## NATIONAL REPUBLICAN TICKET.

FOR PRESIDENT, BENJAMIN HARRISON, of Indiana.

FOR VICE PRESIDENT, LEVI P. MORTON,

"REVENUE REFORM" "TARIFF FOR REVENUE ONLY" OR "FREE TRADE," WHICH:

of New York.

Every time the democratic shufflers on the tariff attempt to adjust themselves to the locality they put their foot through the free trade net. The trouble with the party is its double dealing with the question at issue. Mr. Cleveland, who is unquestionably for free trade, and whose "Surplus message deals entirely in free trade sophistries, cases, unfortunately for his party, his demand for a reduction of protective duties financially, upon the necessity of reducing the revenue of the government; incedent to this necesity he argues that the duties, as now scheduled, are oppressive to the consumer, etc.

In consequence of this peculiar position of the president we find one section of the party for "tariff reform" another for "tariff for revenue only," that is they would impose enough duties on the foreigher seeking to trade in American markets and on foreign goods, to barely meet the receiving expenses of the government; while another section, of the party, are for free trade out and out and each one of these divisions claim that they are the true exponents of the St. Louis platform which takes up and makes Mr. Cleveland's surplus message its tariff plank. Now, while the democratic party as a party is unquestionably the enemy of a protective tariff, it will claim, in the eastern states, to be for reduction of duties only; in the northwest for revenue only, and at the south largely for free trade; and hence, will have to be met upon all and each of these pretended is sues. If for "revenue only," the effect of such a policy would be to reduce or lower, a little, the duty on articles manufactured by W. J. Warrick.

A child in finance can see that this would be the result of a "tariff for revenue only;" so that the "revenue reformers" and "tariff for revenue only" statesmen would, so far as the surplus question is concerned. simply "step out of the frying pan into the fire." This leaves "free trade" as the only logical ground upon which a demoerat can maintain himself in this industrial controversy and the democratic party dare not be houest with the country and bravely occupy that ground, which it unquestionably would occupy, if it was only brave enough to face the certainty of stepping down and out for principle certainly it is not an enviable position to occupy for a great political

England grew rich under a gigantic system of protection for 500 years; until she had established the manufacturing interests which her statesmen proudly believed would rule the commerce of the world. Mr. Blaine says, commenting on the tariff of that country: "When by long experiment and persistent effort England has carried her fabrics to perfection! When by the long accumulation of wealth and the force of reserved capital she could command facilities which poorer nations could not rival! When by the talent of her inventors, developed under the stimulus of large rewards she had surpassed all other countries in the mag nitude and effectiveness of her machinery. she proclaimed free trade and pursuasive urged it upon all lands with which she had commercial intercourse. Maintaning the most arbitrary and most complicated system of protection, so long as her statesmen considered that policy advantageous. she resorted to free trade only when she felt able to invade the domestic markets of other countries and undersell the fabrics produced by struggling artisians who were sustained by weaker capital and by less advanced skill. So long as there was danger that her own markets might be invaded and the products of HAVEN & RHODES her looms and forges undersold at home. she rigidly excluded the competing fabric and held her own markets for her (Name this paper in your order.)

If you will remember a few years ago the word Malaria was comparatively unknown,-today it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is used with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If which is all forms of despotism at d oppression which is the fundamental idea of the republican party, we send frate and congratulations to our fellow Americans of Brazil upon their great act of emancipation which completed the abolition of slavery throubout the two American continents. We earnestly hope we may soon congratulate our fellow citizens of Irish birth upon the peaceful recovery of home rule for Ireland.

to the national constitution and to the indi-soluble union of states to the autoonmy re-served to the states under the constitution, to the personal rights and liberties of citizens i all states and territories in the union and es pecially to the supreme and sovereign right of every citizen, rich or poor, native or fereign form, white or black, to cast one free ballot in born, white or black, to cast one free ballot in the public elections and to have that ballot duly counted. We hold a free and honest pop-ular ballot and just and equal representation of all people to be the foundation of our re-publican government and demand effective legislation to secure the integrity and purity of elections which are the foundains of all pub-lic authority. We charge that the present ad-ministration and the democratic majority in congress over their existence to the supercession ministration and the democratic Rajority in congress owe their existence to the suppression of the ballot by the criminal millification of the constitution and laws of the United States.

We are uncrompromisingly in favor of the American spatem of protection. We protest against the desiraction proposed by the president and his party. They serve the interests of Europe

we will support interests of Agreeica. We accept the issue, and confidently appeal to the people for their judgment. The protective system must be maintained. Its abandonment ins always been followed by general dis-ster o all interests except those of the unsurer and sheriff.

ination between states. . PUBLIC LAND LEGISLATION.

We reaffirm the policy of appropriating the public lands of the Uhited States to be homesteads for American citizens and settlers not aliens, which the republican party established sicclare that by the joint action of republicals and democrats about fifty million acres of unsured lands, originally granted for the construction of railronds, have occur restored to the public domain in pursuance of conditions inserted by the republican party in the original grants. We charge the democratic administration with failure to execute laws securing to settlers title to their homesteads and with using appropriations made for that purpose to harrass isnocent settlers with spies and prosecutions under the false pretense of exposing frauds and vindicating the law.

ADMISSION OF TERRITORIES,

The government by congress of the territories is based upon necessity only to the end that they may become states in the union: therefore, whenever the populations of population, material resources, pupils intelligence and morality are such as to insure stable local government therein the people of such territories should be permitted, a right inherent in them, to form for themselves constitutions and stale criment therein the people of such territories should be permitted, a right inherent in them, to form for themselves constitutions and state governments and be ad eitted into the union. Pending preparati in for statehood all officers thereof should be selected from bona fide residents and citizens of the territory wherein they are to serve. South Dakota should of right be immediately admitted as a state in the union under the constitution framed and adopted by her people and we heartly endorse the setion of the republican senate in twice passing bills for her admission. The repusal of the democratic house of representatives, or partisan particises, to favorably consider these bills is a willful violation of the sacred American principle of local gelf-government, not merits the gendemnation of all just men. The pending bills in the senate for acts to enable the isopts of Wishington, North Dakota and Montanna territories to form constitutions and establish state government is should be passed without unnecessary dety. The requalition party phedges inself to do all in its power to facilitate the admission of the territories of New Mexico, Wyoming, Idaho and Arizona to the enjoyment of self-government as states. Such of them as are now qualified as soon as passible and others as soon as they may become so. as soon as possible and others as soon as they may become so.

THE MORMON QUESTION

The political power of the Mormon church in the teritories as exercised in the past is a menance to free institutions too dangerous to menance to free institutions too dangerous to be long suffered. Therefore we piedge the republican party to appropriate legislation, asserting the sovereignty of the nation in all the territories where the same is questioned, and in furtherance of that end to place upon the statute book legislation stringent enough to divorce political from ecclesiastical power, and thus stamp out the attendant wickedness of polygamy.

The republican party is in favor of the use of both gold and silver as money, and coademns the policy of the democratic administration in its efforts to demonetize silver.

We demand the reduction of letter postage

We demand the reduction of letter postage to 1 c at per cunce. In a republic l'ke ours, where the citizens is

the sovereign and the official the servant, where no power is exercised except by the will of the people, it is important that the sovereign people should possess intelligence. The free school is the promoter of that intelligence which is to preserve us a free mation. Therefore, the state or nation, or both combined, should support free institutions of learning sufficient to efford to every child growing up in the land the opportunity of a good common-

OUR MEECHANT MARINE.

We earnestly recommend that prompt action be taken in corgress in the eractment of such legis ation as will best secure the rebabilitation of our American merchant marine, and we protest against the passage by congress of a free ship bill as calculated to work injustice to labor by lessening the wages of those engaged in preparing materials as well as those directly employed in our shippards. We demand appropriations for the early rebuilding of our navy, for the construction of cass fortifications and modern ordinance and other approved modern means of defense for the spiroved modern nears of defense for the protection of our defenseless harbors and cities, for the payment of just per sions to our soldiers, for necessary werks of national importance in the improvement of the harbors and channels of internal, coastwiser and foreign commerce, for the encouragement of

the shipping interests of the Atlantic, Gulf and Pacific states as well as for the payment of the maturing public debt. This policy will give employment to our labor, activity to our various industries increased security to our country, promote trade, open new and direct markets for our products and cheap-n the cost of transportation. We affirm this to be far better for our country than the democratic policy of loaning the government's money without interest to "pet banks." FOREIGN RELATIONS.

The conduct of foreign affairs by the present administration has been distinguished by inefficiency and cowardice. Having withdrawn from the senate all pending treaties effected by republican administrations for the removal of foreign burdens and restrictions upon our commerce and for its extension into a better commerce and for its extension into a better market it has neither affected nor proposed any others in their stead. Professing adher-ence to the Monroe doctrice, it has seen with idle complacency the extension of foreign in fluence in Central America and of foreign trade everywhere among our neighbors. It has refused to charter sanction or encourage an American organization for constructing th Nicaragua canal, a work of vtal importance to the maintenance of the Monroe doctrine and of our national influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the further coasts of the

PISHERIES QUESTION. We arraign the present democratic adminis tration for its weak and unpatriotic treatment of the lisheries question, and its pu-illanimous surrender of all privileges to which our fishery vessels are entilled in Canadian ports unde the treaty of 1818, the reciprocate marin line legislation of 1830 and comity of nations and which Canadian fishing vessels receive I the ports of the United States. We condem

CIVIL SEASON ERFOORM. The men who alcandoned the republican pays in 1884 and continue to adhere to the demoratic party bave descried not only the cause france party have descreted no only the cates of housest government, but of sound finance, o freedom and purity of the ballot, but espec-tally have descrited the cause of reform in the civil service. We will not full to keep our piedges because they have broken thems, a pledges because they have broken liners, or because their candidate has broken his. We therefore repeat our declaration of Issi, towlt. The reform of civil service anspicionsly begun under republican administration should be completed by a further extension of the reform system already established by law to all grades of the service of which it is applied. The spirit alld purpose of reform should be observed in all executive applications, and all laws at varience with the object of existing reform is guishing should be repeated, and that the dangers to free institutions which lark in the power of official parronage may be wheely and effectively avoided.

The gratitude of the nation to the defenders

The gratitude of the nation to the defenders of the mion cannot be assured except by laws. The legislation of congress should conform to the pledges made by a loyal people, and be so enlarged and extended as to provide against this possibility that any man who honorably work the federal eniform shall become an inmale df an alpahouse or dependent on private charity. In the preferre of an overdowing treasury it would be a public egingla to do less for those whose valorous service preserved the government. We denounce the hostile spirit shown by President Cleveland in his numerous veloes of measures for pension relief, and the action of the democratic house of representatives in refusing even consideration of general The gratitude of the nation to the defenders ives in refusing even consideration of general ension legislation.

In support of the principles herewith enun-einted, we invite the co-operation of patriotic men of all parties, especially of all working in a prime prosperity is seriously threatened by the free trade polity of the present admin-sistration.
