NATIONAL REPUBLICAN TICKET.

FOR PRESIDENT, BENJAMIN HARRISON, of Indiana.

WITH HARRISON we'll make them run and that's what's the matter.

JUDGE THURMAN is 74, Mr. Morton 64, General Harrison 55 and Mr. Cleveland 51.

The popular vote for president in 1884 was 19,967,610. It will be about 12,000,000 this year.

The strike among the furnace men of Pennsylvania is charged up to the tariff with all the check the millionaire Scott, who has taken charge of Mr. Cleveland's cause, possesses.

"FREE whisky and dear clothing!" yelled the thousand throats of that party, which went out of power leaving whisky at 30 cents a gallon, 3 cents a drink, and cotton prints at 35 cents per yard, as soon as the Chicago convention had framed a platform for that other party whose moral influence had diminished the vice of intemperance and whose financial policy had reduced cotton prints to 5 cents a yard, and almost all needful manufactures in like degree.—Pawnee Republican.

PATRICK EAGAN is called a professional Irishman by the hydrophobic democratic press. Yes, Mr. Eagan is a educated Irishman who has professed Republicanism, and this is the head and front of his offending. An Irishman that refuses to be dragged behind the conquering car of English free trade and English democracy in this country, is a scallawag in the estimation of the northern democracy.

This wild, woolly, west, doesn't want any free trade, not much gentlemen; we want manufactures; and now, just as the manufacturer is putting his foot west of the Missouri river to build up manufacturing and give us a home market, out west, for our produce and then, in a measure, relieve us from the burden of long hauls to the lakes and seaport market.—The vexed transportation problem we don't want any free trade for the west. Give us protection, give us manufactures—give us a home market, the best market in the world—an American market—is what we want.

THE CATCHER IN MODERN BASEBALL.

The "catcher" in modern baseball is another development that must not be passed by. In the circus there is often a trained athlete, who stands in front of a cannon and catches the ball in his hands when it is fired out, at no very great distance from the gun. The charge of powder which sends it, however, is measured, and serious accidents resulting from the undertaking, I think, are not numerous.

Singing in the Public Schools.

The system of singing now taught in the public schools is productive of wonderful results. The children are not taught from song books, as was the old style, but they are first made to sing and understand the notes. Just as in other studies the text book has been superseded by the oral lesson, so, too, in this case. It is too, in fact, an object lesson in vocal music. In the movable do system which we use the child is made to appreciate the full value of every note, and they learn to read music at sight in a remarkably short time. In one year, under the present method, a child advances as much as it would under the old method in three years. Then, too, the lessons soften and modulate the voice and render it more flexible for elocutionary purposes. The orators of the coming generation will have sweeter music in their tones than the orators of the present time.—Nicholas Harold in Globe-Democrat.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from disease of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to continue will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may lose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

5500 Reward.

We will pay the above reward for any case of liver complaint, dyspepsia, sick headache, indigestion, constipation or costiveness we cannot cure with West's Vegetable Liver Pills, when the directions are strictly complied with. They are purely vegetable, and never fail to give satisfaction. Large boxes containing 30 sugar coated pills, 25c. For sale by all druggists. Beware of counterfeits and imitations. The genuine manufactured only by John O. Well & Co., 862 W. Madison St. Chicago, Ill. Sold by W. J. Warrick.

TEETH WHILE YOU WAIT.

How the Dentist Tries to Defy Time as Well as Nature.

"Four and five dollar sets of teeth made while waiting." That is a portion of an advertisement that caught a reporter's eye and caused a visit to the office of the dentist who had inserted it.

Many men doubtless remember that certain of their relatives remained in solitary confinement for from two to three weeks while waiting the arrival of the ideal set of grinders. Is it possible that one can have one's own worthless teeth removed, an impression of the mouth taken and new teeth fitted, and all within an hour or two's time?

"No, it is not so satisfactory, nor is it any less expensive, but it is quicker. The price of a false set of teeth depends almost entirely on the number and size of the platinum plates which the teeth contain, and the quality and texture of the porcelain used.

"Countrymen and farmers buy more false teeth than do any other class of people. You see, Mrs. Jones, for instance, has the tooth-ache, comes to town, and after frantic attempts to get rid of the pain, has all her teeth pulled, and with a beautiful new set, with perhaps a little gold filling in front, returns to her village or farm. Mrs. Smith sees Mrs. Jones' teeth, and, not content to be without anything that Mrs. Jones has, she, too, comes to town and has porcelain substituted for bone.

"Country people don't take proper or even decent care of their teeth; and, besides, they eat too much pie. And they, too, are the people who want their teeth served up in an hour's time. A countryman comes to the city expecting to do shopping for the folks at home, take in the town and provide himself, and perhaps his family, with a set of teeth, and all in one day. Sometimes he is successful, too.

"Negroes carry a good deal of porcelain and gold in their mouths, but they, almost invariably, want the most expensive sets, insisting upon gold plates and plenty of gold filling. I have made a number of sets for negroes which cost \$100. But in a year's time a negro will manage to break the best set that I can make, and then, of course, he receives a bill for repairs.

"The gold plates are, of course, incomparably better than the rubber or the celluloid, and if a patient can afford them I always advise their use."—New York Evening World.

Superstitions of the Omahas.

Mr. Frank La Flesche, an Indian who has for some years been employed in the Indian office, read an interesting paper before the Anthropological society the other evening on the "Fetichism of the Omahas." The "fetichism of death," he said, "is believed to be foreshadowed in various ways, not only to the person himself, but to others, who, by reason of their supposed skill in seeing the coming of death, gain reputation as prophets. They either have visions or pass through apparent death. The dreamer lies in the open air, in the midsummer, with the blanket rolled in the heavens, and listens for voices. These come to him from animals, clouds or merely the air. Such persons as can foresee death are eligible to membership in the 'Ghost society.' One vision is that of a woman walking, but not on the ground, surrounded by a halo of brightness, and always leaving a trail of light behind her. If they wear a placid, pleasing expression, the death will be from natural causes, from accident or in war; but if the face is distorted it is an indication that the person will die while engaged in a quarrel with another, and the soul is full of bitterness. Those who foresee can also prevent death, and are often called upon to render this service. One method is pouring red water at right angles to the path leading to the lodge, while another consists of occupying, with one whose death is foreseen, a sweet lodge built by the latter, pronouncing certain incantations and sprinkling the body of the client with the powder of the Artemisia, supposed to be the food of the ghosts.

ADMISSION OF TERRITORIES.

The government by congress of the territories is based upon the theory that the end that they may become states in the union, therefor, presents the conditions of population, material resources, public order, and morality are such as to insure stable local government therein the people of such territories should be permitted to elect their own representatives to form for themselves constitutions and governments and be admitted into the union. The political party pledges itself to support the admission of the territories and to support the admission of the territories as states. Such of them as are now qualified should be admitted as states as soon as they may become so.

OUR MERCHANT MARINE.

We earnestly recommend that prompt action be taken to correct the existing conditions of our American merchant marine, and we protest against the proposed congress of a free ship bill as calculated to work injury to the shipping interests of the United States.

REPUBLICAN PLATFORM.

The republicans of the United States, assembled by their delegates in national convention, praise the memory of their first great leader and immortal champion of liberty and the rights of the people, Abraham Lincoln, and to cover also with wreaths of imperishable remembrance and gratitude the heroic names of our later leaders who have more recently called away from our councils, Grant, Garfield, Arthur, Logan and Conkling. May their memories be faithfully cherished. We also recall with our greetings and prayer for his recovery the name of one of our living heroes whose memory will be treated in the same manner by republicans and of the republic. The name is that of the noble soldier and favorite child of the people, Philip Sheridan.

In the spirit of those great leaders and of our devotion to human liberty, and with that hostility to the spirit of despotism and oppression which is the fundamental idea of the republican party, we send fraternal congratulations to our fellow citizens of the United States on the great act of emancipation which completed the abolition of slavery throughout the two American continents. We earnestly hope we may soon congratulate our fellow citizens of Irish birth upon the peaceful recovery of home for the millions of their race who are now suffering in the hands of their oppressors.

WE AFFIRM OUR UNSWerving DEVOTION to the national constitution and to the individual rights of citizens of the United States, and to the personal rights and liberties of citizens in the possession and enjoyment of the same, especially to the supreme and sovereign right of every citizen, rich or poor, native or foreign, to the elective franchise. We also recall the public elections and to have that ballot right fully and equally exercised by all people to be the foundation of our republican government and demand effective legislation to secure the integrity and purity of elections which are the fountains of all political rights. We charge that the present administration and the democratic majority in congress owe their existence to the suppression of the ballot by the criminal nullification of the constitution and laws of the United States.

WE ARE UNCOMPROMISINGLY IN FAVOR of the American system of protection. We protest against the destruction of our tariff system and his party. They serve the interests of Europe.

WE WILL SUPPORT INTERESTS OF AMERICA. We accept the issue, and confidently appeal to the people to support the protective system must be maintained. Its protective character has always been followed by general disaster to all interests except those of the unscrupulous and selfish.

WE DENOUNCE THE MILLER'S bill as destructive to the interests of the country, and we endorse the consistent and patriotic action of the republican party in opposing its passage. We condemn the policy of the democratic party to place wool on the tariff and to adjust and maintain the tariff on a full and adequate protection to that industry.

THE REPUBLICAN PARTY would effect all needed reduction of the national revenue by repealing the duties on agricultural products, and by such revision of the tariff laws as will tend to check importations of such goods as are produced by our people, the production of which gives employment to our labor, and raises from these articles the like of our own products.

WE DENOUNCE THE MILLER'S bill as destructive to the interests of the country, and we endorse the consistent and patriotic action of the republican party in opposing its passage.

and Pacific states as well as for the payment of the maturing public debt.

This policy will give employment to our labor, activity to our various industries, increased security to our country, promote trade, open new and direct markets for our products and cheapen the cost of transportation. We affirm this to be far better for our country than the democratic policy of raising the government's money without interest to "pet banks."

FOREIGN RELATIONS.

The conduct of foreign affairs by the present administration has been distinguished by inefficiency and cowardice. Having withdrawn from the senate all pending treaties effected by our former administrators for the removal of foreign burdens and restrictions upon our commerce and for its extension into a better and more profitable field, the present administration has neither affected nor proposed any other in their stead. Profoundly as we are opposed to the extension of foreign influence in Central America and of foreign trade everywhere among our neighbors, it has refused to charter, sanction or encourage any American organization for the removal of the Nicaragua canal, a work of vital importance to the maintenance of the Monroe doctrine and of our national influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the farther coasts of the Pacific Ocean.

FISHERIES QUESTION.

We arraign the present democratic administration for its weak and unscrupulous treatment of the fisheries question, and its pusillanimous surrender of all privileges to which our fishery vessels are entitled in Canadian ports at home and in the treaty of 1818, the reciprocal marine legislation of 1850 and comity of nations, and which Canadian fishermen have secured in the ports of the United States. We condemn the policy of the present administration and the democratic majority in congress towards our fisheries as unscrupulous and conspicuously hostile to the interests of our fishermen and national industry and an indispensable resource of defense against foreign energy.

The name of American applies alike to all citizens of the republic, and imposes upon alike the same obligation of obedience to the laws of the country. Citizenship is and must be the property and regard of him who seeks it, should shield and protect him whether high or low, rich or poor, and his civil rights, it should and must afford him protection in whatever land he may be on a lawful errand.

CIVIL SERVICE REFORM.

The men who abandoned the republican party in 1861 and continue to adhere to the democratic party have deserted not only the cause of honest government, but its moral basis of freedom and purity of the ballot, but especially the cause of reform in the civil service. We will not fail to keep our pledges because they have broken theirs, or therefore repeat our declaration of intent. The reform of civil service auspiciously begun by the republican administration should be completed by a further extension of the reform system already established by law to all grades of the service to which it is applied. The spirit of reform should be observed in all executive appointments, and all laws at variance with the object of existing reform legislation should be repealed, and that the dangers to free institutions which lurk in the power of official patronage may be wisely and effectively avoided.

Republican State Convention.

The republican electors of the state of Nebraska are requested to send delegates from their several counties to meet in convention at the city of Lincoln Thursday, August 23, 1888, at 2 o'clock p. m., for the purpose of placing in nomination candidates for the following state offices.

- Governor. Lieutenant Governor. Secretary of State. State Treasurer. Auditor of Public Accounts. Attorney General. Commissioner of Public Lands and Buildings. And the transaction of such other business as may come before the convention.

THE APPOINTMENT.

The several counties are entitled to representation as follows, being based upon the vote cast for Hon. Samuel Maxwell, judge, in 1887, giving one delegate at large to each county, and for each 150 votes, and major fraction thereof:

Table with columns: COUNTIES, VOTES, COUNTIES, VOTES. Lists counties and their respective votes for delegates.

It is recommended that no proxies be admitted to the convention except such as are held by persons residing in the counties from which the proxies are given.

To Chairman County Central Committees:

WHEREAS, At the republican state convention held at Lincoln October 7, 1887, the following resolution was adopted: Resolved, That the state central committee be instructed to embrace in its call for the next state convention the submission of the prohibition question to the republican voters at the republican primaries.

Therefore, in accordance with the above resolution, the several county central committees are hereby instructed to include in their call for their next county convention the submission of the prohibition question to the republican voters at the republican primaries.

Geo. D. MEIKLEJOHN, Chairman. WALT. M. SEELYE, Secretary.
