GRANDPA THURMAN still has it in for a \$115,000,000 surplus in the Treasury. Saturday at Chicago the old gentleman affairs actually existed. The democratic on libel ? national committee ought to send some one with the old gentleman to steer him. He cannot call the turn as nimbly as when a supple young man or as rapidly as the exigencies of a democratic campaign sometimes requires.

HAD it not been for Mr. Frank E. White's democratic generosity the muchly advertised Wahoo excursion "rally would have went dead on the track and the enchanting eloquence of Mathew Gering, the young war horse of the Cass county democracy, would not have been permitted to warm up the welkin througut the green pastures of Saunders county. Such rallies are a little ox-pensive. However the HERALD was pleased to see the boys get off and we are sure they had a good time.

punctured Grover Cleveland's fishery retalliation message in a speech at Lewistown. Mr. Blaine stated he had not been able to see the full text of the message until that morning and he then proceeded to mercilessly show at the shallow to hire somebody to keep the jail for demogogury of the whole performance; three months just for this old man; so I showing how the president declined for gave him the jail key, and told him that showing how the president declined for a long period to enforce the law of 1887 against Canada and permitted outrages against our fishing vessels to go unpunished, while he resorted to the treaty making redress and offered the country a treaty largely surrendering American rights and that now that treaty having been rejected by a clear majority of the senate the president jumps clear over to the other extreme and asks larger powers of congress by which he may destrey the commercial relations which exists between America and Canada. After stat ing the case and exposing Mr. Cleveland's double dealing with the question Mr. Blaine interrogated his audience as follows:

Is it the design of the president to MAKE THE FISHING QUESTION ODIOUS by embarrassing commercial relations

and commercial exchange along 3,000 miles of frontier, and to inflict upon American communities a needless, a vexatious and a perilous confusion of trade. Or, after all, fellow citizens, is not the president's position a mere political device to divert the attention of the Amer-

ican people from his free trade message and from the Mills tariff bill? Is not bluster on the fisheries to be the plan of the campaign for the democratic party? Are not permits for brayodo to be issued by political agents of the administration, marked on the back, "Good till after the first Tuesday in November."

#### A DEMOCRTTIC LIE TO BE PAST-ED IN THE JOURNAL MAN'S HAT.

The Journal of this city published the campaign lie al out Mr. Levi P. Morton, which we full exposed in this community and also asked that paper to correct; yet, its editor did not have the manhood to do so. That sheet also stated a few days after publishing the Morton lie that, Mr. Ammidown, author of the article entitled "wool," in the North American Review for August, 1888 and who is engaged in the manufacture of woolen

his American workmen and imported his American workmen and imported Hungarins at lower wages, and that Mr. Ammidown was a fraud and a bad man generally. We had noticed the same campaign reputed before its publication in the Journal, but to show the people of this community just what "hog wash" they were getting from the Journal and other like mediums on the tariff question, we immediately addressed a note to the Rittenhouse M'F.G. Co., of which Mr. Ammidown is a stockholder, and enclosed the Journal's statement, to which we received the following reply:

The Rittenhouse M'F.G. Co., Passaic and Canal Sts.

Passaic, N. J., Aug. 21, 1888.

Aug. 15, I would say the published statement is absolutely false in every particular. The original story appeared in the N. Y. Herald, acknowledged to be the most sensational and unreliable paper in New York, and as such it was felt unnecessary to notice it. The original article did not accuse him (Ammidown) of importing Hungarians, but of employing them after they were imported by other mill people in Passaic. No Hungarians have ever been imported by any manufacturer here, and out of a total of 35,000 hands employed in the various mills, not over 10 per cent are Hungarians (Slaves, Poles and Austrians as well as Hungarians). These men receive the same wages

Soluble linio of states to the autoomny reserved to the states under the constitution, to the personal rights and liberties of citizens in all states and territories in the union and especially to the supreme and sovereign right of every citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in the public elections and to have that ballot duly counted. We hold a free and honest popular ablot and just and equal representation of all people to be the foundation of our republican government and demand effective legislation to secure the intensity of elections which are the foundation of our republican government and demand effective legislation to secure the foundation of our republicant government and demand effective legislation to secure the foundation of our republicant government and demand effective legislation to secure the foundation of our republicant government and demand effective legislation to secure the foundation of our republicant government and demand effective legislation to secure the foundation of our republicant government and demand effective legislation to secure the foundation of our republicant government and demand effective legislation to secure the foundation of our republicant government and demand effective legislation to secure the foundation.

Metallogue of the suprement and the demondation of th ment is absolutely false in every particuans.) These men receive the same wages as other nationalities similerially employed. For instance, in the weave room of this mill where work is paid by the piece, the best two weavers have been for sometime Hungarians, who earn about \$12 per week. Our work is weaving blankets, which is very plain and simple weaving. On 135 looms we have 35 who might be classed as Hungarians. The Hungarians wherever employed in mills here, are liked as being sober, industrious people and equal to any other nationality where equally instructed or acquainted with their work.

Very truly yours. RITTENHOUSE M'F'G. Co.

ELI B. GARDNER, agent. Will the Journal admit that it was wholly mistaken about Mr. Edward H. Ammidown, when it published the article his agent, Mr. Gardner, pronounces "absolutely false in every particular," or will was scolding away about this enormous that democratic Journal stand by the surplus, just as though such a state of falsehood as it does by the Levi P. Mort-

"Yes," replied the sheriff, hesitatingly -"yes, that's the man; but you-you see, judge, we-we haven't any one in jail now, and we thought it a useless expense if he'd sleep there at night it would be all right."-R. A. Marr, in Editor's Drawer of Harper's Magazine for September,

#### REPUBLICAN PLATFORM.

of Europe
WE WILL SUPPORT INTERESTS OF AMERICA. We accept the issue, and confidently appeal to the people for their judgment. The protective system must be maintained. Its abandonment has always been followed by general disaster to all interests except those of the unsurer

and sheriff.

We denounce the Mills' bill as destructive to general business, labor, and the farming interests of the country, and we heartily endorse the consistent and patriotic action of the republican representatives in congress in opposing its passage. We condemn the proposition of the democratic party to place wool on the free list and insist that the duties thereon shall be adjusted and maintained so as to furnish full and adequate protection to that incurtry.

reduction of the national revenue by repealing the taxes on tobacco, which are an arrogance and burden to agriculture, and the tax upon spirits used in the arts and for mechanical purposes, and by such revision of the tariff laws as will tend to check imports of such articles as will tend to check imports of such articles as are produced by our people, the production of which gives employment to our labor, and release from import duties these articles of foreign production, except luxuries, the like of which cannot be produced at home, there half still remain a larger revenue than is requisite for the wants of government, of internal taxes rather than surrender any part of our 1 rotective system at the joint behest of the whisky ring and agents of foreign manufacturers.

AGAINST PAUPER AND LABOR TRUSTS. We declare hostility to the it troduction into this country of foreign contract labor and of Chinese labor allen to our civilization and our constitution, and we demand the rigid enforce-

constitution, and we demand the rigid enforcement of existing laws against it and favor such immediate legislation as will exclude such labor from our shores.

We declare our opposition to all combinations of capital organized in trusts or otherwise to control arbitrarily the condition of trade among our citizens and we recommend to congress and the state legislatures in their respective jurisdictions such legislation as will prevent the execution of all schemes to oppress the peciple by undue charges on their supplies or by unjust rates for the transportation of their products to market.

We approve legislation by congress to prevent alike unjust burdens and unfair discrimination between states.

nation between states.

PUBLIC LAND LEGISLATION. We reaffirm the policy of appropriating the public lands of the Uhited States to be home-steads for American citizens and settlers not public lands of the United States to be homesteads for American citizens and settlers not aliens, which the republican party established in 1802 against the persistent opposition of the democrats in congress, which has brought our great western domain into magnificent developement. The restoration of uncarned land grants to the public domain for the use of actual settlers, which was begun under the administration of President Arthur should be continued. We deny that the democratic party has ever restored one acre to the people, but declare that by the joint action of republicahs and democrats about fifty million acres of unearned lands, originally granted for the construction of railroads, have been restored to the public domain in pursuance of conditions inserted by the republican party in the original grants. We charge the democratic administration with tailure to execute laws securing to settlers title to their homesteads and with using appropriations made for that purpose to harrass innocent settlers with spies and prosecutions under the false pretense of exposing frauds and vindicating the law.

ADMISSION OF TERRITORIES,

The government by congress of the territories is based upon necessity only to the end that they may become states in the union: therefore, whenever the conditions of population material resources, public intelligence and morality are such as to insure stable local government therein the people of such territories should be permitted, a right inherent in them, to forth for themselves constitutions and state governments and be advitted into the union. Pending preparation for statehood all officers thereof should be selected from pona fideresidents and citizens of the territory wherein they are to serve. South Dakota should of right be immediately admitted as a state in the union under the constitution framed and adopted by her people, and we heartily endorse the action of the republican senate in twice passing bills for her admission. The refusal of the democratic house of representatives, for partisan purpeses, to favorably consider these bills is a willful violation of the sacred American principle of local self-government, and merits the condemnation of all just men. The pending bills in the senate for acts to enable the neople of Wishington, North Dakota and Montanna territories to form constitutions and establish state governments should be passed without unneces ary delay. The republican party gledges inself to do all in its power to facilitate the admission of the territories of New Mexico, Wyoming, Idaho and Arizona to the enjoyment of self-government as states. Such of them as are now qualified as soon as possible, and others as soon as they may become so. ADMISSION OF TERRITORIES.

The political power of the Mormon church in the territories as exercised in the past is

THE MORMON OURSTION.

the territories as exercised in the past is a menance to free institutions too dangerous to be long suffered. Therefore we pedge the republican party to appropriate legislation, asserting the sovereignty of the nation in all the territories where the same is questioned, and in furtherance of that end to place upon the statute book legislation stringent enough to divorce political from ecclesiastical power, and thus stamp out the attendant wickedness of polygamy.

The republican party is in favor of the use of both gold and sliver as money, and condemns the policy of the democratic administration in its efforts to demonelize silver.

We demand the reduction of letter postage to 1 cent per ounce.

we demand the reduction of letter postage to 1 c at per ounce.

In a republic fike ours, where the citizens is the sovereign and the official the servant where no power is exercised except by the will of the people, it is important that the sovereign reople should possess intelligence. The free school is the promoter of that intelligence which is to preserve us a few nation. There which is to preserve us a free nation. Therefore, the state or nation, or both combined, should support free institutions of learning sufficient to afford to every child growing up in the land the opportunity of a good commonschool education.

## OUR MEECHANT MARINE,

We carnestly recommend that prompt action be taken in corgress in the coaciment of such legislation as will best secure the rebabilitation of our American merchant marine, and we protest against the passage by congress of a free ship bill as calculated to work injustice to labor by lessening the wages of those engaged in preparing materials as well as those directly employed in our shippards. We demand appropriations for the early rebuilding of our navy, for the construction of coast fortifications and modern ordinance and other approved modern means of defense for the protection of our defenseless harbors and cities, for the payment of just pensions to our soldiers, for necessary works of national importance in the improvement of the harbors and channels of internal, coastwiser and toreign commerce, for the encouragement of

the shipping interests of the Atlantic, Gulf and Pacific stales as well as for the payment of the maturing public debt. This policy will give employment to our labor, activity to our various industries, increased security to our country, promote trade, open new and direct markets for our products and cheapen the cost of transportation. We affirm this to be far better for our country than the democratic policy of loaning the government's money without interest to "pet banks."

FOREIGN RELATIONS.

The conduct of foreign affairs by the present administration has been distinguished by inefficiency and cowardice. Having withdrawn from the senate all pending treaties effected by republican administrations for the removal of foreign burdens and restrictions upon our commerce and for its extension into a better market, it has neither affected nor proposed any others in their stead. Professing adherence to the Monroe doctrine, it has seen with idle complacency the extension of foreign influence in Central America and of foreign trade everywhere among our neighbors. It has refused to charter, sanction or encourage any American organizytion for constructing the Nicaragua canal, a work of vtal importance to the maintenance of the Monroe doctrine and of our national influence in Central and South America, and necessary for the development of trade with our Pacific territory, with South America, and with the further coasts of the Pacific Ocean.

FISHERIES QUESTION.

We arraign the present democratic administration for its weak and unpatriotic treatment of the fisheries question, and its pusillanimous surrender of all privileges to which our fishery vessels are entitled in Canadian ports under the treaty of 1818, the reciprecate marintine legislation of 1830 and comity of nations, and which Canadian fishing vessels receive in the ports of the United States. We confirm the rolley of the present administration and the democratic majority in congress towards our fisheries as unfriendly and conspiciously unpairfolic and as tending to destroy a valuable national industry and an indispensible resource of defense against 6 reign enemy.

The name of American applies alike to all cilizens of the republic, and imposes upon men alike the same obligation of obedience to the laws. At the same time cilizenship is and must be the panoply and safeguard of him who wears it should which a direct to he has a storic of the republic to the laws. FISHERIES QUESTION.

be the panoply and safeguard of him who weats it, should shield ard protect him whether high or low, rich or poor, in all his civil rights. It should and must afford him protection at home and follow and protect him abroad in whatever land he may be on a lawful errand.

CIVIL SERVICE REFORM.

The men who abandoned the republican party in 1884 and continue to adhere to the democratic party have deserted not only the cause of honest government, but of sound finance, of freedom and purity of the baliot, but especially have deserted the cause of reform in the civil service. We will not fall to keep our pledges because they have broken theirs, or because their candidate has broken his. We therefore repeat our declaration of 1884, towit: The reform of civil service auspiciously begun under republican administration should be completed by a further extension of the reform system already established by law to all grades completed by a further extension of the reform system already established by law to all grades of the service to which it is applied. The spir-it and purpose of reform should be observed in all executive appointments, and all laws at varience with the object of existing reform leg-islation should be repealed, and that the dan-gers to free institutions which lurk in the pow-er of official rationage way be wisely an ef-

gers to free institutions which lark in the power of official 1 atronage may be wisely and effectively avoided.

The gratitude of the nation to the defenders of the union cannot be assured except by laws. The legislation of congress should conform to the pledges made by a loyal people, and be so enlarged and extended as to provide against the possibility that any man who honorably were the federal uniform shall become an inmate of an almshouse or dependent on 1 rivate charity. In the presence of an overflowing treasury it would be a public scandal to do less for those whose valcrous service preserved the government. We denounce the hostile spirit shown by President Cleveland in his numerous vetoes of measures for pension relief, and the action of the democratic house of representatives in refusing even consideration of general

action of the democratic house of representa-tives in refusing even consideration of general pension legislation.

In support of the principles herewith enun-ciated, we invite the co-operation of patriotic men of all parties, especially of all working men whose prosperity is seriously threatened by the free trade policy of the present admin-istration.

It is probable that everyone, without exception, receives vast numbers of Tubercle Germs into the system and where these germs fall upon suitable soil they start into life and develop, at first slowly and is shown by a slight tickling sensation in the throat and if allowed to continue their ravages they extend to the lungs producing Consumption and to the head, causing Catarrh. Now all this is dangerous and if allowed to continue will in time cause death. At the onset you must act with promptness; allowing a cold to go without attention is dangerous and may loose you your life.
