FRIDAY, MAY 8, 1891

The Chicago Herald has located the exact center of population of the United States and planted a monument at the point. It is located eleven miles south and two miles west of Greensburg, Indiana.

It is of record that our ex-Speaker Tom Reed was as cool as a cucumber when the powder exploded and nearly upset the Vatican and broke half the windows in Rome. Tom had heard Kilgore and a lot of other democrats explode themselves so often during the last session that the incident at Rome was a chestnut. State Journal.

Governor Boyd had provided upon the reform legislature to give him an extra clerk and to raise the salary of his private secretary to \$2,000, and when the time for surrender came these spoils had to be left in the hands of the conquerors. That was the saddest feature of the whole evacuation for some of the boys. Ex.

The United States would be very glad to present the 200,000 or 300,000 immigrants which she will receive this year to Canada, Mexico, Brazil or some other sparsely settled country if she were in a position to do this. It appears evident now, despite the restrictions of the new law, that the quantity of this year's immigration will be much larger than usual and the quality much worse.

The offer of the United States Government to mediate between the hostile factions of the republic of Chili is a motion along the line marked out by the Pan-American Congress. Most properly the great American republic of Brazil is made a party to the act of mediation, and the proposal of France to act in conjunction with her sister republics must be considered as welcome.

The great need of the republics of Central and South America has been a stable form of government. If by arbitration of sister republics future revolutions or rebellions can be averted or prevented a large saving of human life can be made, and an infinite addition to the wealth of nations effected. It is all but impossible to guess what the wealth and commerce of South America would be after half a century of peaceful development of the mechanical and agricultural arts.

A TELEGRAM to the Globe-Democrat from Chicago, in the following terms discloses the sale of the controlling interest in the ablest republican paper west of New York. The telegram says:

At the meeting of the Daily Newspaper Association at the Union League Club to-day Hon. Wm. Penn Nixon, editor of the Inter Ocean introduced Mr. H. H. Kohltsant, and announced that he had become the proprietor of the controlling interest in the Inter Ocean. Mr. Nixon and Mr. Kohltsant have for a long time been warm personal friends, and it seems that last October an arrangement was made between them by which Mr. Nixon was to purchase for Mr. Kohltsant the stock of all outside holders, and the newspaper was to run as a joint enterprise. During the latter's absence in Europe the stock was secured, and he returned last week to consummate the arrangement. The entire stock of the corporation is now owned by Mr. Kohltsant, Mr. Nixon and his brother and other members of the Inter Ocean staff. It is understood that there is to be no change in the personnel of the paper or in its editorial conduct. Mr. Nixon will continue editor in chief, he and his brother retaining the interest they have so long held. The capital stock of the corporation will be increased, and all the money needed to push the paper forward to the highest success will be put into the business. Mr. Kohltsant has long been known as one of the most successful of Chicago's business men, and has ample capital and energy to push any enterprise he connects himself with.

There is one fact so plain that no one need be mistaken, and that is no person can have good health where the blood, the very life itself, is in an unhealthy and impure condition. We guarantee Haller's Sarsaparilla and Burdock Compound to remove all humors and impurities from the blood and eradicate every particle of disease from the system. For sale by all druggists.

CHAS. L. ROOT, Notary Public, Murray, Neb.

DON'T BE DUPED. There have lately been placed upon the market several cheap reprints of an obsolete edition of "Webster's Dictionary." They are being offered at a low price.

By dry goods dealers, grocers, clothiers, etc., and in a few instances as a premium for subscriptions to papers.

Announcements of these comparatively worthless reprints are very misleading; for instance, they are advertised to be the substantial equivalent of "an eight by twelve dollar book" when in reality from A to Z they are all

Long Since Obsolete. The supplement of these so-called "new words," which some of these books are advertised to contain, was compiled by a gentleman who has been dead over thirty years, and was published before his death. Other additions are probably reprints of a like character.

The Genuine Edition of Webster's Unabridged Dictionary, which is the only one familiar to this generation, contains over 200,000 words, with illustrations on nearly every page, and bears our imprint on the title page. It is protected by copyright in its own limitation.

Valuable as this work is, we have at vast expense published a thoroughly revised successor, the name of which is WEBSTER'S INTERNATIONAL DICTIONARY.

Sold by all Booksellers. It costs—duplicates free. G. & C. MERRILL & CO., Springfield, Mass., U.S.A.

Patents. A pamphlet of information and a complete list of the names of the inventors of all the patents granted in the United States since 1790. Published by MUNN & CO. Scientific American Agency, New York.
