London's Browning Society. An American visitor to the last meeting of the Browning society of London writes to her friends in this country that she was both ceedings. While a lady was reading a paper before the society scant attention was shown took their seats noisily during the reading. The discussion, however, aroused the most vivid attention. It took a theological turn, and had a violent, ocntroversial character, in which there was no consideration for personal feelings,-Chicago Herald,

memory will be transured in the history both of republicans and of the republic. The name is that of the goble soldier and favorite child of victory, Phillp H. Sheridan. In the spirit of those great leaders and of our devotion to human liberty, and with that hos-tility to al forms of despotism and oppression which is the fundamental idea of the republi-can party, we send frate-mal congratulations to our fellow Americans of Brazil upon their great act of emancipation which completed the abolition of slavery throuhout the two American continents. We earnestly hope we may soon congratulate our fellow citizens of Irish birth upon the peaceful recovery of home rule for Ireland. WE AFFIRM OUR UNSWERVING DEVOTION the territories as exercised in the pumper to free institutions too dange the territories as exercised in the past is a menance to free institutions too dangerous to be long suffered. Therefore we pedge the re-publican party to appropriate legislation, asserting the sovereignty of the nation in all the territories where the same is questioned, and in jurtherance of that end to place upon the statute book legislation stringent enough to divorce political from eccleriastical power, and thus stamp out the attendant wickedness of polygamy. The republican party is in favor of the use of both gold and sliver as money, and con-demasthe policy of the democratic adminis-tration in its efforts to demonetize silver. Irish birth upon the peaceful recovery of home rule for Ireland. WE AFFIRM OUR UNSWERVING DEVOTION to the national constitution and to the indis-soluble union of states to the autoonmy re-served to the states under the constitution, to the personal rights and liberties of citizens in all states and territories in the union and es-pecially to the supreme and sovereign right of every citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in the public elections and to have that ballot duly counted. We hold a free and honest pop-ular ballot and just and equal representation of all people ts be the foundation of our re-publican government and demand effective legislation to secure the integrity and purity of elections which are the foundations of all pub-lic authority. We charge that the present ad-ministration and the democratic majority in congress owe their existence to the suppression of the ballot by the criminal nullification of the American system of protection. We protest against the destruction proposed by the presi dent and his party. They serve the interests of Europe We demand the reduction of letter postage to 1 c nt per sunce. In a republic like ours, where the citizens is the soverligh and the official the servant where no power is exercised except by the will of the people, it is important that the sover-eign recept should possess intelligence. The free school is the promoter of that intelligence which is to preserve us a free nation. There-fore, the state or nation, or both combined, should support free institutions of learning sufficient to afford to every child growing up in the land the concurring of a good common-

CIVIL SERVICE REFORM. The men who abandoned the republican parcratic party have deserted appointy the cause of harcal government, but of sound finance, of freedom and purity of the ballot, but espec-ially have deserted the cause of reform in the civil service. We will not fail to keep our pledges because they have broken theirs, or be ause their candidate has broken his. We be ause their candidate has broken his. We therefore repeat our declaration of itset, towit: The reform of civil service anspiciously begun under republican administration should be completed by a further extension of the reform system already established by law to all grades pitting service to the hit is applied. The spir-it and purpose of reform should be observed in all executive appointments, and all laws at varience with the object of extsting reform leg-islation should be repealed, and that the dan-gers to free institutions which lurk in the pow-er of offeen hatronage may be wisely and efer of offenal patronage may be wisely and ef-fectively avoided. The gratitude of the nation to the defenders of the union cannot be assured except by laws. The legislation of congress should conform to The legislation of congress should conform to the pledges made by a loyal people, and be so enlarged and extended as to provide against the possibility that any man who knows vely wore the federal uniform shall become an in-mare of an almshouse or dependent on private charity. In the presence of an overflowing treasury it would be a public scandal to do less for those whose valeroos service preserved the government. We denounce the hostile gibrit shown by President Cleveland in all informations velocity of measures for pension relief, and the action of the democratic house of representa-tives in refusing even consideration of general pension legislation. In support of the principles herewith enun-ciated we invite the co-operation of patriotic mea of all parties, especially of all working men whose prosperity is seriously threatened by the free trade policy of the present admin-istration.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown,-today it is as common as any tration for its weak and unpatriotic treatment of the fisheries question, and its pusillanimous surrender of all privileges to which our fishery vessels are entitled in Canadian ports under the treaty of 1818, the reciprocate marin-tine levislation of 1838 and commity of nations, and which Canadian fishing vessels receive in the ports of the United States. We conflement the relicy of the present administration and the democratic majority in congress towards our fisheries as unfriendly and conspiciously unpatriotic and as tending to destroy a valuable national industry and an indispensible resource of defence against f-reign enemy. The name of American applies alike to all cilizens of the republic, and imposes upon men alike the same obligation of obedience to the aws. At the same time of izenship is and must for its weak and unpatriotic treatment word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is used with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Bilionsness, and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it. off through the system causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreci-
