The bill to create the Department of Agriculture is now in a conference committee of the two houses, and will undoubtedly become a law by the middle of January. This will give General Harrison eight cabinet members instead of seven, the present number, and we think ex-Governor Furnace, of this state, is the right man for the place.

THE FINEST YET.

We refer to The Russell & Morgan Printing Company's calendar for 1889, a copy of which is now before us. The calendar consists of twelve sheets (one for each month) of coated board, size 12 x 7 1/4 inches, printed in nine to twelve colors and gold from engraved metal plates costing over \$2,000. Each page is entirely different from the others, and all are new and original designs illustrating the origin and use of playing cards, etc.

January opens with the story of the playing cards—its birthplace: "Midst austere walls of a convent gray," which is carried through by different representations and descriptions to the end, December showing the "house of cards" and a view of The Russell & Morgan Printing Company's building, the largest playing-card factory on earth.

This is the most elaborate calendar ever produced, and while the Russell & Morgan Company have not forgotten to work in a fair amount of advertising pertinent to their business, the calendar itself is a most practical one. The figures are large and plain, and on the back of the December sheet is furnished a full commercial calendar for the years 1889 and 1890, with the consecutive figures so useful to business men and book-keepers who wish to make a "note" of time. A notice printed on the face of the calendar advises us that sample copies will be mailed to any address upon receipt of twenty-five cents.

THE FORUM.

A REVIEW OF LIVING SUBJECTS BY THE FOREMOST WRITERS.

The Forum is a monthly review every number of which contains eleven original essays on the most important serious topics of the time, by the best writers of both hemispheres. Its contributors during the last two years included more than 200 writers. (A list of them will be sent to any address on application.) Among them are: Archdeacon F. W. Farrar, President Julius H. Seale, Professor John Tyndall, Justice T. M. Cooley, Professor Emile de Laveleye, President Francis L. Patton, Andrew D. White, Edward Atkinson, Senator George F. Edmunds, Major J. W. Powell, President Francis A. Walker, W. H. Mallock, President Timothy Dwight, W. S. Lilly, Professor Frederic H. Hedge, Charles Dudley Warner, Bishop F. D. Huntington, Geo. W. Cable.

The range of subjects includes every important field of activity and investigation—Politics, Domestic and Foreign; Social Science; Literary Criticism; Education; Science; and Religion (always within the limits of reverential thought). The subjects are timely and they are treated by authorities.

The Forum gives equal prominence to each side of every debatable subject. It is not influenced by any party or school or sect. Its owners are a company of scholars whose aim is to further and to present the latest investigations and the soundest conclusions of the foremost workers in every department of thought.

More editorial discussions in the press are suggested by the Forum than by any other periodical. The New York Herald says of it, "The Forum has done more to bring the thinking men of the country into connection with current literature than any other publication." And the Boston Herald, "The Forum has taken the foremost place in public discussion because it has dealt with important subjects honestly, impartially, and at the same time with a knowledge of those who know something about them." 59 cents a number; \$5 a year.

PUBLISHING CO., New York.

A sample copy of the Forum will be sent free to any one who will send us the name of a library or reading-room where it is not now taken, or who will send us the names and addresses of six educated persons who read thoughtful literature.

A Real Necessity

We presume there is hardly a lady to be found in our broad land who, if she does not already possess a sewing machine, expects some day to become the owner of one. But after the mind has been fully made up to purchase one of these indispensable articles, the question arises as to what kind of a machine to buy.

It should be so simply constructed that the most inexperienced can successfully operate it. The other points mainly to be considered, and which are the most desirable, are durability, rapidity, capacity for work, ease of operation, regularity of motion, uniformity of tension, and silence while in operation. The "Light-Running; New Home" fills the above requirements, and is said to combine the good points of all sewing machines, with the addition of many new improvements and labor-saving devices.

The price is no higher than that of other machines, and every lady who is the happy possessor of one may rest assured she has indeed a treasure. SEE ADVERTISEMENT.
