Liverpool and return.

pared to light, being only able to get ism Here are eight of the answers. over to Europe and back in something like a second, or at the rate of only some ambles along at a million miles a minute gait. The Philadelphia scientists who are proposing to make further investigations are not satisfied to give up the record to sunlight, and hope to prove that the electrical current, if not handicapped, is the swifter element.

The most recent experiment was tried at McGill college, Montreal. The current was transmitted in Montreal, was transferred to the cable at the Newfoundland cable station by means of Thompson's mirror galvanometer, sent across to the station at Liverpool and returned to Montreal by the same method. The distance traversed, partly by overhead wire and partly by cable, was 8,000 miles. From the time the current left | metamorphoses. the key in Montreal until it returned to the receiver in the same office just one second and one-twentieth of a second had elapsed, and the conditions were not as good as they might have been; hence the further experiment to be made here.

The rapidity with which the current travels over short wires with no delay indicated unlimited possibilities in the direction of practical tests. Professor Marks, of the Edison Electric Light company, is authority for the assertion that if the globe was encircled with a continuous cable a current would travel us enjoy ourselves while the pains are the entire distance in a trifle over three seconds. At this rate a current would travel to the sun, covering the distance of 96,000,000 miles in three and a half | boddy not the head that is poisonous. minutes, or twice as fast as light.-Philadelphia Record.

Mrs. Pettis' Boat Floated Away. Emily, in Le Sueur county, met with an Youth's Companion. experience that she is not apt to forget for some time. She was out boat riding during the evening, and while out on the lake her boat, which was leaky, began to fill with water. She was in the vicinity of Cedar island, and rowed there for the purpose of bailing out the boat. She got on shore, and some discan, which she proceeded to get. She got the can, but when she returned she was horrified to find that a strong wind

accept the condition imposed by unkind fate and remain. She passed the night and was discovered next afternoon by a out sailing. One of the party, A. F. Everson, secured a skiff and hastened to the island to rescue the unfortunate woman from another night of horror a crowd of suitors. She was taken into camp and kindly no desire to spend another twenty-four hours in a like manner.—Cor. St. Paul

into the lake.

Revenge on a Widower.

A heavily veiled woman, dressed in black, entered the business office of one of the morning newspapers a few days ago and inserted a death notice, with the announcement of the funeral next day. Many friends of the deceased man read of his death with sorrow, and at the hour mentioned for the services stood in the street, but no hearse was visible, nor was there any crape on the

In fact, instead of witnessing the last sad rites the visitors found themselves ushered into a brilliantly decorated product required the labor of 87,939 men, room, in which a clergyman was about 646 women and 653 children. uniting their alleged departed friend to his second wife. The laugh went around. but the mystery was not solved until 1890, was \$23,559,334; the expenditure of some time after. It has since transpired steam and water power was reported as that his first wife's relatives were bitterly sufficient to lift 3,500,000 tons one foot in opposed to the widower's second marriage, and inserted the funeral notice in | merchantable timber were removed from | a spirit of revenge for the outraged feel- natural growth; \$7,890,254 were invested ings of the shade of wife No. 1.-Philadelphia Record.

A Great Year for Little Immigrants. A medical man who knows what he is talking about said recently:

"This is a baby year. I do not know how to account for it, but the statistics will bear out my assertion that some years are noted for the great number of births that occur. This year of our Lord 1891 is one of these seasons. If you will take pains to look the matter up you will find that 1884 was a very prolific year, and so was 1886 and 1888. Now we have 1891 with more than the usual number of happy families before 1892 comes to greet us. It is fortunate, too, that there has been comparatively little sickness among the children so far, which was not true of either 1886 or 1888."-Chicago

Storks That Fly Long Distances. For a number of years a pair of storks built their nest annually in the park of the Castle Ruheleben, in Berlin. A few years ago one of the servants placed a on to the next mark. As it was difficult ring with the name of the place and date on the leg of the male bird, in order to be certain that the same bird returned each year. Last spring the stork came back to its customary place, the bearer of two rings. The second one bore the inscription, "India sends greetings to Germany."-Exchange.

A Combination Strawberry.

A Palmyra woman could not believe her own eves recently when she found a strawberry measuring six inches in circumference. An investigation showed that it was made of no less than eleven berries which had grown together, making a great sight. - Bangor (Me.) Com-

The aggregate increase of product since 1880 is reported to be 29.66 per cent. in quantity and 75.92 per cent. in value. -Harper's Weekly.

An Odd Use for the Pin.

An odd use that the pin was put to long ago was that of checking the intemperate habits of the English. St. Dunstan conceived the idea of dividing the tankards out of which the liquor was drunk into eight equal parts, each part births. There will be a great number of marked with a silver pin. The cups were generous affairs, holding two quarts. Consequently the quantity from pin to pin was half a pint, and the regulation was that the drinker "stop at a

Roisterers, however, prevented the purpose of good St. Dunstan and established the rule of "good fellowship," by which the drinker was to stop only at a pin. If he drank beyond he had to go to stop exactly at a pin the vain efforts always excited much mirth, and the trial usually ended with the draining of the tankard.—Table Talk.

A Man Who Had Eighty Overcoats. There are dozens of New Yorkers who have a passion for buying clothes, and they count their suits by the hundred. Pierre Lorillard has a great assortment of clothes, and so has A. M. Dodge, the latter probably having as varied a collection of garments as any gentleman in the city. None of the fashionable set has ever excelled the late W. K. Soutter in the size of his personal wardrobe. Mr. Soutter was known to have had eighty

Does Not Return to Dust.

Many strange things have been told concerning the secrets of the grave. Within the past few months discoveries have been made in Missouri and Iowa that people have been buried alive, but he strangest discovery was made in Colchester a few days ago, viz., that, after having been buried twenty-one years, the body of Miss Flora Hume is n as perfect a condition as the day she

Old maids who get married invariably | St. Paul of pneumonia and the body was ong since fallen into disuse, and recenty it was laid out in nicely improved grounds. The few graves in it were removed, and among the dead was the body of Miss Flora Hume. It was inclosed in a metallic case. This was covered with a heavy coat of rust. When the cover was removed there lay the body perfectly intact. The features were readily recognized by relatives, and the clothing looked perfectly fresh. Even a ribbon of delicate tint about the neck was as bright and fresh as when it had been first put on.

The face was not in the least discolored, and the body was full and round. In fact, the corpse looked as though it might have been buried only a few hours .- Quincy (Ill.) Herald.

A dispatch from Columbia, S. C., says: Uncle Billy Bost, an eccentric character of Cabarrus county, N. C., is dead. He was a bachelor, about eighty years old. His only companions were two dogs and an old negro. His real estate consisted of 1,800 acres of land, which he left to his nephews. He had a safe which was thought to hold thousands of dollars, but when it was opened the only money found was a nickel. However, in bureau drawers, in old cupboards, in pitchers and jars, in old clothes closets, in old stockings and in cracks in his miserable house was found \$10,000 in gold, besides a large quantity of gold dust and bullion and a few hundred dol-

lars in greenbacks. "In the search a package from a Charotte bank was found containing \$700 that had never been opened. This was received by him in 1880. He had corn and bacon on hand four years old, and some hay that had been stacked for twenty-five years. He made his will only three weeks ago, and there is much talk of contesting it, for some of his kin have been left without anything."

The Way an Artist Reasons.

Here is a characteristic story about of high position once ventured to remon- | free. strate with the great man because he had charged her £120 for a ball dress.

"The material," she said, "could be bought for twenty pounds, and surely the work of making up would be well paid with five pounds more."

"Madam," replied the milliner, in his canvas, value a shilling, and here are colors, value four shillings. Paint me a picture with these colors on that canvas and I will pay you one and threepence.' What will he say? He will say, 'Madam, that is no payment for an artist.' I say more. I say, if you think my riages and buggies and best horses terms too high, pay me nothing and to be found in the state. Those the pettiness of the higgler."-London do better than to call on Mr. Par- recommend this remedy.
