"Bad Men" of the Frontier.

The professional man killers, or "bad men," may be horse thieves or highwaymen, but more often are neither one nor the other. Some of them, like some of the Texan cowboys, become very expert in the use of the revolver, their invariably staidly; but in the open a cool man with a rifle is always an overmatch for one of them, unless at very close quarters, on account of the superiority of his weapon. Some of the "bad men" are quiet, good fellows, who have been driven into their career by accident. One of them has perhaps at some time killed a man in self defense; he acquires some reputation, and the neighboring bullies get to look on him as a rival whom it would be an honor to slay; so that from that time on he must be ever on the watch, must learn to draw quick and shoot straight—the former being even more important than the latter—and probably has to take life after life in order to save his own.

Some of these men are brave only because of their confidence in their own skill and strength; once convince them that they are overmatched and they turn into abject cowards. Others have nerves of steel and will face any odds, or certain death itself, without flinching a hand breadth. I was once staying in a town where a desperately plucky fight took place. A noted desperado, an Arkansas man, had become involved in a quarrel with two others of the same kind; both Irishmen and partners. For several days all three lurked about the saloon infested streets of the roaring little board and canvas "city," each trying to get "the drop"—that is, the first shot—the other inhabitants looking forward to the fight with pleased curiosity, no one dreaming of interfering.

At last one of the partners got a chance at his opponent as the latter was walking into a gambling hell, and broke his back near the hips; yet the crippled, mortally wounded man twisted around as he fell and shot his slayer dead. Then, knowing that he had but a few moments to live, and expecting that his other foe would run up on hearing the shooting, he dragged himself by his arms out into the street. Immediately afterwards, as he anticipated, the second partner appeared, and was killed on the spot. The victor did not live twenty minutes. As in most of these encounters, all of the men who were killed deserved their fate. In my own not very extensive experience I can recall but one man killed in these fights whose death was regretted, and he was slain by a European. Generally every one is heartily glad to hear of the death of either of the contestants, and the only regret is that the other survives.—Theodore Roosevelt in The Century.

Influence of the East Wind.

With few exceptions the east or north-east winds act unfavorably upon human beings. Dr. Richardson says: "That all nervous conditions in which, for want of a more correct term, we say the nervous tone is lowered, are much intensified by the east wind and, indeed, the special action of this particular wind is to produce want of tone or debility. Under its influence almost all sick persons say they are depressed; they do not complain of reduced appetite, nor of pain intensified, nor of derangement of the secretions, but they declare that they are rendered prostrate both in mind and body. They are also more irritable in mind, which perhaps leads them to feel acutely the sense of prostration. In brief, if a single word were wanted to express the morbid effect of an east wind on the sick man, and on all the members of the sick community, that word would be prostration."

The same authority continues: "That the presence of the east wind increases the mortality of those who are suffering from diseases of debility of every kind is a fact that seems undoubted. The physician, through the whole of the spell of an east wind, will find his patients complaining of not making satisfactory progress, and will see extreme cases rendered more speedily hopeless—facts indicating the existence of a general and all pervading influence in the atmospheric sea itself as the cause of the whole of the evil. What that influence is, how the air is modified, whether it is modified by some change in the constitution of the oxygen, or whether it carries with it some foreign deleterious product, it is impossible to say, for up to this time no special chemical examination of the east wind has been made with the object of determining its special physical properties. We know the effects of it, and we know no more."—Herald of Health.

Did Not "Catch On."

The French never did well at translating Shakespeare. Even Voltaire did not "catch on" to the meaning of the great dramatist. Shakespeare's expression, "I will carve myself a fortune with my sword," Voltaire rendered, "With my sword I will make my fortune carving meat."—New York Press.

A Change of Base.

"Dimple, have you been at the preservers?"
"No, mamma," was the faint answer.
"But they are all over your face, child!"
"Den, mamma, I dess zo perserves 'ave been at me," replied the little miss promptly.—Detroit Free Press.

What Am I To Do?

The symptoms of biliousness are unhappily but too well known. They differ in different individuals to some extent. A bilious man is seldom a breakfast eater. Too frequently, alas, he has an excellent appetite for liquids but none for solids of a morning. His tongue will hardly bear inspection at any time; if it is not white and furred, it is rough, at all events.

The digestive system is wholly out of order and diarrhea or constipation may be a symptom or the two may alternate. There are often hemorrhoids or even loss of blood. There may be giddiness and often headache and acidity or flatulence and tenderness in the pit of the stomach. To correct all this if not effect a cure try Green's August Flaxer, it costs but a trifle and thousands attest its efficacy.

WHAT ON EARTH

Is the reason people will not, can not, or do not see any difference in cheap nostrums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? A Word to Republicans.

The importance of the results of the present political campaign can not be overestimated by those who desire the success of the Republican party. The Democrats, besides the "Solid South," are, in the North entrenched behind breastworks of public patronage. It will take steady, earnest, and united work to dislodge them. No thing will so surely bring about that steady, earnest, and united work as the circulation of sound political literature, and OF THIS CLASS NO OTHER IS AS EFFICIENT AS THE DAILY AND WEEKLY NEWSPAPER. Speeches and documents are read by the few, and when read are laid aside; the newspaper is the fireside friend, the trusted family companion. Its influence is continuous, constant. The Republicans can not aid their party better than by circulating

The Daily Inter Ocean

It is a live Republican Newspaper, and has been faithful among the faithless in Chicago. No man has ever questioned its soundness on the platform, because the principles of the platform have been advocated by THE INTER OCEAN many years. PROTECTION TO AMERICAN INDUSTRIES AND AMERICAN MARKETS FOR AMERICAN PRODUCERS have been its battle cries from the beginning. It did not take it six weeks to ascertain whether it could stand on the platform or not.

Republicans have done much to aid in the inculcation of false political doctrines by patronizing papers that advocate them. Why should they do so when they can avoid it by subscribing for THE INTER OCEAN, which is acknowledged to be

Published in Chicago? In enterprise, news, editorial ability, and everything that goes to make a COMPLETE NEWSPAPER it is unexcelled by any of its contemporaries.

Every Republican ought to subscribe for it. Every workman ought to subscribe for it. It is the paper for all classes of patriotic people who believe in protecting the homes of America.

You can subscribe through your newsdealer or postmaster. If you are unable to do that send direct to the office of publication. Sample copies are always sent on application.
