A large crowd attended the Episcopal church last evening to witness the installation of sixteen members in the St. Andrews' Brotherhood, by Rev. H. B. Burgess. There are thirty-two members in the society of this city, but the other members did not put in an appearance. The brotherhood is under the supervision of the Episcopal church, and it is said to be benedictory to the church. It is becoming very popular throughout the country.
A young man from this burg who was evidently short of the necessary finances to smoothly navigate yesterday, but who could not condescend to recede from his usual high life ambition, walked into one of the large hotels of the city of Bluffs and consulted the clerk to ascertain what liabilities he was liable to come in contact with should he take dinner at their house. "Fifty cents," said the clerk. The young man set his fertile brain to work and shortly he raised his head and in a much subdued tone requested the clerk to pass him in for half price as he was a very moderate eater. We are sorry to say the clerk looked at him by a rather sarcastic glance and replied: "We could not afford to let you in there for a dollar."

Council Bluffs vs. Plattsmouth.
Yesterday morning about fifty people from here accompanied the base ball team to Council Bluffs, the required number being secured to reduce the rate. The Council Bluffs team met them on the Lake Manaiwa ball ground, where promptly at 3:30 the game was called.
About five hundred people were present and witnessed the game. The Plattsmouth team was apparently far from being in as good a condition as usual and the Bluffs team was not obliged to exert themselves to win. The battery for our team did good work with the exception of allowing as many base steals. Their field did very poor work. The score would have been considerably reduced had they not made a fool play by letting in three men who could easily have been shut out.
The officious manager of the Bluffs team disgusted many of the spectators and fatigued the players by his authoritative gibberish. Such a bull-headed fanatic, as a manager of a base ball team, exhibits very poor judgment on the part of the team as they will surely be obliged to put up for his funeral expenses should he be allowed to accompany them very far from home.
The umpire received considerable credit from both teams for his good judgment.
The Plattsmouth club left their opponents in the batting record, but owing to the good fielding of the other side, it availed them but little. It is reported that two or three imported players assisted the Bluffs team.
As some of the home team were in a poor condition, they cannot receive the full blame for their loss.
The following is the score by innings:
Council Bluffs... 0 0 1 0 1 3 1 — 8
Plattsmouth... 0 2 0 0 0 0 0 — 2
Base hits—Plattsmouth 6; Council Bluffs 4.
Errors—Plattsmouth 14; Council Bluffs 6.
Batteries for Plattsmouth, James and Sam Patterson; for Council Bluffs, Stevenson and Strock.
Umpire, M. B. Brown.

Having this day sold my stock of Hardware, Stoves, Tinware, etc., to Messrs. Brekenfeld & Weidman, I would respectfully and earnestly ask that all those in my debt come forward promptly and settle their accounts; as it will be necessary for me to close up my business as speedily as possible before engaging in other pursuits. I also take this occasion to thank the public, both in the city and county, for the very liberal patronage given me during the time I have been engaged in business here, and hope the same will be extended to my successors.

A Narrow Escape.

Mrs. Walter Young, who resides on west Main street, narrowly escaped a horrible death last evening by the dangerous fuel, gasoline. The gasoline in the stove was about exhausted and before she was about to refill the tank she turned the flame low enough to extinguish it as she thought. She went down cellar and returned with a crock full of the fluid and as she leaned against the stove to pour the oil into the tank, spilled a small quantity which was caught up by the flame.
She did not discover that her apron was afire until she felt the heat from the blaze which got a good start on her clothing. In her excitement and attempt to put out the fire she dropped the jug which she held, and it fell to the floor and broke, letting the oil run, which soon caught, and in an instant the whole room was filled with a blaze.
She immediately ran outside and attracted the attention of her husband and his brother who were near at hand. Mr. Ed Young in attempting to stop the fire on her clothing knocked her down. While in that position Mr. McDonald, who was near by, tore up a piece of carpet from one of the rooms and wrapped it around her, smothering the blaze.
Mr. J. C. Coffman, a neighbor, succeeded in stopping the fire in the room by the aid of some carpet which he tore from the floor.
Her limbs were badly burned and she was also badly burned about the body. It is not yet known whether she will recover.

No Excuse For Him.

Leader of lynching party: "Now, young man, make a full confession, or up you go."
Prisoner: "I was fooling with a gun. I pointed it at my brother, and—"
"You didn't know it was loaded?"
"No."
"Men, pull on the rope and let him swing."—Lincoln Journal.

Struck by Lightning.

Mr. H. M. Gault, jeweler, who was possessor of a fine stallion valued at \$3,000 was informed this morning that the horse and a cow which he kept on his farm about five miles northwest of the city were struck by lightning and killed last night.

The use of cocaine is steadily increasing in the practice of medicine in this country. It is the most dangerous drug and one of the most useful in the hands of our practitioners. You hear people abusing cocaine, and talking about the lives it has wrecked—and every scientific man must admit that the cocaine habit is about the worst thing a man or woman could get; but you don't so often hear the things that are on the credit side of the ledger. Cocaine has made the surgery of the eye and the larynx very much easier. It is, as you know, a local anesthetic. Much of the most delicate surgical work would be very difficult without it, and in spite of the failure which several doctors have made, I believe it may be used with magical effect in cases of melancholia.

The trouble is that we do not know how to use cocaine as yet. It is a new discovery not ten years old. We have not had time to study it, you see. The cocaine habit is formed as easily, more easily than the habit of drink, and once it takes hold of a man he is a goner. It saps all his will power and makes him first a slave and then a maniac. But for all that the drug will be a blessing to men when we understand it rightly, as we will twenty years from now. I think it will be classed among important medicines with quinine and chloroform.—Chicago News
