OFFICIAL PAPER OF THE CITY.

A. Salisbury, Dentist, Rockwood Building, Telephone No. 25.

Dr. Withers, Dentist, Union Block.

**CITY CORDIALS.**

—A special council meeting will be held this evening.

—Mr. Jos. Martin is suffering from a severe attack of diphtheria.

—"Nothing in this world can last," not even a man's store clothes and as a rule they don't last long.

—The regular meeting of the Chautauqua club will be held tonight. All members are requested to be present.

—It is easy to be seen who receives the most benefit on payday from the employes of the B. & M. company.

—The journals which were manufactured at the B. & M. shops, were sent out this morning for experiment, to Omaha, and from there to Schuyler.

—Some of the city fathers attempted to hold another council meeting last night, but as a quorum could not be secured the meeting was again adjourned.

—Mr. S. Waugh's little boy, who is sick with membranous croup, was reported to be much worse last night, but this morning he was slightly improving.

—A certain citizen asked last night if the cow ordinance was still in existence. Yes, it is in the books, but the pages bearing record of it do not bare the signs of study.

—The members of the Bachelors Social Club will entertain a number of their friends at their rooms next Monday night by a progressive whist party. This will be the introduction of progressive whist into the city.

—In a political argument today one of the politicians believed that the democrats would run Cleveland for president in 1892. His friend remarked that it would be impossible to secure his post office address by that time.

—Some of the worthy residents of Gospel Hill wish the HERALD to inform the authorities that unless the cow ordinance is enforced that they will be obliged to use their shotguns. We believe this is a gospel truth, and that they mean business.

—Six, class H, mogul passenger engines with 68 inch drivers and 19x24 cylinder will be received here the latter part of the week, to be used on the B. & M. One of the engines will be put in charge of John G. Roberts on runs numbers three and four. Ten, class A, engines (ordinary) are expected by the last of March.

—Mr. J. A. MacMurphy, who was for many years connected with the HERALD and who has since his departure from here, resided in Omaha, purchased a fine farm the other day about five miles from that city and has since moved his family to their new home. Mr. MacMurphy and family are well known in this city, and their many friends here will be pleased to hear Mr. MacMurphy's success and enjoyment in his new made living.

—No. 5 was made two hours late this morning and the passengers conveyed the information that the delay was occasioned by a wreck which occurred at Creston, Ia. No. 5 ran into the rear of a freight which was standing in yards and seven freight cars were smashed. The engine was badly disabled and the train was obliged to jump after setting the air brakes to save their lives. No one was injured.

—Two hums were run out of the city last night, and the citizens can breathe a little more freely, if not much. The city is still infested with vagabonds, and the sooner they are gotten rid of in some way the better it will be. A burglary any night would not surprise us much if these intruders are allowed to remain in the city. They should not be locked up because they are all to anxious to be harbored in jail until they rest a permanent drunk off.

—On February 26th, the B. & M. will sell round trip excursion tickets to Alamosa, Colorado, at the rate of \$30. Tickets will be limited for going passage to five days from date of sale, and for return passage to five days from date stamped on back, with final limit of twenty days from date of sale. To holders of these tickets the C. & R. G. R. R. will sell excursion tickets for \$1 from Alamosa to Fort Garland, La Jara, Del Norte, Monte Vesta or Antonito and return.

—The reporter called up the central telephone this morning and asked for a certain number from which came a speedy response. Before he sprang the usual salute he heard orders given at some point along the line, which left him under the impression that some one was in the act of preparing breakfast. The first words he heard were: "Are those pancakes ready?" and "hurry up with those pancakes, I'm waiting," by a gruff voice. Before he could hear a reply to confirm the idea that he was soon to have some pancakes, the man at the exchange abruptly stopped his fun by rudely shutting him off.

EDITOR HERALD:—Dear Sir, Please allow me room in your valuable paper for a few lines concerning my friend Zimmern and Kitty, his sweet heart. My friend and I were on extremely good terms and he would inform me of many things that he would not once think of telling any one else. He has been a very bad fellow since he and Miss Kitty abandoned a social hop at Mr. Q's one evening about the first of January. He would have some very queer actions during the night, which would remind me of one who had the night-mare. He could roll himself up in the bed clothes and grit his teeth most horribly until I could awaken him by a few slight chugs at the short ribs and threaten to kick him out of bed, and as I was the strongest of the two he would readily submit to quiet. I would then have a little peace until he would again awaken me by his dreams and fearful groans. He would very seldom relate his dreams to me but he had dreamed one dream so repeatedly that he concluded to counsel with me in regard to the matter and, of course, I was very anxious to help the boy out of his trouble and misery, if it was in my power to do so. He soon related his dream. Miss Kitty, on their way to the ball that night lost a very valuable fur collar, which had been presented to her by her cousin, Zimmern had dreamed of seeing the collar at different places, but as he did not believe in dreams he would never look for the collar in those places. I knew where there was a stump in which something lived. I told him that I believed in dreams and at last persuaded him to examine the stump with a view of discovering the lost property. He went to the stump and being anxious to learn if there was anything in dreams immediately ran his arm in full length. When he, and behold, he felt fur, he drew the varmint harmlessly out of the stump, then went home to change his clothes, while the friend made his escape unhurt. My friend is now in other parts and I have never learned whether he has found the lost property or not. I hope he has, and is doing well.

Mrs. A. T. Wills was made glad a few days ago upon receiving news from her son Fred, who was induced by reckless and perhaps thoughtless boys who were older than himself, to leave home about the middle of last August. The received no intelligence from him up to this time. "There is no place like home be it ever so humble."

The Rev. Howes on the Mt. Pleasant and Eight Mile Grove circuit, held a series of meetings a short time since with little success he is now conducting a meeting at M. P. with good success. We are glad to learn of the good work going on.

—Mr. Frank Rounds an employe in the blacksmith shop of Mr. Robt. Donnelly made much ado about nothing last night, and Capt. Cassock was again caused considerable trouble by a false report from him. Mr. Rounds recently purchased a house which has been occupied by a colored man for some time whose character was not a creditable one. The "coon" lately shipped out and left his furniture in the house. When Rounds purchased the house he was told to take possession of the furniture until the colored individual should return, and if he did not return within a certain time to keep it. Among the rubbish which he removed from the vacated house yesterday to the one his family occupies, was a large heavy trunk. This aroused his curiosity. The suspicious character had skipped out suddenly and Rounds surmised a hundred different things. The trunk was so heavy that he supposed the "niggers" had done some crooked work, and probably murdered one of the family and deposited the body in the trunk. When the trunk was opened and stuffed clothing found, he was satisfied that his statement was correct and started out in pursuit of the crooner.

A professional tramp and expert solicitor who evidently carried around about as much fire water as he could walk in a rail fence fashion with, posted himself against the front of a business block last night and tackled nearly every individual who chanced to pass his way, for something to eat. "Before supper?" asked the tramp with a sarcastic grin. When he was informed that he could only get his supper by working for it, he said: "Saw wood before—before supper—his—say partner, yo—yo—you must take me for a champ. Not by a d—n sight. I'll saw noo—wood for no man—hic—until I get my supper." When he had been refused assistance a dozen times or more, he stopped a man with a heavy beard, who was coming down street and wanted to chew his whiskers.
