CITY CORDIALS.

The M. E. Sunday school will be held tomorrow afternoon at 2:30. Mr. N. W. Nelson, agent for the McPhail piano, is in the city today.

Secure your tickets for Kendall and his "Pair of Kids," at the opera house next Tuesday night.

Mr. R. Patton, who received the first prize—a \$20 suit of clothes—from "Joe," for being the best guesser on his beans, has expressed himself as being well pleased with the prize received.

The farmers in the country surrounding Plattsmouth report great loss by the dying off of their stock. Some farmers have suffered the loss of several head of cattle, and others have lost all their hogs by the cholera, which is prevalent among them.

We are in receipt of a handsome illustrated catalogue of field and garden seeds from Jas. W. Bouk, Greenwood, Nebraska. The book is as neatly arranged as any we have seen from the eastern houses, and is a good indication of a first-class assortment.

Kendall and his "Kids" will amuse you at the opera house next Tuesday night. Don't forget to secure your tickets in advance for there will be a rush at the door and box office, for Kendall can make you laugh by looking at you and not saying a word.

There is a capitalist in the city today whose name we were unable to secure, negotiating with the business men of the city in view of locating an industry in Plattsmouth which will cost about \$60,000. Not less than one hundred men are to be employed. Let the good work go on.

Col. Guy V. Henry, who is to lecture next Tuesday evening at Rockwood hall, will deal largely with the most recent of our Indian wars. As he was a participant in several of the campaigns he is competent to treat of the subject.

A dog belonging to Frank Stander of Louisville went mad one day this week and bit eight of Mr. Stander's cows, two of which have since went mad; there is no knowing how many dogs or animals the dog inoculated before he made his escape. Talk about going to California to spend the winter when we have "dog days" in January in Nebraska.—Wabash News.

The dancing school is becoming quite a favorite resort for experts as well those who are only learning the art. Last night, Fitzgerald hall, where Prof. Gaynor holds his school, was as much crowded as at any time when a special dance has been given. Those who recently started in as pupils are rapidly advancing and under the instruction they are receiving will probably become as graceful as any.

Messrs. Pearley and Hayes, who are appointed as a committee at the convention of the Brotherhood held at Hammond, to visit all points on theington Route for the purpose of inducing the strikers on the course to be in the event of a settlement with the company, were in the city last night and addressed a meeting of the strikers at their hall. The boys' spirits were high this morning and they apparently received considerable encouragement from the visitors. They were ordered to go to work as soon as the company could find openings for them.

HEAR NASH TOMORROW.

Plattsmouth to be Addressed by the Able Leader of the Nebraska Y. M. C. A.

The zeal with which Secretary Bothwell and President Waterman, and those interested with them in the Y. M. C. A. work in this city, enter into the execution of their plans, has brought the association into considerable prominence and it has won the merited confidence of all Plattsmouth. For some time it has been the desire to have A. Nash, state secretary of the association, in the city tomorrow to address the people, and give the association work and workers a fresh impetus.

The first service tomorrow will be the men's consecration meeting in the rooms at 8:30 a. m., sharp, and the doors will be locked at 8:45. At 11 o'clock, Mr. Nash will address the public from the pulpit of the Presbyterian church. Being an able bible student and understanding the work he is engaged in, Mr. Nash's talks are highly attractive, deeply interesting, and slow to be forgotten; and many remember him for the excellent bible reading given here last summer.

The 4 o'clock gospel service, for men only, will be, as usual, at the Y. M. C. A. rooms, and will be led by State Secretary Nash. The seating capacity there has been increased to accommodate over one hundred, for a very large attendance will doubtless be had. The musical and song service from 3:45 to 4 o'clock will be a real treat. The orchestra having four extra pieces promised, and good singers to lead.

Why Don't He Take a Tumble?

The rising young poet to whom we made reference when he contributed a few lines of his raw poetry several days ago, has labored each night since because of the satisfaction he attained in witnessing his name above the emetical production which he sprung on the HERALD printers, to again give us a dose from which we are not likely to recover soon. As we stated before, the young man is in love, and for that reason alone we can account for the affliction brought to bear. The only reason we print his "Education" this time is because we may have an opportunity of securing a profitable sum for damages, as his first and second production has left our press in such condition that it has never worked to good advantage since. "The poet" teaches at school a few miles distant from our peaceful city, and the only way we have to point him out to an annoyed public and the printers, so that they may avenge themselves, is by the tie he wears. We suppose the young lady he is "stuck on" painted the huge flower which adorns it with a common, heavy, floor-paint brush, and it "looms up" for a block distant like a sunflower as a butt-nhole bouquet. We have never interfered with his business in any way, but should he continue this course we will be obliged to enter a suit for damages, as about a dozen or more of our subscribers have threatened to "stop the paper" if that man was ever allowed to get his poetry in print again. If our subscribers will kindly overlook this offense, we will guarantee that no such a burst of outlandish eyecore attempted rhyme will appear again. If he desires to still further win the affection of the young lady he admires so much, our advice to him would be to "let up" on poetry and never throw anything like his "Education" before her. We would say to "the poet" that he has our best wishes for success in that line, but the HERALD does not wish to pay the penalty which is liable to fall on it for the publication of such memory expander as his productions. Please desist for the benefit of the HERALD, the public and yourself.

A Lost Treasure Regained

The ex-chairman of the board of county commissioners who, it is said, carries around more leather in the shape of shoes than any man within the limits of our city, met with a little misfortune last summer while recruiting in the mountains which deprived him of one of the aforesaid treasures. The other day the gentleman in question received an express parcel from Denver, and upon opening it found a large overshoe measuring about two or three feet in length, accompanied by a note from a friend which stated that the overshoe had been picked up at the foot of the hills near Gunnison, Col., where he had occasionally taken morning walks while there. The sender stated that he supposed from the size of the shoe that he was the owner and the only man who could wear it.

M. E. Quarterly Conference.

Dr. W. G. Miller, D. D., presiding elder of district of the M. E. church is in the city, tomorrow being his Sunday here. Tonight the meeting at the Methodist church will be led by him, and the first services will be followed by quarterly conference. Dr. Miller will also conduct the services at the church tomorrow.

EDUCATION.

BY J. P. BECKER. The line to education by teachers is made. With books and periodicals the rails are laid. From the Kindergarten to seniors the line extends. Way up to the sciences, where it ends. A school is a station house. Where children are taken in. No fee for them is there to pay. For the district is itself the way. The teacher is the engineer. He teaches the children to read so clear. Through examples hard and rules so drear. He does the way to knowledge steer. Come then poor children now's the time At any station on the line: If you be kind and do not sin, The train will stop and take you in. So to all patrons I'll say a word or two, Promise your children one and give two: Put your children on this train And they won't get wet from any rain. Teach your children there is such a line, And have them follow it all the time. It will to that prosperous road lead If you only help to put on speed. A word here, and let it be. Will start your children on this line. So push them on when they get on the line. And they will get there in a very short time. So I say to the old as well as the young, Hear my sentiments they are not all unstrung. If you would have your children do right, Send them to school to learn to write. Read to them evenings but not in a roar, Keep them in the station house from nine till four. Talk to them gently and let it be fine, Keep them on the train that runs all the time.

HIGH SCHOOL NOTES.

Miss Etta Searl occupies the chair vacated by Miss Schulhoff. The life of the professor was a burden to him this week—cause, a surplus of book agents. A new radiator has been placed in the large hall, and it looks as if the board of education was doing all they could to make teachers and pupils comfortable. A change of readers is contemplated in the near future, Harper's readers to take the place of Appleton's, which have been in use in Plattsmouth for about eleven years. The principal theme of conversation among the teachers Monday morning was the marriage of Miss Schulhoff, and you could tell from their downcast and sad looks that it was as yet uncertain who would next be called. School opened Monday morning with an attendance of about eighty-five per cent. of the enrollment which is a good average, notwithstanding the efforts of Charlie Whopper Sherman to convey the idea that the teachers were simply talking to the furniture. Teachers would have some respect for the man if he occasionally would tell the truth.

When a member of the Boston Museum company, Mr. Le Moyne played Launcelet Gobbo to Charles Barron's Shylock. The relations between the two were not pleasant, and Mr. Barron seemed pleased when Launcelet's fine points failed to elicit any response from the audience. As Launcelet made his exit Mr. Barron, who was standing in the wings, remarked, "They don't seem to like your Launcelet, Mr. Le Moyne." To which the reply was: "No; they don't think it half so funny as your Shylock."—The Theater.

COUGH! and COUGH! and COUGH!

What in the world is the reason you will cough and keep coughing and still keep trying inferior medicines when BEGG'S CHERRY COUGH SYRUP will positively relieve your cough at once? This is no advertising scheme, but an actual fact, and we guarantee it. Sold by O. P. Smith & Co., druggists. Plenty of feed, flour, graham and meal at Heisel's mill. tf

HOW CAN PARENTS

allow their children to cough and strain and cough and calmly say: "Oh! it is only a little cold," and keep giving them cheap and dangerous medicines, until they are down with lung fever or consumption, when they can be so easily relieved by BEGG'S CHERRY COUGH SYRUP? It has no superior, and few equals. For sale by O. P. Smith & Co., druggists. The City Meat Market is the best place to buy fresh meats, pork chops, poultry and game of all kinds. tf

WHAT ON EARTH

is the reason people will not, can not, or do not see any difference in cheap nostrils put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work will cost you nothing. For sale by O. P. Smith & Co., druggists.

THE ASTRONOMERS ASTONISHED!

It is Believed the Earth Will Be Destroyed Within the Next Six Months. THE CHINESE IN CONVULSIONS They Believe the Earth Will Be Burned into Ashes. Tremendous Comet in the Heavens A terrible ball of fire has recently been discovered in the Heavens, and is said to be approaching the Earth at the rate of one hundred and seven million miles per day. Astronomers are somewhat alarmed as to the direction in which it is centered, and tell us that if it does not change its course, it will surely be the destruction of the earth. It is estimated to be twelve times larger than the great planet Jupiter, which is the largest planet of the Universe. Astronomers tell us it will soon be visible to the people of this continent. It can be easily observed by the people of China and it is said that the Chinese by close observation have discovered upon the tail of the great comet printed in roman letters George W. Vass, the only scientific Jeweler residing in Plattsmouth. Citizens, I am yours Fraternally, GEORGE W. VASS, Astronomer and Jeweler. Notice to Water Consumers. All bills aside from the lawn service were due Jan. 1st. These bills must be paid by Feb. 1st, at our office in Henry Boeck's store. THE PLATTSMOUTH WATER CO.
