Boulangier an Election General. PARIS, Jan. 27.—During last night there was much excitement and considerable disorder throughout the city.

Gen. Boulanger said this afternoon that he felt sure of receiving a majority of at least 60,000. The Boulangist organization is perfect, and the followers of the general were everywhere instructed to maintain perfect order, otherwise, the cause of their chief would be furiously injured.

The Boulangists confidently predict the fall of the Floquet ministry, and the dissolution of the chamber. The city is carefully guarded by the police and military to prevent disturbances.

Gen. Boulanger has been elected by a majority of 87,550. The complete returns from the department of the Seine give Boulanger 245,000; Jacques, 162,520; Boule, 16,760; other candidates, 10,358.

Gen. Boulanger will resign his seat for the department of the Seine, to which he was elected today, and retain his representation in the chamber of deputies of the department of the Nord.

O mighty city, is there any hour From daybreak till another dawning comes, When the white dove of peace can drop her wings In sweet compassion o'er thy throbbing heart?

Bread in Norway. Bread making, writes a correspondent in Norway to the London Telegraph, was another industry which we had a good opportunity of seeing while we changed horses at one of the stations.

An Irish Giant. In the year 1781 two babes, destined to become known through the civilized world on account of their ponderous build, were born in Ireland.

The Toll Gate in War Time. The colonels and majors had all told their recollections of the war, and even the privates had been heard. It was the turn of the home guard.

WREATHED IN A RAINBOW HALO. One of the rocks which divides the river in mid-channel runs up to a peak, and on this a family of eagles have through the years, may be through the centuries, made their home and reared their young.

Material in a Steamer. The amount of material necessary in the construction of a 1,250 ton steamer is simply astonishing. It takes 40,000 feet of lumber, 25 tons for hog lumps, and in all 50 tons of iron.

Acquired of a Doctor. Dr. W. F. Kier says: Of all the professions, I think the medical must be the most exacting. No one has any idea of the amount of work a physician of any practice must perform.

Why, Jennie, what do you think she said as she stopped a friend on the avenue the other morning? You've gone to him, Jennie, I bet. Yes, we have! George only gets a week, you know, and mamma was doubtful, but it's all right.

Thomas Benton and the Boy. Many years ago a slim built youth was trudging through the streets of New York, bent under the weight of a dozen copies of Benton's "Thirty Years in Congress," bound together by a strap.

"Why are you losing time?" he asked. "I can make it up on the home trip, when I shall have nothing to carry."
