawksworth, Irene Patterson, Etta Shepherd, Marian Crowthers, Cora, Wayman, Hattie Fulmer, Nettie Ballance, Leola Carter of Omaha; Mr. and Mrs. J. Patterson, Mr. and Mrs. T. Patterson.

Dr. Burgess who arrived here last night to attend the party given by Miss Latham, returned this morning to Omaha. He recently graduated at one of the Omaha colleges and has since been remarkably successful. He was appointed to the rank of first lieutenant and acting assistant surgeon of the U. S. army. He asked for a western location and thinks he will be stationed in Idaho. He is a son of Rev. Burgess of the Episcopal church here, and is well and favorably known by many of the Plattsmouth citizens. We are all highly pleased to learn of his success so soon after starting out on his professional tour, and wish him heartily every success.

An old gentleman made a speech today of only a few words, but as we thought they were well chosen and struck the point exactly, we take great interest in giving them here. As is the case and has been for a number of days of late where men are in controversy, the coming election was the topic. The gentleman said: "The people who uphold democracy must have extremely short memories or be possessed of considerable boldness."

More enlightenment we can see. As the HERALD bulletins roll in, And the president, a republican will be, For no other kind is worth a pin.

A scene on the Plains.

Gen. W. T. Sherman's liking for circuses and spectacles is well known. When Buffalo Bill was at Erastina and Madison Square garden before he went to Europe, the general was frequently present. He was talking about Buffalo Bill a day or two ago in this way: "Buffalo Bill's show is the most wonderful thing in the way of disclosing to the people how all the great western country has been settled that it would be possible to present. It is marvelous how he has been able to represent the primeval forest, with the wild animals, the wagon trains and the camps, the settlements and the fights with the Indians, prairie fires and all that sort of thing. I watched him as he rode up in advance of the wagon train and found the spring, and where he stooped down and took the water up with his hat and handed up a hatful to his horse. "It reminded me of many a similar scene which I have witnessed. I remember just such a spring away up on the North Platte river, and I have seen many a man water his horse or his mule at just such a spring. The water is generally deep down in the surface of the ground in a fissure, where it would be impossible for the animal to reach it. Where Buffalo Bill jumps on his horse and swings his hat for the wagon train to come on, it is the most natural thing in the world."—New York Tribune.

The Nicaragua Canal.

Accounts from the Nicaragua canal expedition report that the hydrographic corps have already begun their labors at the west side of Lake Nicaragua. Two routes are suggested from the lake to the sea, on the eastern side, which diverge at a point about twenty-five miles from the lake, one route being through the rock and difficult in its engineering, but seven miles shorter than the easier line which runs below. A thorough exploration to determine the advantages and disadvantages of the two routes will be made.

The adventures of that noted explorer, Alan Quatermain, are recalled by some descriptions, reported by correspondents accompanying the expedition, of a tribe of white Indians dwelling at the head waters of the Rio Frio, and of the sharks which infest the waters of Lake Nicaragua—a singular fact! This inland lake on the table land overlooking the Pacific lessens the necessary distance of canal excavation by nearly fifty miles, and it is to be hoped that the sharks will be exterminated or disappear when the canal is completed, but perhaps lake water sharks are not as voracious as the sea faring monsters of the same family.—Demorest's Monthly.
