

One Man Satisfied.

"I am glad," said a prominent attorney and business man of this city to the *Call* today, "that Judge Chapman was not nominated for congress."

"Judge Chapman is the kind of a man that this judicial district needs on the bench. In my opinion he is the ablest judge on the district court circuits in Nebraska today. Such men we want to keep in judicial positions. We need them in our business. Look," continued the speaker, "at the present difficulty between the Missouri Pacific and Mr. Buell. Judge Field granted an injunction restraining Mr. Buell from interfering with the track layers, a matter that was of serious import to Mr. Buell in his struggle with the road. Judge Chapman, however, gives Mr. Buell a fighting chance by granting an injunction restraining the road from laying track until the difficulty is adjusted. That is right and the people will appreciate it."

"Again the people of Lincoln appreciate the decisions that Judge Chapman has given in the detachment cases brought by Lincoln wholesale dealers against the railroads. These cases were of vital importance and that the decisions were right is admitted by the roads against whom they were made. They all show that Judge Chapman is needed on the bench."

These statements made by the gentleman are of a character that the *Call* can endorse.—Lincoln Call.

Resolutions of Respect.

WHEREAS, It has pleased the Grand Architect to call our well beloved brother, John W. Shannon, from labor in our earthly lodges, to refreshment in the Lodge where eternal joy prevails; now, therefore, be it

Resolved, By Plattsburgh Lodge No. 6, A. F. & A. M., that while we bow to the decrees of Divine Providence in all its dispensations, we nevertheless fraternally mourn the loss we have suffered in the death of Brother Shannon.

Resolved, That the masonic fraternity has lost one of its most staunch supporters and we recognize in his death the illustrious truth that Bro. Shannon never broke his word to any mortal on earth, that no one was more ready to succor the deserving, needy and destitute, especially if they were connected with the Masonic fraternity, and that to the extent of his ability he was always willing to contribute to help his Masonic associates or those dependent upon him.

Resolved, That the city of Plattsburgh has, in the death of John W. Shannon, lost one of its best citizens, and the community one of its staunchest supporters in all works of progress and all measures looking to the advancement of the material interests of its prosperity.

Resolved, That his widow and relatives have our hearty sympathy in this great bereavement, and we universally tender our good offices wherever and whenever they can be of use to them.

Resolved, That these resolutions be spread upon the journal of the lodge.

Resolved, That his widow and the newspapers be furnished with a copy of these resolutions.

An improvement has been made in the accommodation of the Riddle House within the last few days. Electric alarm bells have been put in each room and connected with an apparatus in the office, which, when operated upon will ring one bell or all the bells in the different rooms. One great advantage of this is, as the landlord says, no one can come down from their room in the morning in a rage and report that they were not awakened at the proper time. The bell will continue to ring until an answer is received, which, not only compels the soundest sleeper to wake up, but calls to the bell to make a reply, and the guests who are in the habit of rolling from one side of the bed to the other and answer in a half awakened style when the clerks rap upon their doors, will not be allowed to take any second doze, but be compelled to have to leave their beds and answer the call. When any guest desires the services of any one in the hotel, the bell is started in the office and the number of their room exposes itself.

The republican rally which will be held here on the 13th of next month, will no doubt attract a crowd, the like of which will never have been seen before in Plattsburgh. The democrats take the responsibility of furnishing the crowd at their rally, but the fair here attracted many republicans to the city, and many of them came out on the streets to see how the democrats would do. All the democrats joined in the procession, as they admit, while the republicans, in much larger numbers, watched them from the sidewalks. The democrats numbered about 1,200 in the procession.

The base ball club of Grand Island notified the manager of the Plattsburgh team that they were desirous of playing a game next Friday or Saturday and asked for what inducements could be offered. We have learned that satisfactory arrangements will be made and the date of the game set for next Friday. The Grand Island club is one of the strongest amateur teams in the state. Plattsburgh will play a stronger nine than has yet been on the field here. A good game is expected.

Mrs. J. K. Keithley, of Weeping Water, wife of the editor of the Weeping Water *Republican*, has been spending a few days at the home of H. J. Streight.

Coroner Boeck received a dispatch from Louisville last night about 12 o'clock which stated that a man had been killed there about an hour previous and requesting him to go immediately and hold an inquest. Sheriff Eikenbary and Mr. Boeck took their departure on the flyer this morning. An inquest was held and it was found that the man had met his death by accident. The name of the unfortunate man is John Shultz, an employee on the stone quarry near Louisville. He is a married man and has two children, one seven years old and the other two. He resides a short distance from the town, and as the house is close to the railroad, that course he generally used as he walked home. He had remained in town until about 10:30 and became so intoxicated that he could hardly navigate. He had been lounging around the depot and fell asleep, when he was awakened by some of the employees and started towards home. He succeeded in reaching a culvert about one hundred yards from the depot where he must have sat down on the track and gone to sleep. After a freight train had passed by shortly afterwards, his body was discovered in a frightfully mangled condition. The head was completely severed from the body and was found near the culvert, while the body had been carried along the track for several feet, and was as badly mangled as it was possible for it to be, the wheels having passed over it in four or five places.
