One year ago, today, the HERALD issued its first daily, under its present management. It was a venture made after due consideration of all the surroundings in our limited field at Plattsmouth. And it was made with the knowledge that we were to meet many annoying obstacles. Our neighbor the Journal protested that the field here at Plattsmouth was not large enough to support two, even small evening dailies and that the Journal having first entered the field, was entitled to occupy the same exclusively. We duly considered this ument and at the request of many of our subscribers, concluded to enter the home market and honorably compete for our share of its support. We have succeeded beyond our expecta tions. Our paper has grown; our list has steadily enlarged with staying sub scribers and although the year has been noted for local disturbances which has mauth; and, although the HERALD has effort. come in for its share of censure from those who disapproved its course in regard to these troubles, it has steadily followed the course it deemed honor- fully ignores the fact that the Mills bill able and correct upon principles, keeping, always, in view the welfare of our city to the extent of \$4,600,000 per year by and the largest good of the largest body of our citizens. It has cost us many regrets to differ with good friends upon questions of expediency; yet, there was

We have been blessed with a bountiful crop; we see in the faces of our farmers and merchants good cheer, caused by fair prices and fair prospects for the future. Our merchants have prospered and for a city of the secevery evening except Sunday ond class with a population of 8,000 and upwards the record shows less business matter. Office corner of Vine and ten years than any city in the state of Nebraska. Our public works are progressing satisfactorially; our system of sewerage and our paving for this year will soon be completed and Plattsmouth City will then in deed and in fact assume the airs and appearance of a first-class city. The HERALD rejoices at all this prosperity, shares it, promotes it, enjoys it, and promises its patrons during the coming year to strive only for the general good, knowing, full well, that in the building up of Plattsmouth and her bus iness interests lies the future prosperity and welfare of the HERALD, and on this our birthday we venture to congratulate ourselves and our many good friends upon the prosperous condition in which we find ourselves and our fair city.

We charge that the present adlie authority. We charge that the present ad-ministration and the democratic majority in congress owe their existence to the suppression of the ballot by the criminal nullification of the constitution and laws of the United States.

WE WILL SUPPORT INTERESTS OF AMERICA. We accept the issue, and confidently appeal to the people for their judgment. The protective system must be maintained. Its abandonment has always been followed by general dis ster to all interests except those of the unsurer

We denounce the Mills' bill as destructive to general business, labor, and the farming interests of the country, and we heartily endorse the consistent and patriotic action of the republican representatives in congress in oppos-ing its passage. We condemn the proposition of the democratic party to place wool on the free list and insis: that the duties thereon shall be adjusted and maintained so as to fur-nish full and adequate protection to that in-

The republican party would effect all needed reduction of the rational revenue by repealing the taxes on tobacco, which are an arrogance and burden to agriculture, and the tax upon spirus used in the arts and for mechanical purposes, and by such revision of the tariff laws as will tend to check imports o such arti-les as a e produced by our people, the production of which gives employment to our labor, and re-lease from import duties these articles of foreign production, except luxuries, the like of which cannot be produced at home, there ball still remain a larger revenue than is requisite for the wants of government, of internal taxes rather than surrender any part of our rrotective system at the joint behist of the whisky ring and agents of foreign manufacturers.

We declare hostility to the it troduction into this country of foreign contract labor and of Chinese labor allen to our civilization and our constitution, and we demand the rigid enforcement of existing laws against it and favor such immediate legislation as will exclude such labor from our shores,

We declare our opposition to all combina-tions of capital organized in trusts or otherwise to control arbitrarily the condition of trade among our citizens and we recommend o congress and the state legislatures in their respective jurisdictions such legislation as will revent the execution of all schemes to oppress the people by undue charges on their supplies or by unjust rates for the transportation of their products to market.

We reafurm the policy of appropriating the public lands of the Uhited States to be homesteads for American citizens and settlers not aliens, while the republican party established in 18-2 against the persistent opposition of the democrats in congress, which has brought our great western domain into magnificent de-velopement. The restoration of uncarned land grants to the public dom-in for the use of ac-tual settlers, which was begun under the ad-ministration of President Arthur should be continued. We deny that the democratic party has ever restored one acre to the people declare that by the joint action of republ ocrats about fifty million acres of unearned lands, originally granted for the con-struction of rairroads, have been restored to the public domain in pursuance of conditions inserted by the republican party in the origin-al grants. We charge the democratic adminis-tration with failure to execute laws securing to

The government by congress of the territories is based upon necessity only to the end that they may become states in the union: therefore, whenever the conditions of population, material resources, public intelligence and morality are such as to insure stable local government; therein the people of such territories should be permitted, a right inherent in them, to form for themselves constitutions and state governments and be ad itted into the union. Pending preparati in for statehood all officers thereof should be gelected from bona adderested into an adjusted by her people and we heartily endorse the action of the republican senate in twice passing bills for her admission. The refusal of the democratic house of representatives, or partisan purposes, to favorably consider these bills is a willful violation of the sacred American principle of local gelf-govariment, and merits the condemnation of all justs to enable the neople of Wishington, North Dakota and Montanna territories to form constitutions and establish state governments should be passed without unnecessary delay. An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word Malaria was comparatively unknown,-today it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is used with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness. and all are caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's Angust Flower. Its cures are marvelous.
