The will of Elisha Stradley of Greenwood was found yesterday by Clerk Grimes. The contents or subject matter of the will was proven by oral testimony, which, for all practical purposes, would answer. Parties interested, however, doubtless will be glad the will has been found.

The committee appointed to investigate the Hastings asylum has completed its work and yesterday submitted its report to the governor. The report is a very damaging one to all who are connected with the asylum. The governor should proceed at once to oust the whole lot without a moment's delay as he should have done in the start as the committee requested.

The second meeting of the Young People's Societies of the different churches, to perfect the organization of a union was held at the Presbyterian church last evening. A constitution was adopted and officers as follows elected: President, Mr. C. S. Polk; Secretary, Miss Laura Twiss; Treasury, Miss McClelland. This organization does not supersede the regular organizations of young people but is simply a plan to insure a greater degree of sociability, and mutual helpfulness among the members. The first meeting will be held next Sunday evening at the M. E. church, led by Prof. Halsey. All are invited and urged to attend.

An extra amount of freight work was done at the freight house to-day.

Damage caused the platform, side track and switch by the derailing of cars Wednesday evening is being rapidly repaired. The company are leveling up the track and making other needed repairs.

The Omaha Bee advises Council Bluffs not to advance the price of lots on the bottom as the smelting works will remain in Omaha, reports to the contrary notwithstanding.

H. E. Brown, of Harby, Idaho, arrived in the city last evening to visit his brother, O. A. Brown. Mr. Brown is a prominent pharmacist of Harby, and it is reported that he is looking up a location.

Dr. L. B. Baw, came in last evening on a business trip from Pacific Junction and returned this morning. The Doctor has but recently located there but will doubtless build up a lucrative practice ere long.

Mr. and Mrs. J. E. Reed, of Pacific Junction, came down last evening to trade with our merchants, and returned this morning. They think that the inducements offered by our merchants amply pay them for the trip.

It would be a great help to the farming community, our merchants and people generally, if arrangements might be made to start the canning factory this season. These enterprises should not be allowed to remain dormant.

Owing to a war in sugar rates, between the sugar trust and Claus Spreckles, inaugurated by the latter, granulated sugar is selling at 392 cents per pound in Philadelphia. If this continues it will beat McKinley prices even.

It is reported that the Cranes, of Omaha, refuse to play the Burlington, of this city, in consequence of which the game announced for Sunday will fail to materialize. Evidently the Burlington's made a "rep" while at Omaha last Sunday.

A man whose brain was crazed with liquor lay on the track near the station this morning and would have been horribly mangled by the train had not the yards men delivered him from danger. The police took him off to jail to sober up.

Gov. BOIES of Iowa does not talk much these days, unfortunately for the republicans, but the boom that party received by his speeches during the year will insure them a good plurality, even tho' he remain silent during the remainder of the canvass.

In pursuing the daily papers we frequently notice the announcement that persons have been injured by mad dog bites. The season of the year in which the greatest danger exists is now upon us, extra precaution in regard to the matter, should be taken by our people.

Since the announcement that the smelting works would close, indefinitely, there is strong talk on the part of the company, of consolidating the Omaha works with those at Denver, Col. In view of this Omaha is threatened with the loss of one of her important business enterprises; and in the event she does we predict that hurling words of disapproval at the "iniquitous" eight hour law will be indulged in by Omaha. In the mean time Denver is offering inducements that are very tempting to the company, and to be sure she will lose no opportunity to secure the prize.

### WEeping WATER FROM THE REPUBLICAN

We have heard farmers say that the corn crop was about two weeks behind that of former years, but that six weeks more of good corn weather would be sufficient to bring it out nice and sound.

P. T. Barnes, armed with the proper papers, entered the Sewing Machine factory and attached the machinery, etc., for taxes. Something over \$700 being delinquent. This, we understand comes ahead of mortgages.

Miss Nellie Beardsley and her friend Miss Cassell had the misfortune to get badly poisoned, Saturday. Their faces are badly swollen at present, but we hope they will be out in a day or two.

Between thirty-five and forty suits have been filed with Justice Barr by different persons against the Noble Sewing Machine & Mfg. Co. All have been transcribed to the district court. These are by employes for back pay and by parties in Iowa who hold the Noble Heights notes. The smallest of these claims is \$532 and the largest \$163.50 and the total is \$1,695.57.

S. F. Jameson, brother of Tom and Will, was very badly bruised last Friday. A neighbor's team at his place attached to a wagon, containing two children, ran away, and Mr. Jameson in attempt to stop them caught the halters instead of the bridal and was then thrown under the horses and the wagon ran over him bruising him and in juring his back and his hips badly. It was a brave act, as he took his life in his own hands to save the children. Dr. Thomas was called to attend Mr. Jameson.

**Big Opportunity Now**  
to buy sample pair's of shoes at ridiculously low figures, come now; delay lessens your chance. Wm. Herold & Son's.

The latest plan for regulating the liquor traffic is one devised by Alderman Bowes of Kansas City. While probably not the most practicable, it must be conceded to be the most novel liquor ordinance yet devised. He proposes to do away with the trouble caused by licensing saloons by issuing licenses to the drinker instead. The drinker of beer will be taxed \$20 annually, and if he wishes to purchase wine in addition to beer the tax will be \$25; the privilege of buying beer, wines and whisky will cost \$30. The ordinance has not yet received a majority of the votes of the council, but it is probable that it will. It is argued that, in view of the present depressed condition of business in Kansas City, some plan must be devised that will create more revenue. This plan would surely enable the council to pay all municipal expenses, but we seriously question the general benefits that would accrue therefrom.

**Boys if**  
you want a fine dress shoe at a low price let Wm. Herold & Son's show you how cheap they can be sold, before you buy.
