#### NATIONAL REPUBLICAN TICKET.

FOR PRESIDENT, BENJAMIN HARRISON. of Indiana. FOR VICE PRESIDENT, LEVI P. MORTON,

of New York.

To understand the disgusting and trif ling disposition of Mr. Cleveland to keep himself before the country as a reformer in vetoing small measures, we have but to examine the small bore vetoes one by one as they are laid before congress. The other day this masquerader thought to exhibit himself by vetoing a resolution providing for the reissuing of a map. which was to cost not more than \$1.35 With all the poinp and ceremony of first-class demagogue he proceeded to inform congress that the map of 1877 was about to be issued and would be "later "more correct and more valuable in" "every way and cheaper than that issued" "the previous year," also that congress was paying too much for it. Whereup on Senator Manderson exposed his ignorance, stupidity and canting demogogury by showing that the only difference in democratic party towards themselves. the maps was the single item of the date, 1887 instead of 1886, and that the resolution did not require the sum of \$1.35 to be expended as the cost of the maps but that they were not to cost more than that sum. While permitting a \$20,000,000, Republican" Campaign Song Book, conriver and harbor measure to become a law witout daring to sign or vetoe this for male quartette, with words and music beautiful specimen of a demogogue is wasting his time on such matters as this map resolution and \$2 a month widows pensions. There was not a single democratic senator found, who would open his mouth to even apologize for the pretender in the White house. himself a star of the smallest magnitude. Aver's Pills. to an article still less discernable in argument, like the average free trader, starts at a point as far distant from this continent as geography and history will permit and keeps still further from the truth in every flippant assertion he makes. It is a vapory, airy "I told you so" kind of a boastful display of democratic ignorance. Howling about trusts, yet, unmindful of the fact that trusts and heads of trusts have complete possession of the party to which he belongs. A gang of railroad millionairs composing the democratic national committee. The head of the great sugar trust buying off the democratic portion of the ways and means committee in the interest of protection for sugar, and brazenly paying \$10,000 to the Cleveland fund in one cheque. Slurring the old soldiers and their widows and boasting of the president as "a faithful bank cashier" vetoing pension bills of a few paltry dollars, yet ignorant of his dishonest cowardice in permitting a twenty odd million river and harbor bill to become a law, not daring to veto it and too cowardly to sign it and at the same time charging that the republicans are responsible for river and harbor steals. when President Arthur, Mr. Cleveland's immediate predecessor, yetoed an eighteen million dollar bill of the same character. The evident ignorance of the democratic party's history or the utter disregard for the truth, is the main fea ture of the windy performance of Little Star.

The Plattsmouth Daily Heraid. sugar raised in the south shall be protected, I will see how it seems to vote for a republican."

A. H. Porter, a civil engineer, said: "I voted for Cleveland, but will vote against him this time."

Wm. H. Wright, a jeweller, of Ostego, said: "That speech convinces me that I ought not to vote again for Cleveland. The Mills bill will injure the farmers in my county, and any injury to them will injure us all."

The meeting closed with a vote of thanks to the speaker and three rousing cheers for Harrison and Morton.

FOR THE CROWN OF THE DEM-

OCRATIC HAT. While the party of retroactive ideas is bellowing about the workingman and the "robber tax," they are careful not to mention the way the labor interests of the country was treated by the dark lantern committee in framing the solid south Mills bill. During the long midnight hours while that section of the ways and means committee were preparing that celebrated measure, no representatives of the labor organizations of the country were permitted an audience with the committee. No advice was sought or permitted from any labor source. A hearing was grant-

ed to the monopoly interests. The biggest trust in the country was granted an audience and listened to. The New York Sun asserts that the dark lantern com mittee sold the democratic party, pants, boots and saddle-bags to the sugar trust. Havemeyer, the head of that trust, has contributed \$10,000, already, as a starter towards Mr. Cleveland's re-election. This is a part only of the boodle which the democratic party exacted from the prize boodler, who aided Smith M. Weed's attempt to purchase the South Carolina electors for Tilden in 1876. The workingmen who are pasting items in their hats, should save the rank record of the

WE AFFIRM OUR UNSWERVING DEVOTION to the national constitution and to the indis-soluble union of states to the autoonmy re-served to the states under the constitution, to the personal rights and libertles of citizens in all states and territories in the union and es-pecially to the supreme and sovereign right of every citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in born, white or black, to cast one free ballot in the public elections and to have that ballot duly counted. We hold a free and honest pop-ular ballot and just and equal representation of all people to be the foundation of our re-publican government and demand effective legislation to secure the integrity and purity of elections which are the fountains of all pub-lic authority. We charge that the present ad-ministration and the democratic majority in congress owe their existence to the suppression of the ballot by the criminal nullification of the constitution and laws of the United States. We are uncrompromisingly in favor of the American system of protection. We protest against the destruction proposed by the interests of Europe

of Enrope

we accept the issue, and confidently appeal to the people for their judgment. The protective system must be maintained. Its abandonment has always been followed by general disaster to all interests except those of the unsurer and sheriff.

We denounce the Mills' bill as destructive to general business, labor, and the farming inter-ests of the country, and we heartily endorse the consistent and patriotic action of the republican representatives in congress in oppos-ing its passage. We condemn the proposition of the democratic party to place wool on the free list and insist that the duties thereon shall be adjusted and maintained so as to fur-nish full and adequate protection to that in-

FOREIGN RELATIONS. The conduct of foreign affairs by the present administration has been distinguished by inef-ficiency and cowardice. Having withdrawn from the senate all pending treaties effected by republican administrations for the removal of foreign burdens and restrictions upon our commerce and for its extension into a better market 'it has neither affected nor proposed any others in their stead. Professing adher-ence to the Monroe doctrine, it has seen with idle complacency the extension of foreign in-fluence in Central America and of foreign trade everywhere among our neighbors. It has re-

fluence in Central America and of foreign trade everywhere among our neighbors. It has re-fused to charter, sanction or encourage any American organizytion for constructing the Nicaragua canal, a work of vtal importance to the maintenance of the Monroe doctrine and of our national influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the further coasts of the Pacific Ocean. Pacific Ocean. FISHERIES QUESTION We arraign the present democratic adminis-tration for its weak and unpatricitic treatment of the fisherics question, and its pusillanimous surrender of all privileges to which our fishery vessels are entitled in Canadian ports under the treaty of 1818, the reciprocate marin-tine legislation of 1850 and comity of nations, and which Canadian Behlmeurschle receive h

tine treaty of 1818, the reciprocate mann-tine legislation of 1850 and comity of nations, and which Canadian fishing vessels receive in the ports of the United States. We condemn the relicy of the present administration and the democratic majority in congress towards our fisheries as unfriendly and conspiciously unpatriotic and as tending to destroy a valuable national industry and an indispensible resource of defense against foreign enemy. The name of Americ couplies alike to all cilizens of the rectaint, and imposes upon men alibre the same time cilizenship is and must be the panoply and safeguard of him who wears it, should shield and protect him whether high or low, rich or poor, in all his civil rights. It should and must afford him protection at home and follow and protect him abroad in whatever land he may be on a lawful errand.

CIVIL SERVICE REFORM.

WE WILL SUPPORT INTERFSTS OF AMERICA.

The men who abandoned the republican par-ty in 1884 and continue to adhere to the demo-cratic party have deserted not only the cause of honest government, but of sound finance, of freedom and purity of the ballot, but espec-ially have deserted the cause of reform in the pledges because they have broken theirs, or because their candidate has broken his. We because their candidate has broken his. We therefore repeat our declaration of 1884, towit : The reform of civil service auspiciously begun under republican administration should be completed by a further extension of the reform system already established by law to all grades of the service to which it is applied. The spir-it and purpose of reform should be observed in all excertise appointments and all lows at

dustry. The republican party would effect all needed reduction of the national revenue by repealing all executive appointments, and all laws at variance with the object of existing reform leg-islation should be repealed, and that the dan-gers to free institutions which lurk in the pow-

the shipping interests of the Atlantic, Gulf and Pacific states as well as for the payment of the maturing public debt. This policy will give employment to our labor, activity to our various industries, increased security to our country, promote trade, open new and direct markets for our products and cheapen the cost of transportation. We affirm this to be far better for our country than the democratic policy of loaning the government's money without interest to "pet banks." STOVES, FURNITURE, FOREIGN RELATIONS.

#### HOW THEY DO IT IN NEW YORK.

BREWSTER'S, N. Y., Aug. 17 - A large and enthusiastic republican mass meeting was held here tonight. A. J. Miller, district attorney, presided, and introduced Congressman W. E. Mason, of Chicago, who had the close attention of the audience for an hour. The club membership known,-today it is as common as any is large and is actively at work. It was remarked by all that the several democats who were present took a lively interest in the proceedings. Mr. Mason's speech was purely a business discussion of the tariff. At the close of the meeting, seven men who had voted for Cleve- and all are caused by troubles that arise land were introduced to Mr. Mason, and stated that they would vote for Harrison. William M. There are no shadows where there is no sun; There is no beauty where there is no shade; And all things in two lines of glory run, Darkness and light, ebon and gold inlaid, God comes among us through the shrouds of air And Ilis dim track is like the silvery wake Left by yon pinnance on the mountain lake, Fadin;; and reappearing here and there.

#### An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unword in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is used with nervous diseases. as they and Malaria are intended to cover what our grandfathers called Biliousness, from a diseased condition of the Liver which in performing its functions finding off through the system causing nervous and milk shall go on the free list and the gust Flower. Its cures are marvelous.

We reaffirm the policy of appropriating the public lands of the United States to be homesteads for American citizens and settlers not aliens, which the republican party established in 1sc2 against the persistent opposition of the democrats in congress, which has brought our great western domain into magnificent de-velopement. The resteration of unearned land grants to the public domain for the use of ac-tual settlers, which was begun under the ad-ministration of President Arthur should be continued. We deny that the democratic party has ever restored one acre to the people, but declare that by the joint action of republicahs and democratis about fifty million acres of un-earned lands, originally granted for the consteads for American citizens and settlers not earned lands, originally granted for the con-struction of railroads, have been restored to struction of railroads, have been restored to the public domain in pursuance of conditions inserted by the republican party in the origin-al grants. We charge t e democratic adminis-tration with failure to execute laws seeming to settlers title to their homesteads and with us-ing appropriations made for that purpose to harrass innocent settlers with spice and prose-entions under the false pretense of exposing frauds and vindicating the law.

ADMISSION OF TERRITORIES,

The government by congress of the territoris is based upon necessity only to the end that they may become states in the union : there-fore, whenever the conditions of population, material resources, public intelligence and morality are such as to insure stable local government therein the people of such territories should be permitted, a right inherent in them, to form for themselves constitutions and state governments and be ad ritted into the union. Pending preparation for statehood all officers Pending preparation for statehood all officers thereof should be selected from bona fide residents and citizens of the territory wherein they are to serve. South Dakota should of right be immediately admitted as a state in the union under the constitution framed and adopted by her people, and we heartily en-dorse the action of the republican senate in twice passing bills for her admission. The re-fosal of the democratic house of representa-tives, or partisan pure sees, to favorably confasal of the democratic house of representa-tives, or partisan purpeses, to favorably con-sider these bills is a willful violation of the sacred American principle of local self-govern-ment, and merits the condemnation of all just men. The pending bills in the senate for acts to enable the veople of Wishington, North Dakota and Montanna territories to form con-stitutions and establish state governments should be passed without unneces ary delsy. The republican party pledges inself to do all in its power to facilitate the admission of the ter-ritories of New Mexico. Wyoming, Idaho and Arizona to the enjoyment of self-government as states. Such of them as are now qualified as soon as possible, and others as soon as they may become so. may become so.

#### THE MORMON QUESTION.

The political power of the Mormon church in the territories as exercised in the past is a menance to free institutions too dangerous to be long suffered. Therefore we pledge the re-publican party to appropriate legislation, asserting the sovereignty of the nation in all the territories where the same is questioned, and in furtherance of that end to place upon the statute book legislation stringent chough to divorce political from ecclesiastical power, and thus stamp out the attendant wickedness of polygamy. The republican party is in favor of the use of both gold and silver as money, and con-demns the policy of the democratic adminis-tration in its efforts to demonetize silver. We demand the reduction of letter postage to 1 c out per cunce. the territories as exercised in the past is

We demand the reduction of letter postage to 1 c nt per cunce. In a republic like ours, where the citizens is the sovereign and the offici+1 the servant, where no power is exercised except by the will of the people, it is important that the sover-eign reople should possess intelligence. The free school is the promoter of that intelligence which is to preserve us a free nation. There-fore, the state or nation, or both combined, should support free institutions of learning sufficient to sflord to every child growing up in the land the opportunity of a good common-school education. school education

#### OUR MERCHANT MARINE.

We earnestly recommend that prompt action be taken in corgress in the eractment of such ss, be taken in compression the construction of such legistration as will best secure the rebabilita-tion of our American merchant matine, and er we protest against the passage by congress of a free ship bill as calculated to work injustice to labor by lessening the wages of those en gaged in preparing materials as well as those directly employed in our shipyards. We de-mand appropriations for the early rebuilding of our navy, for the construction of coast approved modern means of defense for the protections and modern ordinance and other it soldiers, for the payment of just pensions to, our soldiers, for necessary works of national im-portance in the improvement of the harbors and channels of internal, coastwiser and forelign commerce, for the encouragement of

In the presence of an overflowing treasury it would be a public scandal to do less for those whose valorous service preserved the government. We denounce the hostile spirit shown by President Cleveland in his numerous vetoes of measures for pension relief, and the action of the democratic house of representa-tives in refusing even consideration of general pension legislation. In support of the principles herewith enun-elated, we invite the co-operation of patriotic men of all parties, especially of all working-men whose prosperity is seriously threatened by the free trade policy of the present admin-istration.
