A TEXAS stockman says: "There is a phase of the protection business that I don't think is generally considered. There is a large amount of capital kept out of this state in this way. A number of wealthy cattlemen of the northwest would come down and invest in Texas if they knew positively that the tariff on cattle between this country and Mexico will be preserved. At present it is policy on their part to hold off, because if the tariff is done away with you may rest assured that these men will take all the cattle they can into Mexico, for there they can lease at two cents per acre and pay no taxes whatever. As things stand now, cattle that come in from Mexico Pills are scientifically prepared, are easy are subjected to a duty of \$2 to \$3 a to take, and are safe for young and old. head. This balances things, but supposing free trade exists, how can Texas compete with Mexico? Cattlemen from Arizona, Colorado and the territories will then go into Mexico en masse with their cattle and the Texas stockmen will be totally unable to compete with the own personal knowledge of one large stockman who, in the event of the cattle tariff being taken off, will at once place 25.000 head of stock in Mexico, and there are plenty more who will follow his example.—Arizona Citizen.

A New Mexico Shepherd's Life.

The life of a cowboy, full of bardship though it be, is lively and bracing and comparatively comfortable. But a shepherdwell, it's useless to go on; language will not even graze the skin of the subject. Without a house to sleep in, camping on the bare ground in weather that would make a Dakota blizzard reach for its gun, his only home the place where the sheep stop at night, often obliged to be out all night when the storm or the coyote scatters the flock, and never able to take off his shoes or clothes for months at a time; with no society save that of the sheep and a fellow shepherd as stupid as himself, the pastor's lot is not a happy one. Its hardships, severe as they are, are nothing beside its dullness. Fancy yourself sitting all day and watching a flock of sheep, and keeping it up month in and month out, year

in and year out. It is true that the shepherd has some diversions, but they are mostly forbidden ones. He will make some alleged music, of an evening, on the vihuela, a sort of gigantic jewsharp of home manufacture, made of a bent stick, a string and one key, and looking more like a lop sided bow than anything else. He indulges likewise in sundry games of Mexican monte and cunquian with his compadre, play-ing all night and sleeping all day. If there be a baile (dance) in some neighboring town, or if he become possessed of an overwhelming desire to visit one of his commadres and take her a few fat wethers, he will sneak away at nightfall and will not return till morning, meantime leaving his partida to go to thun-der. But woe to him if his patron catch him at such exploits! Then shall be wish bailes and commadres relegated to the limbo of

things forgotten. The roster of a duly organized flock consists of 2,500 sheep—all ewes and their lambs, with a few wethers for mutton—two shepherds (Navajoe or Mexican), two dogs to help care for the flock and two burres to pack the blankets, provisions and axes. Shepherds are paid from \$15 to \$20 per month-generally the latter figure-and rations. The provisions, given them every month, comprise flour, meal, beans, coffee, sugar and salt. The meat of the wethers is is hardly to be expected in shepherds, and they are a picturesquely dirty set of tatter-demalions. A slouch hat of the vintage of '76, a ragged shirt, still raggeder coat, and raggedast unwhisperables, generally innocent of buttons, and repressed by strings, with a pair of teguns, with soles of raw ox hide and uppers made of sheepskin, with the wool inside, a shock of tangled hair, and face and hands long unaware of soap. That about fills the picture.—Cor. Globe-Democrat

"A few years ago I suffered the entire loss of my hair from the effects of tetter. I hoped that after a time nature would repair the loss, but I waited in vain. Many remedies were suggested, none, however, with such proof of merit as Ayer's Hair Vigor, and I began to use it. The result was all I could have desired. A growth of hair soon came out all over my head and growth to be as soft and my head, and grew to be as soft and heavy as I ever had, and of a natural color, and firmly set."—J. H. REPUBLICAN PLATFORM.

REPUBLICAN PLATFORM.

The republicans of the United States, assembled by their deligates in national convention, panse on the threshold of their proceedings to honor the memory of their first great leader and immortal champion of liberty and the rights of the people, Abraham Lincoln, and to cover also with wreaths of imperishable remembrance and gratitude the heroic names of our later leaders who have been more recently called away from our councils, Grant, Garfield, Arthur, Logan and Conkling. May their memories be faithfully cherished. We also recall with our greetings and prayer for his recovery the name of one of our living heroes whose memory will be treasured in the history both of republicans and of the republic. The name is that of the noble soldier and favorite child of victory. Philip H. Sheridan.

In the spirit of these great leaders and of our devotion to human liberty, and with that hostility to all forms of despotism and oppression which is the fundamental idea of the republican party, we send fraternal congratulations to our fellow Americans of Brazil upon their great act of emancipation which completed the abolition of slavery throuhout the two American continents. We earnestly hope we may soon congratulate our fellow citizens of Irish birth upon the peaceful recovery of home rule for Ireland.

Irish birth upon the peaceful recovery of home rule for Ireland.
WE AFFIRM OUR UNSWERVING DEVOTION

to the national constitution and to the indis-soluble union of states to the autoonmy re-served to the states under the constitution, to the personal rights and liberties of citizens in all states and territories in the union and esall states and territories in the union and especially to the supreme and sovereign right of every citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in the public elections and to have that ballot duly counted. We hold a free and honest popular ballot and just and equal representation of all people to be the foundation of our republican government and demand effective legislation to secure the integrity and unity publican government and demand effective legislation to secure the integrity and purity of elections which are the fountains of all public authority. We charge that the present administration and the democratic majority in congress owe their existence to the suppression of the ballot by the criminal nullification of the constitution and laws of the United States, We are uncompromisingly in favor of the We are uncrompromisingly in favor of the American system of protection. We protest against the destruction proposed by the president and his party. They serve the interests of Furness

WE WILL SUPPORT INTERESTS OF AMERICA. We accept the issue, and confidently appeal to the people for their judgment. The protective system must be maintained. Its abandonment has always been followed by general disaster to all interests except those of the unsurer and sheriff.

we denounce the Mills' bill as destructive to general business, labor, and the farming inter-ests of the country, and we heartly endorse the consistent and patriotic action of the republican representatives in congress in oppos-ing its passage. We condemn the proposition of the democratic party to place wool on the free list and insist that the duties thereon shall be adjusted and maintained so as to furaish full and adequate protection to that in

The republican party would effect all needed reduction of the national revenue by repealing the taxes on tobacco, which are an arrogance and burden to agriculture, and the fax upon spirits used in the arts and for mechanical pur-poses, and by such revision of the tariff laws as will tend to check imports of such articles as will tend to check imports of such articles as are produced by our people, the production of which gives employment to our labor, and re-lease from import duties these articles of for-eign production, except luguries, the like of which cannot be produced at home, there shall still remain a larger revenue than is requisite for the wants of government, of internal taxes without them to be produced as the contract of the state. rather than surrender any part of our protective system at the joint beliest of the whisky ring and agents of foreign manufacturers.

AGAINST PAUPER AND LABOR TRUSTS, We declare hostility to the introduction into this country of foreign contract labor and of Chinese labor allen to our civilization and our constitution, and we demand the rigid enforce-ment of existing laws against it and favor such

immediate legislation as will exclude such la-bor from our shores.

We declare our opposition to all combina-tions of capital organized in trusts or other-wise to control arbitrarily the condition of trade among our citizens and we recommend to congress and the state legislatures in their respective jurisdictions such legislation as will prevent the execution of all schemes to oppress the people by undue charges on their supplies or by unjust rates for the transportation of their products to market

their products to market.

we approve legislation by congress to prevent alike unjust burdens and unfair discrimination between states

PUBLIC LAND LEGISLATION. We reaffirm the policy of appropriating the public lands of the Uhited States to be home-steads for American citizens and settlers not steads for American citizens and settlers not aliens, which the republican party established in 1802 against the persistent opposition of the democrats in congress, which has brought our great western domain late magnificent developement. The restoration of uncarned land grants to the public domain for the use of actual settlers, which was begun under the administration of President Arthur should be continued. We deny that the democratic party has ever restored one acre to the people, but declare that by the joint action of republicals and democrats about firty milition acres of uncarned lands, originally granted for the construction of railroads, have been restored to the public domain in pursuance of conditions inserted by the republican party in the original grants. We charge the democratic administration with failure to execute laws securing to settlers title to their homesteads and with using appropriations made for that purpose to ing appropriations made for that purpose to harrass innocent settlers with spies and prosecutions under the false pretense of exposing frauds and vindicating the law.

ADMISSION OF TERRITORIES,

ADMISSION OF TERRITORIES,

The government by congress of the territories is based upon necessity only to the end that they may become states in the union: therefore, whenever the conditions of population, material resources, public intelligence and morality are such as to insure stable local government therein the people of such territories should be permitted, a right inherent in them, to form for themselves constitutions and state governments and be advitted into the union. Pending preparation for statehood all officers thereof should be selected from bona fide residents and citizens of the territory wherein they are to serve. South Dakota should of right be immediately admitted as a state in the union under the constitution framed and adopted by her people, and we heartily endorse the action of the republican senate in twice passing bills for her admission. The refusal of the democratic house of representatives, for partisan purpeses, to favorably consider these bills is a willful violation of the sacred American principle of local self-government, and merits the condemnation of all just men. The pending bills in the senate for acts to enable the neops of Wishington, North Dakota and Montanna territories to form constitutions and establish state governments should be passed without unnecessary delay. The republican party pledges inself to do all in its power to facilitate the admission of the territories of New Mexico, Wyoming, Idaho and Arizona to the enjoyment of self-government as states. Such of them as are now qualified as soon as possible and others as soon as they may become so.

THE MORMON QUESTION.

The political power of the Mormon church in the territories as exercised in the past is a menance to free institutions too dangerous to be long suffered. Therefore we pledge the rebe long suffered. Therefore we pledge the republican party to appropriate legislation, asserting the severeignty of the nation in all the territories where the same is questioned, and in furtherance of that end to place upon the statute book legislation stringent enough to divorce political from ecclesiastical power, and thus stamp out the attendant wickedness of polygamy.

The republican party is in favor of the use of both gold and silver as money, and condemns the policy of the democratic administration in its efforts to demonetize silver.

We demand the reduction of letter postage

tration in its efforts to demonetize silver.

We demand the reduction of letter postage to 1 c'nt per ounce.

In a republic like ours, where the citizens is the sovereign and the official the servant, where no power is exercised except by the will of the people, it is important that the sovereign people should possess intelligence. The free school is the promoter of that intelligence which is to preserve us a free nation. Therefore, the state or nation, or both combined, should support free institutions of learning sufficient to afford to every child growing up in the land the opportunity of a good commonsehool education,

We carnestly recommend that prompt action be taken he congress in the enactment of such legislation as will best secure the rebabilitation of our American merchant marine, and we protest against the passage by congress of a free ship bill as calculated to work injustice to labor by lessening the wages of those engaged in preparing materials as well as those directly employed in our shipyards. We demand appropriations for the early rebuilding of our navy, for the construction of coast fortifications and modern ordinance and other approved modern means of defense for the protection of our defenseless harbors and cities, for the payment of just per sions to our soldiers, for necessary works of national importance in the improvement of the harbors and; channels of internal, coastwiser and fore gu commerce, for the encouragement of

the shipping interests of the Atlantic, Gulf and Pacific states as well as for the payment of the maturing public debt. This policy will give employment to our labor, activity to our various industries, increased security to our country, promote trade, open new and direct markets for our products and cheapen the cost of transportation. We affirm this to be far better for our country than the democratic policy of loaning the government's money without interest to "pet banks;"

The conduct of foreign affairs by the present administration has been distinguished by inefficiency and cowardice. Having withdrawn from the senate all pending treaties effected by republican administrations for the removal of foreign burdens and restrictions upon our commerce and for its extension into a better market, it has neither affected nor proposed any others in their stead. Professing adherence to the Mooroe doctrine, it has seen with idle complacency the extension of foreign influence in Central America and of foreign trade everywhere among our neighbors. It has refused to charter, sanction or encourage any American organizytion for constructing the Nicaragua canal, a work of vtal importance to the maintenance of the Monroe doctrine and of our national influence in Central and South FOREIGN RELATIONS. of our national influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the further coasts of the Pacific Ocean.

We arraign the present democratic administration for its weak and unpatriotic treatment of the fisheries question, and its pusilianimous surrender of all privileges to which our fishery vessels are entitled in Canadian perts under the treaty of 1818, the reciprocate marintine legislation of 1830 and comity of nations, and which Canadian fishing vessels receive in the ports of the United States. We condemn the rolicy of the present administration and the democratic majority in congress towards our fisheries as unfriendly and conspictously impatriotic and as tending to destroy a valuable national industry and an indispensible resource of defense against foreign enemy.

The name of American applies alike to all critzens of the republic, and imposes upon men alike the same obligation of obedience to the laws. At the same time citizenship is and must be the panoply and safeguard of him who wears FISHERIES QUESTION.

laws. At the same time citizenship is and must be the panoply and safeguard of him who wears it, should shield and protect him whether high or low, rich or poor, in all his civil rights. It should and must afford him protection at home and follow and protect him abroad in whatever land he may be on a lawful errand

CIVIL SERVICE REFORM.

The men who abandoned the republican party in 1884 and continue to adhere to the democratic party have deserted not only the cause of honest government, but of sound finance, of freedom and parity of the bailot, but especially have deserted the cause of reform in the civil service. We will not fail to keep our pledges because they bave broken, theirs, or because their candidate has broken his. We therefore repeat our declaration of 1884, towing the reform of civil service auspiciously begun under republican administration should be completed by a further extension of the reform system already established by law to all grades. system already established by law to all grades of the service to which it is applied. The spir-it and purpose of reform should be observed in all executive appointments, and all laws at varience with the object of existing reform legislation should be repealed, and that the dangers to free institutions which lark in the power of of call patronage may be wisely and effectively content.

er of official patronage may be wisely and effectively avoided.

The gratitude of the nation to the defenders
of the union cannot be assured except by laws.
The legislation of congress should conform to
the pledges made by a loyal people, and be so
enlarged and extended as to provide against
the possibility that any man who honorably
were the federal uniform shall become an inmate of an alushouse or demoder to reject. were the federal uniform shall become an inmate of an almshouse or dependent on private
charity. In the presence of an overflowing
treasury it would be a public scandal to do less
for those whose valorous service preserved the
government. We denounce the nostile spirit
shown by President Cleveland in his numerous
vetoes of measures for pension relief, and the
action of the democratic house of representatives in refusing even consideration of general
pension legislation.

In support of the principles herewith enunciated, we invite the co-operation of patriotic
men of all parties, especially of all working
