When The Hair Shows signs of falling, begin at once the use of Ayer's Hair Vigor. This preparation strengthens the scalp, promotes the growth of new hair, restores the natural color to gray and faded hair, and renders it soft, pliant, and glossy.

All the dirty,ummy hair preparations should be displaced at once by Ayer's Hair Vigor, and thousands who go around with heads looking like the fretful porcupine should hurry to the nearest drug store and purchase a bottle of the Vigor.

HOW ENGLAND IS AFFECTED BY RECIPROCITY.

The London correspondent of the Manufacturer referring to the policy of reciprocity, says that this piece of Mr Blaine's statesmanship was not at first appreciated in England at its true value. John Bull however, is beginning to open his eyes to the consequences of a policy which threatens to take away from him many a market that he has hitherto monopolized. Mr. Blaine has hit John Bull hard on more than one occasion, but reciprocity is one of the hardest blows he has delivered. "The British exporter," writes the London correspondent to the Manufacturer, "is beginning to appreciate the seriousness of the situation. The reciprocity clause is applicable to very many English possessions. It has already been coquetted with by its West India colonies who see as clearly as possible that their interests lie with the United States and not with Great Britain. Queensland, Natal and a few other equally promising colonial dependents will, no doubt, soon be nibbling at the tempting offers held out by the United States. All English colonies producing molasses, sugar, hides, tea, and coffee will begin to ask themselves whether it would not be well to receive American manufactured goods at a preferential tariff if they can send their produce to such a free market as America. What, then, will be the attitude of England towards those colonies if they are determined to make the best bargain for themselves? Will British goods be discriminated against in British possessions? And, if so, what will become of the colonial trade? Perhaps, unknowingly, the reciprocity clause will be the corner stone upon which British Imperial disintegration will work.

It would be a cruel piece of legislation if the McKinley act not only partially destroyed English trade, but acted also as a powerful lever towards destroying the British Empire itself.—Irish World

The Sargy Sentinel printed at Papillion is a little the liveliest alliance paper that reaches this office.

A DEMOCRATIC contemporary writes: "Campbell is in the lead" but strangely enough omits the rest of the sentence, "of a forlorn hope."—Ex.

A MOVEMENT is on foot among New York City colored people to raise \$75,000 for a colored soldiers' monument. National cooperation will be solicited.

GOVERNOR THAYER is out in the new county of Boyd trying to settle the county seat squabble fairly between the contending factions, who have worked themselves up to a white heat.

The fellows who are trying to knock out Col. Mayfield of the Elmwood Echo, have tackled too big a job. The Echo is a credit to the town of Elmwood and deserves a hearty support.

OUR exports to Brazil during May 1891 show an increase of 80 per cent over the exports to the same country during the same month one year ago. This republican administration is ruining the foreign commerce of the country at an alarming rate. It is "stifling" and "smothering" trade whenever it has a chance.

It is claimed by the Norfolk papers that the farmers in that vicinity will realize \$30 per acre for their sugar beets. If half of that amount is expended in cultivation and marketing it would still leave a net balance of \$30 per acre which is nearly twice the value of the land. Sugar beet raising ought to become popular.

EUROPE is evidently trying to take lessons from the United States in the matter of husbanding commercial and industrial opportunities. The nations comprising the Triple alliance are perfecting a great customs league for their mutual advantage, and agreeing that none of the contracting powers shall make any commercial treaty with another country without the consent of the members of the league. They have admitted Switzerland into the combination, but England, France, Spain, and Portugal are regarded as outsiders. The conditions are entirely different from those prevailing amongst the free nations of the American continent, where there is a natural community of interests and where the industries are so varied that a vast system of exchange of products can be effected without the injurious competition which enters into foreign trade. It will be interesting to note the effect of the Alliance upon the trend of trade between the parties to the league and the neutral States.

How to Succeed.
 This is the great problem of life which few satisfactorily solve. Some fail because of ill health, others want of luck, but the majority from insufficient grit—want of nerve. They are nervous, irresolute, changeable, easily get the blues and "take the spirits down to keep the spirits up" thus wasting money, time, opportunity and nerve force. There is nothing like the Restorative Nervine, discovered by the great specialist, Dr. Miles, to cure all nervous diseases, as headache, the blues, nervous prostration, sleeplessness, neuralgia, St. Vitus dance, fits and hysteria. "A God-send is Ely's Cream Balm. I had catarrh for three years. Two or three times a week my nose would bleed. I thought the sores would never heal. Your Balm has cured me."—Mrs. M. A. Jackson, Portsmouth, N. H.
