SEND the WEEKLY HERALD to some friend in the east for a Christmas present.

The Burlington route had orders one day last week for over a thousand cars, to move some of this year's corn crop.

Mr. CLEVELAND has about decided to go to Europe at the expiration of his term, where the atmosphere will be more congenial for him.

It is now reported that the American navy has gone into dry dock at Key West to get out of the way of the solitary Haytien gun boat, but it lacks confirmation.

THE report that the British Government has determined not to recognize the United States until after the inauguration of Harrison indicates a very correct understanding of the fact that the present Administration has ceased to have any vital relation to the affairs of this country.

Iowa continues to be the banner state of the union with her total enrollment of four hundred and seventy-seven thousand pupils in the public schools. The an nual report of the state superintendent of education shows a remarkable gain it the attendance and school facilities as compared with other states. Not only is the standard of her public schools high, but the percentage of illiteracy is less than in any other state. - Bee.

All the negative votes were cast by democrats yet 40 dem ocrats voted with the republicans in favo: of the bill. It is the general belief in Washington that President Cleveland will veto the measure, which will compell the direct tax question to be laid over for the next congress to settle.

Now it is the secretary of state of Tennessee who is exalting himself as the possessor of a little brief authovity. Governor Taylor has signed the certificate of election of Mr. Evans (Rep.) in the Third congressional district, but Secretary Allison refused to affix the seal of the state. THE business men of New York City one day last week formed themselves into an association to be known as the "Business Men's Republican Association of the City of New York." They elected Mr. John F. Plumer their president. The idea of the leaders of the movement | costiveness we cannot cure with is that New York may be converted into a republican city. The process must necessarily be slow, and a vast amount of fail to give satisfaction. Large boxes editorial work will be required. The new association is the outgrowth of various business men's clubs that did effective work in the recent campaign.

THERE is a curious grave in the ceme tery at Dublin, Georgia, says the Inter-Ocean, which has an interesting history In 1840 Georgia voted for William Henry Harrison, and the people of Laurens | COUCH! and COUCH! and COUCH! county were enthusiastic supporters of old Tippecanoe. When President Harrison died, in 1841, a casket was interred keep trying inferior medicines when in the cemetery at Dublin, to the memory of the president, and for many years the grave was visited annually and decorated actual fact, and we guarantee it. Sold by the ladies of the town. Since the war the grave has been neglected, but the election of the grandson to the presidency has revived the interest in the little mound.

sensible person can be any longer in doubt on this point. The division on the motion was virtually partisan, and there is no reason to hope that when the bill reaches the House it will receive any better treatment from the democracy than it has in the senate. The senate will pass the bill, and that, too, it is probable, before the holiday recees, but it will be killed in the House. This will prevent enactment of any sensible measure of revenue reform this winter.

The necessities of the situation will undoubtedly compel President Harrison to call an extra session of the Fify-first congress. The surplus, it is true, will probably be far less than Secretary Fairchild's estimate, for that gentleman fails | Horseshoe, the Best Horseshoe for the his guesses at the excess of revenues over expenditures in the fiscal year 1889. The deficiency appropriations also are heavy this year, and they will asssist in bring the surplus below the Fitzgera'd Block, Plattsmouth, Neb. secretary's figures. But making a fair allowance for these items, the natural income can be reduced materially, with profit to the country, especially when we bear in mind that the surplus already collected amounts to about \$53,000,000 or \$ 4,000,000. Henceforth, at least until the outstanding bonds become payable at par at the option of the government, there will be no popular demand to reduce the debt beyond the sum called for by the sinking fund. The revenue in excess of this amount should be cut off. All the reduction required can be made without injury to any American industry. It would be unwise to defer this reduction to 1890 .- Globe Democrat,
