REPUBLICAN STATE CONVENTION.

The republican electors of the state of Nebraska are requested to send delegates from their several counties, to meet in convention in the city of Lincoln, Thursday, September 24, 1891, at 10 o'clock a. m., for the purpose of placing in nomination candidates for one associate justice of the supreme court, and two members of the board of regents of the state university, and to transact such other business as may be presented to the convention.

THE APPOINTMENT

The several counties are entitled to representation as follows, being based upon the vote cast for Hon Geo. H. Hastings, for attorney-general in 1890, giving one delegate-at-large to each county, and one for each 150 votes and the major fraction thereof:

MORE TIN AND TIN PLATE.

On Friday the Temescal tin mines shipped to the American Tin Plate Company of St. Louis 38,000 pounds of pig tin produced, smelted and refined at Temescal. That company now has orders on hand from newly formed tin plate companies in the United States for over \$300,000 worth of block tin, and is running day and night with three shifts of men to meet the demand.

What will our democratic and mugwump friends say to this? Will they still insist that we cannot and will not make tin plate in the United States, and that we ought to continue, as heretofore, filling the Welshmen's pockets at prices which they name? Will they claim now that the McKinley bill is a mere empty form of words, or that it will not foster and encourage at least one domestic industry? It must be borne in mind that nineteen tons of block tin mean at least 600 tons of tin plate, the tin being about 3 per cent of the so called tin plate. Six hundred tons of tin plate is not very much, but it will be enough to disprove the free trade assertion that tin plate in marketable quantities is not made in the United States. This shipment, too, is only a single one, and will be followed by others just as fast as the ore can be mined and milled. The Temescal company expects within sixty days to be smelting from four to six tons of block tin per day, and to increase the output far beyond that within a short time.

We are going through just the same experience with tin as we had with steel rails, with wire nails, with cotton fabrics, and with every kind of manufacture that a protective tariff has encouraged. We

were met with the same derision, the same slanders and falsehoods, and the same predictions of failure, but all these industries have succeeded, and tin plate making will do the same.—San Francisco Chronicle.

SICK or well, Bright's disease or no disease, candidate or no candidate, Secretary or citizen, James G. Blaine holds a bigger place in the popular heart of this country today than any other living man.—Globe Democrat.

THE owners of Kentucky whisky owe Uncle Sam in round numbers \$18,000,000 for taxes on whisky, which they will have to pay soon unless the time of payment is extended. As Democrats have contended that the Treasury was "hard up" they might be taken at their own word, and be asked to pay promptly. There is no reason why the payment of the tax should be again extended. Let Uncle Sam have the benefit of the money and the Democratic party the benefit of the whisky.—Inter Ocean.

IN "The Boston Transcript" some one tells what the present leading authors of the country were doing in 1855. Mr. Howells was setting type in his father's printing office, and he has never been ashamed of it, either; it is twenty to one that he was an excellent compositor. Charles Egbert Craddock roamed a little child, upon the Tennessee mountains, and Celia Thaxter gathered pimpernels upon the wind-swept Isles of Shoals. All these young people then and a little later, must have found very little inspiration for their baby geniuses in the current literature of that day, as this contributor gives an account of it; the idols of people were Fanny Fern and Fitz Greene Halleck and Timothy Titcomb. Sentimental maidens pored over "Bittersweets" and "Godey's Lady's Book," and the general literary tone was decidedly weak. A vast deal that was good had already appeared in 1855, but the people hardly knew it. As to the only great piece of fiction of the period, "Uncle Tom's Cabin," people were divided between declaring that it was rubbish and asserting that it was the work of Henry Ward Beecher and not Mrs. Stowe, because no woman could have had brains enough to write it!

REFUTING A STANDARD DEMOCRATIC LIE.

The Fifty-first Congress did not appropriate "over a billion of dollars," but just exactly \$888,410,129, or \$170,446,269 more than the Fifty Congress. Of this excess \$25,321,907 was for a pension deficiency which the Democrats of that Congress dishonestly left unpaid; \$23,667,343.58 was for postoffice bills, three-fourth of which will be returned to the Treasury; \$7,307,146.70 for the purchase of Indian lands that will sell for three times their cost; \$14,042,344.60 was to meet contracts for naval vessels heretofore authorized, and \$72,688,336.99 to pay new pension under the new act authorized by the people in 1888. The balance went in census expenses, harbor defenses and improve ments, and World's Fair appropriations. As to the revenues, they were reduced, and unjust taxation was not continued. As we have already demonstrated in these columns, the people are enjoying under the McKinley bill a greater volume of trade than ever before, while they are paying less taxes.—Inter Ocean.

Will you suffer with Dyspepsia and Liver Complaint? Shiloh's Vitalizer is guaranteed to cure you. 2

Good News!

No one, who is willing to adopt the right course, need be long afflicted with boils, carbuncles, pimples, or other cutaneous eruptions. These are the results of Nature's efforts to expel poisonous and effete matter from the blood, and show plainly that the system is riding itself through the skin of impurities which it was the legitimate work of the liver and kidneys to remove. To restore these organs to their proper functions, Ayer's Sarsaparilla is the medicine required. That no other blood-purifier can compare with it, thousands testify who have gained

Freedom

from the tyranny of depraved blood by the use of this medicine.

"For nine years I was afflicted with a skin disease that did not yield to any remedy until a friend advised me to try Ayer's Sarsaparilla. With the use of this medicine the complaint disappeared. It is my belief that no other blood medicine could have effected so rapid and complete a cure."—Andres D. Garcia, C. Victoria, Tamaulipas, Mexico. "My face, for years, was covered with pimples and humors, for which I could find no remedy till I began to take Ayer's Sarsaparilla. Three bottles of this great blood medicine effected a thorough cure. I confidently recommend it to all suffering from similar troubles."—M. Parker, Concord, Vt.
