The Yellow Fever.
JACKSONVILLE, Fla., Oct. 5.—Official bulletin for the twenty-four hours to 6 p. m.: New cases, 75; deaths, 1; total cases, 2,971; total deaths, 371.
DECATUR, Ala., Oct. 5.—Seven new cases were reported here today, but no deaths.

Grover Requested to Financially Assist David.
NEW YORK, Oct. 5.—The pressure of the regular democrats to force their presidential candidate, Grover Cleveland, to endorse the nomination of D. B. Hill for a second term as governor is to be increased, and the president will be forced to place himself either in line with the unanimous action of his party in this state or by remaining silent give the impression that he approves the action of his supporters who are engaged in knitting Hill.

It is said on good authority that when Colonel Dan Lamont was here Thursday last he was informed by the leaders that a check from the president to cover a portion of the campaign expenses of Governor Hill would stop all friction. It was not then deemed there was any necessity for the latter. The situation has changed somewhat since then. The anti-Hill democrats are well supplied with money, and are making such a vigorous onslaught on the governor that the Hill men can be kept in line for Cleveland only by a ringing declaration from the president that he does not favor the warfare on the democratic candidate for governor. Already the Hill democrats are seeking votes from republicans for Hill in return for votes for Harrison and Morton. The republicans are not trading any candidate, however, and the Hill men, if the vote for Harrison, will get nothing in return.

STRAY NEWSPAPER ITEMS.
It is announced that there will be another "Passion Play" at Ober-Ammergau in 1890.
Of the 8,000,000 francs worth of china made last year at Limoges, one half came to America.
Engines of 20,000 horse power have been ordered for the new cruiser Blake, at a cost of \$140,000.
It is said that barely half a dozen watering place hotels thus far have met their expenses.
The reports of extravagance and show at our watering places are not so loud nor so numerous as usual.
The daily opening of the churches is being advocated heartily by Lord Carnarvon and the bishop of Cambridge.
Parisian swells steadily give way to English fashions. They now wear the regular short white tie for evening dress, instead of their former black butternuts.

A newspaper in Constantinople says that 212 Christians and Jews have become Mohammedan during the past year, a larger number than those who have abandoned Mohammedanism for other religions.
A Michigan peddler who sold goods on the cars, first singing a comic song to attract attention and please his customers, dropped dead in a train a few days ago. He is believed to have left a fortune of \$200,000, accumulated in this manner.
Germany is doing considerable foreign missionary work nowadays. It has eighteen societies and supports 523 missionaries, who look after their 210,000 converts. Last year the total receipts in money were over \$700,000.
Three Chinese peasants attacked a 14-year-old boy near Vinegar Springs, Ore., a short time ago, and fought him so hard that he dropped a sack of wheat he was carrying and fled for safety. When the neighbors went to the spot the wheat and birds had both vanished.
An Australian football club has arranged with an accident insurance company to pay any of its members who are disabled while playing the game 20s. per week as long as they remain on the sick list, and £200 to the relatives if the injuries received in the football field should terminate fatally.

TO-MORROW.
In human hearts what bolder thoughts are there Than man's presumption on to-morrow's dawn? Where is to-morrow? In another world; For numbers this is certain; the reverse Is sure to none and yet on the "perhaps," This "peradventure," infamous for him, on a rock of adamant, we build our mountain hopes. —Young.

The Ignorance of Criminals.
The illiteracy of criminals is illustrated by Dr. Scouler, of the Illinois Reform school, thus: "While the state of Illinois has less than 6 per cent. unable to read and write, the commitments to the Reform school show nearly 25 per cent. unable to read and 70 per cent. unable to write." "What is your nationality?" we asked of a young man nearly six feet high. "Don't know." "Are you an American?" "Eh?" "Were you born in America?" "No, I was born in Shelbyville, Ills." The criminal is, above all, selfish and egotistical. He knows it all. He is incapable of being taught. Smartness is his curse. He is ever ready to sneer at others. Braggings is his unconquerable propensity. He commits crime because he is proud of it. Which suggests that the habit of ignorant egotism in parents tends to breed in children a criminal conceit and tendency to do whatever will make them notorious. —Globe-Democrat.

Courtesy of Russian Officers.
When I left Moscow at noon we were told that the train would stop for dinner within an hour or two, but it did not, and we learned from some Russian officers who were sitting with us that there would be no opportunity for obtaining anything until 6 in the evening. As we had taken an early breakfast, we expressed our dismay, when one of them went to another compartment of the car where his family were and soon returned with a hearty lunch, which he insisted upon our taking, and which we, of course, gratefully accepted. Imagine a captain in the United States army offering a part of his dinner to a foreigner on a railway train. And this was but one of the many acts of courtesy which we received from them during the long day which we were together between Moscow and Warsaw. —Henry M. Wright in Detroit Free Press.

Dropped Her Studied Dignity.
Mrs. Sam Newyrich, the haughty, purse proud wife of a Montana millionaire, unbent sufficiently to take a party of Boston tourists out riding in her own landau, drawn by four black horses with red fly nets and plumes, while the coachman was in scarlet and yellow livery.
Mrs. Newyrich maintained an attitude of studied dignity until her John happened to give one of her four black steeds a cut with his whip, when she lapsed into her old air of case and frankness, and said, smartly: "Here you, Billy Jackson, you stop lickin' them horses like that or I'll lick you—blamed if I don't! Excuse me," she said to the awestruck Bostonians, "but that off boss cost \$900, and I don't intend having him licked for nothing." —Time.

Tubes to Cross the Channel.
Once more suggestions are in the air for a postal tube between Dover and Calais, and this time in a more detailed form. The idea is to suspend two tubes of about a yard each in diameter by means of steel cables across the Channel, forty yards above the level of the sea. The steel cables will be fixed to pillars at distances of about 800 yards, and in each tube a little railway will run, with cars capable of carrying 450 pounds in weight. No parcel of greater weight than this will be taken, and the cost is estimated at the modest figure of \$5,000,000. It is also proposed to run telegraph and telephone wires through these tubes. —Financial News.

Typhoid Fever Kills More.
Typhoid fever kills more people in this country every year than most of the yellow fever epidemics do. Yet nobody runs away from typhoid fever. They stay where they are and take the chances. But at the first hint of "Yellow Jack," country settlements, villages, towns and whole cities lose their heads and run off as fast as their legs will carry them. In Havana yellow fever sometimes prevails all the year round, but the citizens stay there, and American tourists visit the city and never think of danger. Why does a touch of the disease in this country produce such a general scare? —Atlanta Constitution.

The "Devil's Looking Glass."
A curious relic of old English magic was recently sold in London—the "black stone," or magic speculum, of Dr. Dee, who was so notorious an astrologer in the times of Mary and Elizabeth. Dr. Dee professed to be able to call his familiar spirits into this stone, which magically reflected many strange scenes, and afforded glimpses into futurity. It is mentioned in "Hudibras" as the "devil's looking glass." The stone is merely a round piece of canal coal, about half an inch thick, with a kind of handle at one side, and is highly polished. —Once a Week.

Three hundred years ago the council of Trent denounced the "detestable practice of dueling."
Johann Most says that there are 500,000 Socialists in the United States.
