Plattsmouth Well Worth Acceptance.
Prompt Action Needed Here—Success at Nebraska City.
NEBRASKA CITY, Neb., Sept. 22, 1888.
—Editor HERALD.—Citizens here estimate the pontoon bridge worth \$10,000 to \$30,000 a year to the city. They pay \$2,500. All admit that it is far better than they expected. Less sways than a pier bridge, and far more convenient because the bridge ends at the shore (no long approaches for the teams to climb.) There is nothing smart about it. It is merely a lot of scows knocked together and strung across the stream, but under it harmlessly passes the heaviest drift hurled by the raging river, and on it you can, in one minute, drive from shore to shore.
I make your city a much better proposition than I made last spring. I will bridge out from each shore and run a shuttle-boat across the channel, crossing every two to five minutes for a bonus of \$1,200 a year. If the arrangement can be made at once so that I can put in the bridge while I am waiting here to make experiments with the ice, I will arrange for a bonus of \$1,000 a year for five years.
Or, if your citizens prefer, I will arrange for a single year for \$1,500, being satisfied that they will see the many advantages of a bridge and at the end of the year re-arrange for four years more at \$1,000 a year.
Tolls, 50 cents round trip for double teams. Other tolls in proportion. A shuttle bridge is as good as a complete bridge where not over 400 teams cross daily.
For \$100 a year more we will put on a stage to make two trips daily, each way, between Plattsmouth and Pacific Junction, 10 cents fare each way. No charge to passengers crossing the bridge. This would bring many citizens of Pacific Junction to Plattsmouth to trade. A stage line might also be run to Glenwood during the months when the roads are good.
Now, if Plattsmouth has a few men who will raise to the level of the opportunity and secure subscriptions of \$5 to \$25 a year you might soon have a shuttle-bridge that would enhance real estate, increase trade, start new enterprises, as it has done here, and bring to your doors the hay, wood, butter, eggs, vegetables, etc., of Iowa. People have been benefited here by the bridge in more ways than they ever thought of. They will also tell you that I have much more than filled my contract with them. I have given free days, half-fare days, free crossing to old soldiers, half-fare on corn and wood from a certain distance, half-fare for pleasure drives to citizens every pleasant afternoon, and am using many kinds of inducements to bring farmers and emigrants to this city.
Our bridge here was finished over a month ago. Although it is the largest pontoon bridge in the world by over one hundred feet, and has the largest draw of any bridge, either pier or pontoon, by over twenty feet, we have as yet been unable to get even a delegation of one man from Plattsmouth to visit it. This makes me sad, but I can wait as long as you can.
By putting on one hundred men we could build it in two weeks after the gunwales arrive.
If some of your citizens would rather own the bridge, I will build it for them, and at a much less price than any other contractor will charge. Moreover, I will guarantee my bridge to stay put.
I am right glad to learn that the \$300 of time and expense I lost with you last spring resulted in causing your ferryman to reduce his rates. You and the farmers opposite reap the benefit of it.
All along the river ferry rates are falling and the boats of those who were compelled to charge half a farmer's load for toll shall soon rock idly on the shore. For pontoons have arrived to remain (or, if you prefer it, "come to stay") and I was sent to tell you.
I continue to remain your friend and well wisher,
S. N. STEWART.

—The B. of L. E. and F. held a ball in the Fitzgerald hall last night. The crowd present filled the room so that they could only comfortably dance, and a very pleasant time was had by all who participated. A carpet was raffled during the evening. It was awarded to Mr. Thos. Hicks, proprietor of the Pacific House, he having held the lucky number.

Republicans vs. Democrats.
The two bodies of politicians have at last signified their intention of meeting in conflict on the base ball diamond. The date of the game is set for tomorrow (Thursday) afternoon, and the match will be played on the old base ball grounds west of the city. We have all confidence in the republican nine selected and believe they will toss the ball in such a style as will startle their democratic brethren.
The gate receipts will be donated to the yellow fever sufferers of the south. This will be the first game of the kind played here, and a good crowd is expected. Following are the names of the players and their position:

Having this day sold my stock of Hardware, Stoves, Tinware, etc., to Messrs. Brekenfeldt & Weidman, I would respectfully and earnestly ask that all those in my debt come forward promptly and settle their accounts; as it will be necessary for me to close up my business as speedily as possible before engaging in other pursuits. I also take this occasion to thank the public, both in the city and county, for the very liberal patronage given me during the time I have been engaged in business here, and hope the same will be extended to my successors.
