Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of censumption and that no medicine could care her. Her Druggist suggested Dr. King's new discovery for consumption; she bought a bottle and to her delight found herself benefited from the first dose. She continued its use and after taking ien bottles, found herself sound and well, now does her own housework and is as well a she ever was. - Free trial bottles of this great discovery at F. G. France Preparing to Deal with the Fishery Question.

A HURRICANE SWEEPS SOFIA.

Modernizing Venice-Leprosy's Spread-International Council of Congregationalists-Germany's Advance in Africa-Young Bismarck to Marry.

Paris, June 2 .- A bill has been deposited in the chamber of deputies, incked by the ministers of finance, marine and commerce, extending the fishery boundary system until June, 1891. The preamble of the bill complains of the aggravations and difficulties to which French fishermen are subjected by the restrictions of the Newfoundland government. M. DeMond will offer an amendment that the bill ought to be framed in such language as to compel Newfoundland to accept the arrangement entered into between England and

Modernizing Venice. LONDON, June 2.-The syndic of Venice has created a sensation and aroused popular indignation by the work of modernizing, and consequently vandalizing, the square of San Marco, in front of the cathdral of that name, really the only open space of any size in the city of the doges. Popular protest seems to be of little avail, however, and the work is to be pushed as rapidly as possible. The improvements will neces-sitate the removal of many objects in-

teresting to the visitor because of their

ancient origin and historic associations. Leprosy's Spread. London, June 2. - Leprosy has increased to such an extent in Cape Colony that a hospital for lepers has been founded on Robben island, near the African coast. Other hospitals will also be needed to deal with the evil. In India legislation is urgently demanded for the suppression of leprosy. Six lepers were lately arrested while begging in the markets at Bombay. They were tied to a tree near the court house, the megistrate hearing the case from the veranda. He sentenced them to one

day's imprisonment.

LONDON, June 2.-The Congregational Union of England and Wales has resolved to summon an international council of Congregationalists to meet in London during the first half of July, 1891, and to consist of about 300 members, 100 for England, 100 for the United States, and 100 for Wales, Ireland, Scotland, and the colonies. The council is to be of a deliberative character.

Germany's African Star Is Bright. Knocked Silly in One Round. El Paso, Tex., Jane 2.—Chas. Herald of St. Paul and Tom Standard (colored) of this place fought just over the New Mexico line near here early in the morn-

ing. Standard led with a right hander on Hearld's side and cleverly dodged two blows, but Hearld then caught him in the neck with a swinging right hand blow and knocked him silly. Standard failed to respond to the call of time and the fight was given to Hearld. Time, 2 min, 40 sec. Hearld weighed 1384 pounds and Standard 144. Several hundred spectators went from this city by special train to see the fight. Standard has a great reputation in the southwest as a hard hitter.

A Hot and Furious Battle, CHICAGO, June 2.—Mike Quesum and Bob Forguson, heavyweigh a of this tity, fought for \$500 a side and the gate receipts at Thayer, Ind. Queenun was The fight was one of the bottest and most furious that has occurred in this vicinity between heavyweights for a long time. Ferguson was practically uninjured, while Queeran was terribly bruised and battered.

McCleery Was a Beach Varmer. San Francisco, June 2.—The billiard contest between Schaefer and McCaecy closed. Schaefer scored anothe 1,900 points, while made a continuous true of 3,000 points for three nights. To Cleary bad no opportunity to use his cue after the first night of the contest, when he scored 15 points. The score at the close stood 3,000 to 15.

Walked on the Waters. Baltimore, June 2.—Prof. Charles W. Oldrieve, the young aquatic expert of Massachusetts, gave an exhibition of walking on the water at Fairview, near here. He walked out a half-mile, exploding bombs all the way. His effort was a great success.

South Dakota Farmers' Convention HURON, S. D., June 2.-The South Dakota Farmers' Alliance hold their anqual convention here Wednesday. Letters and telegrams from all parts of the state received here indicate that from sho to 1,000 people will be here. The Black Hills counties will send large dele-gations both to the Alliance meeting and the sheep and wool growers' convention, which meets Tuesday, 'It is generally understood that politics will be a promnent feature the Alliance meeting, and it would not be surprising if they determine to put a straight Alliance ticket into the field.

A Bakers' Trust.

Indianapolis, Ind., June 2.—Articles of incorporation of the largest company ever organized in Indiana were filed here. It is the United States Baking ompany, which will do a baking busicompany, which will do a baking busi-ress in this state. The company repre-sents a consolidation of the leading baking firms in western Pennsylvania, Ohio, Michigan and Indiana. The headquarters will be located at Rich-mond, Ind. Each firm takes stock to the value of its plant. It is expected that the company will be able to con-trol the banking business in the west.

The Mill Hands at Buffalo.

BUFFALO, N. Y., June 2 .- It is evident that the mill-hand strike is approaching its crisis. After a well attended mass-meeting several of the other unions came to Secretary Tryon for instructions, and it is now a very doubtful question as to whether some of the trades will not go out in sympathy with the mill hands. A secret session of the mill hands will be held to-day.

They Were Too Glib.

NEW YORK, June 2.- The contract labor inspectors at the barge office prevented seven Belgian glass blowers from landing. The men all have tickets for Glassboro, N. J. They answered the inspectors' questions so glib-ly as to show that they had been coached by some one on the other side. Their cases will be carefully investigated.

Labor's Choice. PHILADEPHIA, June 2.—The Reading railroad company has ordered its con ductors to leave the Brotherhood or resign. This action is taken because the Brotherhood at its recent meeting in Rochester repealed the anti-strike clause of its constitution. Superintendent Bonzano says the Reading will hereafter

The Work of the Eleventh Census Begins To-day.

ANARMY OF MEN, A MINT OF MONEY

Required to Gather and Compile the Returns-Mr. Brown Makes a Protest on McKinley's Sugar Schedule-The Congressional Forecast.

Washington, June 2.—The machinery for taking the census for 1800 will be put in motion to-day all over 'the United States, and as it will be pashed as expeditional caspossible, Superintendent enecked out in the twenty-second rand; Porter anticipates early returns to his office so that the work of tabulating can be entered upon and completed within a reasonable period. All the preliminary natures have been arranged, blanks prepaned, enumerators instructed as to the r duties, and all that remains to be done is to collect the data [waich it has been decided shall become a part of the ensus. It requires 44,000 men as commgrators to gather the requisite information, and each of these is either employed in a definite locality or upon some special topic. This, however, does not include the additional thousands of clerks em proyed in collecting and tabulating the returns made that will come back from all over the country as the result of the labors of the enumerators, so it can be seen at a glance what a corps of men it requires, and Immense Sum of Money

> must be expended to accomplish this undertaking. Mr. Porter has accepted and confirmed the supervisors' selections of enumerators except in a few instances, where the fitness of the appointees was questioned, and, if it was shown that they were incompetent, others were substituted. In the south, in some places, objection was made to the appointment of colored men, but the supervisors being held responsible for their men, he concluded to trust to their discretion, and declined to interfere upon that ground. It is known, however, that appointments of this kind are few, and even in the case of a colored supervisor nearly all the enumerators designated by him are white men. It is not anticipated that much trouble will be experienced in obtaining

that are to be propounded, but where refusals are met with they will be it once reported and steps taken to enforce. The superintendent is not given any discretion in the matter, but it is made obligatory upon him to report each and every person who fails to comply will the requirements of the law to the prope persons, who will institute a vigorous prosecution against the violators of it It is thought that some trouble will be now one of the best hotels in the state experienced in securing answers to the Boarders will be taken by the week at

Superintendent Porter, in response to telegraphic inquiries, heard from more than a hundred of the census supervisors in various sections of the country, saying that everything was in readiness to begin the work. He has no doubt but what all are ready and that the work has begun in each and all of the 175

districts without but he or obstacle.

The River and Harbor Bill. Washington, June 2.—The absence from the city of Senator Frye, the chairman of the commerce committee, has delayed the consideration of the river and harbor bill on the senate side of the Capitol. The delay is not all serious, as with the silver bill and the tariff bill hanging fire, it is not likely the river and harbor bill will have much chance of being considered within the next month. Sepator Frye will return to the city on Tuesday of this week, and the committee will then begin in earnest the consideration of the bill. It has been determined that no hearings will be given to the representatives of the different interests affected by the bill, but members of the senate will be given hearings on the improvements asked by their states. The bill will be taken up in the order of the appropriations, and the first week will probably be con-sumed in debating the appropriations for New England. The Pacific coast comes at the bottom of the list, and it will be last considered. There is very little doubt that the bill will pass the senate, probably with the appropriations materially increased. It will be in conference for some time, but will doubtless go the president before the adjournment of congress.

The Congressional Forecast. Washington, June 2.-The senate will resume to-day the suspended silver debate. Senators Pugh, Aldrich and Sherman are booked for long speeches. and as a great many other senators desire to be heard, no limit to the debate can be fixed. It is likely to be suspended once or twice during the week to permit the discussion of bills from the committee on appropriations. In the house the silver bill agreed upon by the Republican caucus of the house will be dissected during the week in committee of the whole. The bill will be called up probably on Wednesday, and the rest of the week will be consumed in debating it. It cannot be definitely stated that the bill will be acted upon before the end of the week. Tuesday has been set apart for the consideration of the contested election of McDuffie (Rep.) against Turpin (Dem.), from Alabama. The Republican majority of the elections committee has declared in favor of seating McDuffie, and there is no doubt that this will be done.
