COR FIFTH AND VINE STS

PLATTSMOUTH, NEBRASKA

A July Episode.

He stood before the shop window gazing at the display of fireworks...

"Give me one yer bestest oranges an a peach," he said. The Italian looked at him...

He received the orange and peach which he tucked into the pockets of his ragged trousers...

"What's yer been gotten—firecrackers?" he asked in eager tones.

"Naw," replied the other. "Me little sister's sick, an' the dispensary doctor says she ain't a-goin' ter see no Fourth...

"An' yer not goin' ter have no firecrackers?" ejaculated the other boy.

A Secularist "Christening."

On Sunday evening, at the Hall of Science in London, G. W. Foote, president of the National Secular society, performed a ceremony which has of late become almost obsolete among Freethinkers...

Then Mr. Foote, having kissed the baby with due solemnity, named it "Carlisle Bradlaugh Owen Golding."

Coal in a River.

During the several freshets which have occurred in the Susquehanna river the past spring a vast amount of "culm" from the anthracite coal fields floated down the river with the debris coming out of the North Branch and its tributaries...

A considerable quantity of egg or larger sized coal is also gathered from the bottom of the river, where it is lodged among the gravel, and is removed in a perfectly clean state.

A Dog's Sympathy.

Saturday afternoon a case of remarkable sympathy on the part of a dog was witnessed on Church street, near the postoffice. A small dog strayed out into the street and was run over by a passing vehicle...

To Keep Insects Off from Trees.

The tying of a piece of wool round a tree stem to keep down the bugs and vermin is a poor idea, because it is based on the supposition that all these nuisances ascend from the ground, whereas in most instances, the eggs are laid in the foliage above the supposed guard.

Seats a Hundred Francs.

Three hundred seats at a hundred francs per seat, and all of them filled. This, briefly, was the result of the recent ultra fashionable charity performance given by the Duchesse d'Uze.

A Troublesome Question.

The boundary line between the United States and the British possessions in North America once more threatens to become the subject of international dispute, conference and arbitration.

Each year that the boundary line between Alaska and British Columbia remains in question increases the difficulty of determining it.

Returned After Thirty Years.

The return to Milwaukee of Kyle A. Sidley after an absence of forty-one years is to his relatives almost as if the dead had come to life.

In 1861 Mr. Sidley went to Australia. For some time his relatives heard from him regularly. Suddenly the correspondence ceased, and for thirty years he was mourned as dead.

Three years ago he employed a lawyer to find his relatives, and after a few months he was in communication with them. This year Mr. Sidley, now sixty-two years of age, decided to visit his relative in Milwaukee, and he arrived there this week from Australia.

Mosquitoes in Paris.

Mosquitoes are, I venture to say, for the first time within the memory of the oldest inhabitant, a plague of many parts of Paris.

I never suffered so much in warm weather in any part of the south of France from mosquitoes as I have here this week. If one sits by a lamp near an open window along many of the boulevards a swarm of them assails one.

One Is Where the Heart Is. A family, consisting of man, wife and baby, is living in a big dry well in an open field just off Mount...

A Queer Ocean Chase. The ocean tug Britannia is engaged in a chase after a Maine vessel that is floating on the ocean with \$20,000 worth of mahogany in her hold.

A new system of protection for gunners in exposed places on men-of-war is to be adopted by the navy department—a wire webbing made of intertwining spirals remarkably flexible and strong.

The Chilian war has had a very serious effect on the English hatmakers who supply the majority of Chilians.

A fly-wheel weighing over twenty tons, and twenty feet in diameter, with a 42-inch face, is a casting of no mean measurement.

R. PETERSEN

Always in stock. Nov. 26, 1885.

What is

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

Dr. G. C. Osmond, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various emetic nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

Dr. J. F. Kinschler, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. Archer, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

The Centaur Company, 71 Murray Street, New York City.
