WRECK ON THE RIO GRANDE.

An Operator's Mistake results in a Terrible Catastrophe.

The Orders Conflicted.

COLORADO SPRINGS, Colo., Nov. 27.—

One of the most awful railroad catastrophes in this state occurred at 11 o'clock yesterday morning on the Denver & Rio Grande road one mile below Husted, where the Salt Lake express on the Denver & Rio Grande collided with the north bound Rock Island passenger, killing two men instantly and seriously wounding several others.

The Denver & Rio Grande left the union depot at Denver at 8 a. m., and consisted of a baggage and mail, emigrant, two passenger and a Pullman car, all crowded with passengers. The train arrived at Palmer Lake eight minutes late, and started down the grade on this side, running about thirty miles an hour. One mile below Husted the road makes a sharp curve and cuts through a bank. Issuing from the cut, the engineer saw rapidly approaching, the Rock Island train not fifty feet distant, and too late to make any effort to stop. A moment more and the two engines came together with terrific force and fell over in a mass of inextricable confusion. The tender of the Rock Island train telescoped with the baggage car, and the tender and two baggage cars on the Denver & Rio Grande also telescoped. All the passengers were thrown from their seats, and a scene of confusion ensued. Men, women and children rushed for doors and windows. The shrieks of the wounded were appalling, and, above all, was heard the horrifying cry of "Fire!" Flames were seen leaping from the Denver & Rio Grande baggage car, in which, by telescoping, escape to the men inside was rendered impossible.

A dozen willing hands caught up axes and other tools and the men were soon freed. The flames spread rapidly and two Denver & Rio Grande baggage cars and one emigrant car were destroyed. With the aid of hand grenades the fire on the Rock Island train was extinguished. In the Rock Island baggage car were found the dead bodies of the express messenger and baggage man, both with fractured skulls.

The killed are: W. H. Phipps, express messenger on the Rock Island.
J. H. Flynn, baggageman on the Rock Island.

The wounded are: Martin Monroe, engineer on the Denver & Rio Grande, slight fracture of the skull and badly hurt internally.
Peter Lunn, fireman of the Denver & Rio Grande, head and face cut and internal injuries; will probably die.

Joseph Berry, engineer, Rock Island; head cut and body bruised.
Harry Smith, fireman, scalded and face and head cut.

The responsibility for the accident rest with the dispatcher. Conductor Tom Carence of the Rock Island train, received orders at Colorado Springs to go through to Denver, giving him the right of track to Colorado Springs. No blame can be attached to the crew of either train. Many passengers had severe bruises and cuts, but none were seriously injured, though their escape is miraculous.

News From Union.

Mr. R. Sapp, of Kansas, is spending a few days here this week.

Corn is not as good as some have anticipated, but is an average crop.

We are glad to learn that Plattsmouth is still the county seat of Cass county.

Mr. A. M. Rose and son, constitute the firm of Union Photograph Company.

Mr. J. Eikenbary, jr., alumnus of the L. B. college Saturday and Sunday at home.

Dr. R. B. Wallace has taken possession of his new and handsome residence on Harrison Hill, I "guess."

The Presbyterian church is almost finished, and when completed will be as good a church building as there is in this community.

The Baptists are having meetings at their new church in Union, evenings. The church is a handsome one and an organ and bell are soon to be added to it.

One of our opulent citizens asked a Chinaman in a Nebraska city why he was a republican, and the latter replied: "a republican gets his shirt washed once in one week, and a democrat gets his shirt washed once in two weeks so you see why I am a republican."

Corn husking is still prevailing throughout this section of the county and will for some time to come among some of the opulent class of farmers, although several are finishing that had a small crop. We have been blessed with a splendid fall for doing all kinds of work.

AURORA BOX-PAL.

Council Meeting.

The city council held their regular meeting last night at the council chamber. The following members were present: The mayor, clerk, Messrs McCallen, Dutton, Weckbach, Shipman, Jones, Conner and Salisbury. Mr. F. Guthman sent in a claim for \$78.80 for damage done his property by cutting a sewer through his lot. Referred to committee on claims.

The following claims were allowed: W. K. Fox, incidentals, \$ 2 30
Peter Merges, rent, 20 00
Jones & Jones, sewer pipe, 10 45
T. L. Murphy, grading estimates, 428 78
T. L. Murphy, same, 815 52
Geo. Poissal, same on 3rd st., 1092 75
F. M. Richey, telegraphing, 3 50
M. W. Morgan, labor, 40 50
L. Dose, labor, 13 00
R. Johnson, labor, 18 00
C. Ellis, labor, 9 00
G. H. Poissal, wood, 5 00
W. H. Mallick, boarding prisoners, 39 25

Mr. W. Cunningham asked the council for remittance of special license on his billiard tables, which he was unable to use during the time which the special license covered. On motion the petition was placed on file.

The judiciary committee was instructed to draw up an ordinance creating funds for curbing and sewerage, and to present it at the next meeting of council.

A question was brought up before the council whether they would pay for gas which the city was prevented from using on account of the grading. The matter was referred to the committee on claims.

Moved by Mr. Jones that alley in block 62 be opened up.—Carried.

Mr. Sherman's bill of \$198.20 for printing ordinances of city, was allowed. The claims of \$164.18 and \$382.20 for engineering on street and sewer work were allowed.

The judiciary committee received an offer from the railroad company as follows: They asked for the ground now used as second street for yard purposes if they allow the city the use of the company's ground about a half block west now used as an alley. The matter was referred to a committee for investigation.

A motion was made that the bridge between 10th and 11th streets be removed and a new one put in. Referred to committee on streets, alleys and bridges.

The committee on streets, alleys and bridges has to instruct the street car company to lay planks on each side and between the rails along Sixth street and wherever the track is too high for vehicles to cross.

Mr. H. Boeck appeared before the council and claimed damages for the injury done his building by the sewer work. The board of works was authorized to employ an architect to estimate the amount of damage done.

Three Groves.

Nov. 27, 1888.

Very nice fall weather.

Corn husking has been nearly completed.

Mr. and Mrs. S. M. Kirkpatrick from Nehawka, made Three Groves a visit on Sunday last.

Mr. and Mrs. Joseph Cole took their departure for Kansas on Sunday of this week.

Byron E. Young and Richard McBroom came in from the west (Keya Paha Co.), over a week ago. Mr. McBroom will soon go on to Ill.

Mrs. F. M. Young is slowly recovering from a severe spell of sickness of several weeks.

The Latter Day Saints from Salt Lake have been in the neighborhood preaching the last week, one or two nights down at Rock Creek and one night at the brick school house.

Mr. Daniel Gosser, lately from Iowa and a brother of Elias Broesser has moved on to his brother's place and will live there until spring, and then he will move onto his new place bought recently in this vicinity.

Mr. and Mrs. Walston, of Rock Bluffs, have moved in with Uncle Jimmy Chalfant for the present. Uncle Jimmy has been keeping bachelor's hall for some months on his old place.

Some complaints have already been made about a certain piece of road between this and Plattsmouth on the Telegraph road. Somebody, perhaps the supervisor, has been at work there and left it in a condition that would be impossible to travel in it in freezing bad weather. Mr. Bruner who has charge of the road work this side has made wonderful improvements in the road, and deserves considerable credit from the traveling public. REPORTER.

The regular annual meeting of the Cass County Agricultural Society, will be held next Saturday, December 1st 1888, in Plattsmouth, at the County Judges office at 2 o'clock p. m. All members are requested to be present and every one holding a family ticket is entitled to a vote.

FRED GORDER, PRES.

COULEUR DE ROSE.

I want more lives in which to love
This world so full of beauty.
I want more days to use the ways
I know of doing duty.
I ask no greater joy than this
(So much I am life's lover).
When I reach age, to turn the page,
And read earth's story over:
(Oh, love, stay near.)

Oh, rapture promise of the May,
(Oh, June, fulfilling after!)
If autumn sighs when summer dies,
The drowned in winter's laughter
O, maiden dawn—O, wifely noons,
O, green sweet, sweet nights,
I'd want no heaven could earth be given
Again with its delights
(If love stayed near.)

There are such glories for the eyes,
Such pleasures for the ear;
The senses reel with all they feel,
And see, and taste, and hear.
There are such ways of doing good,
Such ways of being kind;
And bread that's cast on waters, fast
Comes home again, I find.
(Oh, love, stay near.)

There are such royal souls to know,
There is so much to learn,
While secrets rest in Nature's breast,
And unnamed stars still burn
God toiled six days to make this earth,
I think the good folks say;
Six lives we need to give full heed
Of praise—only for each day.
(If love stay near.)

But oh! if love fled far away
Or veiled his face from me,
One life too much, why then were such
A life as this would be.
With sullen May, and blighted June,
Blurred dawn and lagged night,
This drear old world in space were whirled
If love left not his light.
(Oh, love, stay near.)
—Ella Wheeler Wilcox in Once a Week.

From the Great Pipestone Quarry.

There is much to indicate that the Indians for many generations have highly prized the pipestone for the manufacture of their pipes, and that it has been extensively used by the red man for pipe sculpture throughout North America. Chips of the stone, beads, arrow points, hatchets and pipes of this material have been taken from graves, mounds and wells, even plowed up from fields, in the various states, from Massachusetts to Georgia. The Dakota Indians employ seventy-five different patterns in as many materials, but the calumet is the one venerated. Mr. Edwin A. Barber says: "The fact that this stone has been taken from Indian graves in the state of New York, and that others were found on an ancient site of a village in Georgia, at opposite points, 1,200 miles from the pipestone quarry in Minnesota, reveals the great extent of intercommunication which formerly existed among this North American people. There is certainly strong presumptive evidence that the stone of the Coteau des Prairies has been used for centuries, and perhaps a much longer time."—Helen Strong Thompson in American Magazine.

The Americans of Asia.

The Japanese call themselves the Americans of Asia and they are to a certain extent right. They are like the Americans in their ready adoption of new things and in their being ready to risk the present for the future. They are quick witted and they want to be up to the times. They lack, however, I am prone to believe, the American's desire of acquiring his industry and perseverance, and above all his wonderful creative faculty. You will find a patent office at Tokio, but you can number the noted Japanese inventions upon your fingers. Up to this stage in their career the Japanese have been an imitative rather than a creative nation. What they have had in the past has been adopted from other nations. The civilization which preceded the one now coming in was largely Chinese.—Frank G. Carpenter's Letter.

Frauds in Life Insurance.

The custom of life insurance companies relative to payments of policies when death occurs from suicide has changed materially of late years. In the early days of life insurance such claims were never paid, and there is a provision in most policies issued heretofore that the claim shall be void if the deceased dies by his own act. But at the present time all large companies issue a policy which is absolutely incontestable for any cause whatever (not excluding fraud in the application) after three years. They take the ground that suicide does not happen frequently enough to make it an element of risk, and further that, so far as fraud is concerned, if they do not discover anything of that nature in three years they are not likely ever to do so.—Boston Times-Pic.

Little Corn's Warning.

Little Corn heard an older person remark that some one who was in trouble was "in a pickle." Shortly afterward her little brother attempted some difficult feat. "Oh, you mustn't do that," she exclaimed, "for you will be in a cucumber."—Youth's Companion.

Remunerative Occupation.

Ornamenting letter and note paper by hand is becoming a very remunerative branch of industry in New York city as well as in London, Paris and Vienna.—New Orleans Times-Democrat.

Overstocked with Medicines.

When any profession or calling is overstocked it means, generally, that there's too large an amount of mediocrity in such profession or calling. Or, in other words, there are too many who can do the same thing equally well. There is always a place for the better worker, the man or woman whose individuality and originality can strike out in some new path and make an improvement on the old method, providing such worker has force enough to keep on pushing his or her talent to the front and not use that same force up in dwelling on discouragements.—Prentice Mulford in New York Star.
