NATIONAL REPUBLICAN TICKET.

FOR PRESIDENT,
BENJAMIN HARRISON,
of Indiana.

FOR VICE PRESIDENT,
LEVI P. MORTON,
of New York.

They are gathering from the hill tops;
They are gathering from the plain.
They are gathering as they would have rallied around the MAN from Maine.

HAVE you noticed the crowds that are persistently calling Genl. Harrison to the front door?

THE coal miner from Indiana hit the nail on the head, when he said: "Free "trade will bring us low wages and a bad "smell in the butter."

ONE would surely think Mr. Cleveland was running in Great Britain did they not know the voting was all done on this side the great pond.

THE New York *Tribune's* "99" "England's only choice" is a revalation that is agitating democratic circles in a way that is interesting to behold.

WHEN the American people raise their hats to the first man of this continent in New York harbor we immagine the great Bartholdi's monument will wave the old flag with her extended arm in acknol edgement to the sentiment that American industries are to be protected for American workingmen and that he who comes like a conquering hero will be their chiefest champion. Welcome Mr. Blaine.

WHEN Mr. Mills was cornered in the house debate and compeled to admit that the dark lantern bill was changed to suit Havenryer and his sugar trust and that Havernyer was consulted by the committee, the northern doughface democracy, as represented in congress, made no protest. The inexhorable caucas machine bound them hand and foot and its ligaments of steel will only be broken, when the people next Noyember set the mis-representatives free by refusing to return them. Down with the doughface, we say!

"REVENUE reformers" are not for free trade, Oh, No! They want protection enough, and only so much, as will furnish enough revenue to pay the running expenses of the government. They are against the principle of protection. Mr. Cleveland in his surplus message condemns the principles of protection and calls it iniquitous. This message is made a part of the democratic platform; yet, Mr. Cleveland and the politicans of his party, in the presence of an arroused people, are denying, like Peter of old. Revenue reform" unfortunately means free trade and the people know it.

THE following figures should be of some interest to Hon. R. Q. Mills. They are taken from the *Texas Live Stock Journal*. They show the prices of Texas wool in 1881 and 1888, and the amount which this wool would bring now if the Mills bill were law and wool placed on the free list:

	Free Wool.	1888.	1881.
Western Texas.....	6c	12½c	19c
Choice eight months....	7½c	16c	22c
Choice twelve months..	8c	17c	25c

In 1881, two years before the duty on wool was lowered to present rates, that product brought about 50 per cent more in the market than it does now. If the house bill should be enacted the price of wool would drop to about half present rates, and thousands of wool-growers in Texas and other states would be impoverished. The most sensible thing for Roger to do under the circumstances would be to use all his eloquence and persuasiveness to get the senate to defeat the Mills bill.—Globe Dem.

THE high smelling record of Grover Cleveland's administration fills four full pages of the New York *Tribune* and as a fateful accident was issued the same day Mr. Cleveland's last civil service message was pomulgated as an electioneering document. The refuse was hightened by the sickly, cowardly, dishonest message. All the presidents, since the days of Jackson, put together, have not appointed as many rascals to office. The *Tribune* gives the names and characters of the rotten crew with the newspaper exposes, dates and numbers—which is largely democratic authority. This exposure has paralyzed the mugwump newspapers of New York, who are dumb in its presence. The panorama of frauds is a general rogues gallery and is said to upset the president more completly than anything that has happened during his administration; it cannot be answered, it cannot be explained; like the mackeral it shines and stinks, and stinks and shines.

Slave to the Quinine Habit.

A tall, fine looking woman, dressed in the latest fashion, entered an uptown drug store the other evening, and, approaching the counter, leaned wearily against it. The clerk, who was waiting on another customer, reached to a shelf, and taking down a little box shook three pills into a bit of paper. He passed them to the fashionable lady and gave her a glass of mineral water. After putting the pills in her mouth the lady drank the water, and with a sigh of relief hurried from the shop. Not a word passed between either customer or clerk, and no money was paid for the pills.

"Well, that beats me," exclaimed a visitor.

"It is rather singular," said the clerk, smiling, "but such things happen here every day. That customer is well known in the social world. She has got the quinine habit, which will kill her in the end. There is too much of this quinine business going on, but we have to keep up with the times. That lady exhausted herself in social and charitable visits, and then began to take a five grain pill of quinine to brace up on. She did it by the advice of a friend. From five grains every evening she advanced to fifteen, and soon she will want twenty. She likes to feel cheerful and look well when she goes out with her husband, and, having become a slave to quinine, she takes it as a stimulant, but her husband is ignorant of the habit. She pays us $1.50 per week, and we keep the pills here for her. It is far worse than drinking alcoholic liquor, and we frequently advise our quinine patients to brace up on whisky or brandy, and let quinine alone."—New York Telegram.

Intelligence of Driver Ants.

Driver ants not only build boats, but launch them, too; only these boats are formed of their own bodies. They are called "drivers" because of their ferocity. Nothing can stand before the attacks of these little creatures. Large pythons have been killed by them in a single night, while chickens, lizards and other animals in western Africa flee from them in terror. To protect themselves from the heat they erect arches under which numerous armies of them pass in safety. Sometimes the arch is made of grass and earth and gummed together by some secretion, and again it is formed by the bodies of the larger ants, which hold themselves together by their strong nippers while the workers pass under them.

At certain times of the year freshets overflow the country inhabited by the drivers, and it is then that these ants go to sea. The rain comes suddenly, and the walls of their houses are broken in by the flood, but, instead of coming to the surface in scattered hundreds and being swept off to destruction, out of the ruin rises a black ball that rides safely on the water and drifts away. At the first warning of danger the little creatures rush together and form a solid body of ants, the weaker in the center. Often the ball is larger than a common base ball, and in this way they float about until they lodge against some tree, upon the branches of which they are soon safe and sound.—St. Nicholas.

The Penny Slot Machine.

There have been a good many variations on the drop a nickel in the slot business since it began. I am told that the drop a penny in the slot machine is quite as profitable as, if not even more so, than the more expensive device. Each trial of it yields to the owner only a fifth of what a nickel machine does, but many people who would not throw a nickel do not hesitate to experiment with a cent or two, and often men will empty their pockets of coppers at the machine. An electrical battery is one of the latest of these machines. You drop your cent, take hold of the two handles and pull them out of the stand till you get as strong a shock as you want. You regulate the current yourself, and if you can stand a dollar's worth of it, I suppose, get it for your single copper. Every now and then I meet one or another of the collectors employed by the owners of these machines, with canvas sacks full of hard cash gathered from them. The money drops through the slot into the sack, I believe, and the collector, when he makes his rounds, exchanges an empty sack at each machine for the full one which he carries off with him.—Alfred Trumble in New York News.

A Warning.

The modes of death's approach are various, and statistics show conclusively that more persons die from disease of the throat and lungs than any other. It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now, all this is dangerous and if allowed to continue will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may loose you your life. As soon as you feel that something is wrong with your throat, lungs or nostrils, obtain a bottle of Boschee's German Syrup. It will give you immediate relief.

REPUBLICAN PLATFORM.

The republicans of the United States, assembled by their deligates in national convention, pause on the threshold of their proceedings to honor the memory of their first great leader and immortal champion of liberty and the rights of the people, Abraham Lincoln, and to cover also with wreaths of imperishable remembrance and gratitude the heroic names of our later leaders who have been more recently called away from our councils, Grant, Garfield, Arthur, Logan and Conkling. May their memories be faithfully cherished. We also recall with our greetings and prayer for his recovery the name of one of our living heroes whose memory will be treasured in the history both of republicans and of the republic. The name is that of the noble soldier and favorite child of victory, Philip H. Sheridan.

In the spirit of those great leaders and of our devotion to human liberty, and with that hostility to all forms of despotism and oppression which is the fundamental idea of the republican party, we send fraternal congratulations to our fellow Americans of Brazil upon their great act of emancipation which completed the abolition of slavery throughout the two American continents. We earnestly hope we may soon congratulate our fellow citizens of Irish birth upon the peaceful recovery of home rule for Ireland.

WE AFFIRM OUR UNSWERVING DEVOTION to the national constitution and to the indissoluble union of states to the autoomy reserved to the states under the constitution, to the personal rights and liberties of citizens in all states and territories in the union and especially to the supreme and sovereign right of every citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in the public elections and to have that ballot duly counted. We hold a free and honest popular ballot and just and equal representation of all people to be the foundation of our republican government and demand effective legislation to secure the integrity and purity of elections which are the fountains of all public authority. We charge that the present administration and the democratic majority in congress owe their existence to the suppression of the ballot by the criminal nullification of the constitution and laws of the United States,

We are uncompromisingly in favor of the American system of protection. We protest against the destruction proposed by the president and his party. They serve the interests of Europe

WE WILL SUPPORT INTERESTS OF AMERICA. We accept the issue, and confidently appeal to the people for their judgment. The protective system must be maintained. Its abandonment has always been followed by general disaster to all interests except those of the usurer and sheriff.

We denounce the Mills' bill as destructive to general business, labor, and the farming interests of the country, and we heartily endorse the consistent and patriotic action of the republican representatives in congress in opposing its passage. We condemn the proposition of the democratic party to place wool on the free list and insist that the duties thereon shall be adjusted and maintained so as to furnish full and adequate protection to that industry.

The republican party would effect all needed reduction of the national revenue by repealing the taxes on tobacco, which are an arrogance and burden to agriculture, and the tax upon spirits used in the arts and for mechanical purposes, and by such revision of the tariff laws as will tend to check imports of such articles as are produced by our people, the production of which gives employment to our labor, and release from import duties these articles of foreign production, except luxuries, the like of which cannot be produced at home, there shall still remain a larger revenue than is requisite for the wants of government, of internal taxes rather than surrender any part of our protective system at the joint behest of the whisky ring and agents of foreign manufacturers.

AGAINST PAUPER AND LABOR TRUSTS.

We declare hostility to the introduction into this country of foreign contract labor and of Chinese labor alien to our civilization and our constitution, and we demand the rigid enforcement of existing laws against it and favor such immediate legislation as will exclude such labor from our shores.

We declare our opposition to all combinations of capital organized in trusts or otherwise to control arbitrarily the condition of trade among our citizens and we recommend to congress and the state legislatures in their respective jurisdictions such legislation as will prevent the execution of all schemes to oppress the people by undue charges on their supplies or by unjust rates for the transportation of their products to market.

We approve legislation by congress to prevent alike unjust burdens and unfair discrimination between states.

PUBLIC LAND LEGISLATION.

We reaffirm the policy of appropriating the public lands of the United States to be homesteads for American citizens and settlers not aliens, which the republican party established in 1862 against the persistent opposition of the democrats in congress, which has brought our great western domain into magnificent development. The restoration of unearned land grants to the public domain for the use of actual settlers, which was begun under the administration of President Arthur should be continued. We deny that the democratic party has ever restored one acre to the people, but declare that by the joint action of republicans and democrats about fifty million acres of unearned lands, originally granted for the construction of railroads, have been restored to the public domain in pursuance of conditions inserted by the republican party in the original grants. We charge the democratic administration with failure to execute laws securing to settlers title to their homesteads and with using appropriations made for that purpose to harrass innocent settlers with spies and prosecutions under the false pretense of exposing frauds and vindicating the law.

ADMISSION OF TERRITORIES.

The government by congress of the territories is based upon necessity only to the end that they may become states in the union; therefore, whenever the conditions of population, material resources, public intelligence and morality are such as to insure stable local government therein the people of such territories should be permitted, a right inherent in them, to form for themselves constitutions and state governments and be admitted into the union. Pending preparation for statehood all officers thereof should be selected from bona fide residents and citizens of the territory wherein they are to serve. South Dakota should of right be immediately admitted as a state in the union under the constitution framed and adopted by her people and we heartily endorse the action of the republican senate in twice passing bills for her admission. The refusal of the democratic house of representatives, for partisan purposes, to favorably consider these bills is a willful violation of the sacred American principle of local self-government, and merits the condemnation of all just men. The pending bills in the senate for acts to enable the people of Wishington, North Dakota and Montanna territories to form constitutions and establish state governments should be passed without unnecessary delay. The republican party pledges itself to do all in its power to facilitate the admission of the territories of New Mexico, Wyoming, Idaho and Arizona to the enjoyment of self-government as states. Such of them as are now qualified as soon as possible, and others as soon as they may become so.

THE MORMON QUESTION.

The political power of the Mormon church in the territories as exercised in the past is a menance to free institutions too dangerous to be long suffered. Therefore we pledge the republican party to appropriate legislation, asserting the sovereignty of the nation in all the territories where the same is questioned, and in furtherance of that end to place upon the statute book legislation stringent enough to divorce political from ecclesiastical power, and thus stamp out the attendant wickedness of polygamy.

The republican party is in favor of the use of both gold and silver as money, and condemns the policy of the democratic administration in its efforts to demonetize silver.

We demand the reduction of letter postage to 1 cent per ounce.

In a republic like ours, where the citizens is the sovereign and the official the servant where no power is exercised except by the will of the people, it is important that the sovereign people should possess intelligence. The free school is the promoter of that intelligence which is the prerequisite to a free nation. Therefore, the state or nation, or both conbined, should support free institutions of learning sufficient to afford to every child growing up in the land the opportunity of a good common-school education.

OUR MERCHANT MARINE,

We earnestly recommend that prompt action be taken in congress in the enactment of such legislation as will best secure the rebabilitation of our American merchant marine, and we protest against the passage by congress of a free ship bill as calculated to work injustice to labor by lessening the wages of those engaged in preparing materials as well as those directly employed in our shipyards. We demand appropriations for the early rebuilding of our navy, for the construction of coast fortifications and modern ordinance and other approved modern means of defense for the protection of our defenseless harbors and cities, for the payment of just pensions to our soldiers, for necessary works of national importance in the improvement of the harbors and channels of internal, coastwiser and foreign commerce, for the encouragement of the shipping interests of the Atlantic, Gulf and Pacific states as well as for the payment of the maturing public debt. This policy will give employment to our labor, activity to our various industries, increased security to our country, promote trade, open new and direct markets for our products and cheapen the cost of transportation. We affirm this to be far better for our country than the democratic policy of loaning the government's money without interest to "pet banks."

FOREIGN RELATIONS.

The conduct of foreign affairs by the present administration has been distinguished by inefficiency and cowardice. Having withdrawn from the senate all pending treaties effected by republican administrations for the removal of foreign burdens and restrictions upon our commerce and for its extension into a better market it has neither affected nor proposed any others in their stead. Professing adherence to the Monroe doctrine, it has seen with idle complaceney the extension of foreign influence in Central America and of foreign trade everywhere among our neighbors. It has refused to charter, sanction or encourage any American organizytion for constructing the Nicaragua canal, a work of vital importance to the maintenance of the Monroe doctrine and of our national influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the further coasts of the Pacific Ocean.

FISHERIES QUESTION.

We arraign the present democratic administration for its weak and unpatriotic treatment of the fisheries question, and its pusillanimous surrender of all privileges to which our fishery vessels are entitled in Canadian ports under the treaty of 1818, the reciprocate maritime legislation of 1830 and comity of nations, and which Canadian fishing vessels receive in the ports of the United States. We condemn the policy of the present administration and the democratic majority in congress towards our fisheries as unfriendly and conspiciously unpatriotic and as tending to destroy a valuable national industry and an indispensible resource of defense against foreign enemy.

The name of American applies alike to all citizens of the republic, and imposes upon men alike the same obligation of obedience to the laws. At the same time citizenship is and must be the panoply and safeguard of him who wears it, should shield and protect him whether high or low, rich or poor, in all his civil rights. It should and must afford him protection at home and follow and protect him abroad in whatever land he may be on a lawful errand.

CIVIL SERVICE REFORM.

The men who abandoned the republican party in 1884 and continue to adhere to the democratic party have deserted not only the cause of honest government, but of sound finance, of freedom and purity of the ballot, but especially have deserted the cause of reform in the civil service. We will not fail to keep our pledges because they have broken theirs, or because their candidate has broken his. We therefore repeat our declaration of 1884, towit: The reform of civil service auspiciously begun under republican administration should be completed by a further extension of the reform system already established by law to all grades of the service to which it is applied. The spirit and purpose of reform should be observed in all executive appointments, and all laws at varience with the object of existing reform legislation should be repealed, and that the dangers to free institutions which lurk in the power of offeral patronage may be wisely and effectively avoided.

The gratitude of the nation to the defenders of the union cannot be assured except by laws. The legislation of congress should conform to the pledges made by a loyal people, and be so enlarged and extended as to provide against the possibility that any man who honorably wore the federal uniform shall become an inmate of an almshouse or dependent on private charity. In the presence of an overflowing treasury it would be a public scandal to do less for those whose valorous service preserved the government. We denounce the hostile spirit shown by President Cleveland in his numerous vetoes of measures for pension relief, and the action of the democratic house of representatives in refusing even consideration of general pension legislation.

In support of the principles herewith enunciated, we invite the co-operation of patriotic men of all parties, especially of all working men whose prosperity is seriously threatened by the free trade policy of the present administration.
