A horrible affair has just been discovered at Itegehem, in Belgiam. A family named Vanden Eynde, consisting of two brothers and a sister, live there on their own estate. Six years ago there was another brother, called Louis, who went away from the village to serve his time in the army, but although he was very soon discharged as unfit for mili-

was still a soldier. Lately, however, mysterious reporst were spread, and recently the family were surprised by the appearance of the burgomaster, accompanied by several other officials and a doctor. In spite of protests, they searched the premises. and when they opened one of the cellars a horrible sight met their eyes. Cowering in a corner, on a filthy heap of straw, was the lost brother, who looked more like a wild animal than a man.

A continual idiotic laugh was the only sign of life he gave, for he was not capable of making any movement of his own accord. Even his head staid in whatever position it was turned by the doctor who examine | him. His unnatural family conferred that when he returned from his regiment he was slightly mad, and to save the expens of putting him into a lunatic asylur they had tied him ap in the ceilar, who is he had remained for six years. The brothers and sister were arrested, and the imbecile was removed to an asylum.-Galignani Mes-

Plowed Up Seventeen Thousand Dollars. Edwards, while plowing near Souther-land Springs, struck an iron pot whose top projected a half inch above the surface. It was apparently filled with earth, but its great weight led to an investigation. Under an inch of dirt were many doubloons of gold. The leather in which they were wrapped was rotten, but save for a greenish mold the coins were uninjured. They were all doubloons. Edwards loaded his treasure in a wagon, drove to San Antonio and deposited it in bank, saying nothing of the find until his return. The amount is \$17,000.

There has long been a tradition in Southerland Springs neighborhood that Santa Anna buried treasure there on his retreat after his defeat at the battle of San Jacinto in the war of independence, and various searchers have hunted for it. The pot was originally sunk deep, but the rains of more than half a century had denuded it of its covering.-Cor.

A Curious Ohio Family.

Living near Wayne tile is a family head of the family entered a hardware store at the first named place and called for seven hoes. The clerk was astonished. from Clinton county, and wanted seven more to keep his sons and himself busy.

He is possessed of eleven children, the mother and only daughter having six fingers on each hand, two of the boys six toes on each foot, and one having seven toes on one foot. The family cultivates tobacco and is regarded with much curiosity by the neighbors on account of the extra supply of fingers and toes.-Cincinnati Enquirer.

Games Forbidden on Sanday Only. There is a suspicion, doubtless un founded, that those whose word is law at the Desplaines camp meeting are moving backward in their course with regard to the rules denying nearly all secular amusements to young people. The directors explain that they have no objection to croquet, tennis and sitting in hammocks on any day except Sunday, and the roles prohibiting these pleasures apply to that day only. To many Meth-odists it will appear ominous that any rules were necessary forbidding youth-

Fast Time on an Aquacycle.

On the Wabash river, at Tuscola, Ills., occurred the first trial of Professor Claude Baum's aquacycle, which travels on the water with almost the speed of the bicycle on land. A race was run on the river between the steamer Dauntless, Commodore C. V. Walls, and Professor Baum's water wheel, and the latter showed better speed than the boat .-Cor. Chicago News.

At the windup of each of these conversations the latter delivered the message of his landlady, and being popular, it was not noon before he had forty or fifty people hustling for tenants for that room. The result was that the vicinity of the house, for a day or two, looked like the approach to Camp Sherman, and it was necessary to disconnect the bell.-Detroit Free Press

Thought He Had a Sea Serpent.

Captain John Brooks, of Block Island, became the unwilling pomessor, one day last week, while hauling in his pots, of a six foot sea serpent, subsequently pronounced a monster sea eel. A brown rat with a blue tail made itself visible in a Cincinnati court house, and an enterprising individual tried to capture it alive, with a view to its exhibition in a museum. Unfortunately he accidentally killed it; then he discovered that it was an ordinary Norway rat, which had been investigating the contents of a pot of blue paint.

Since Brazil became a republic it has greatly increased in favor as a field for German emigrants, of whom 7,927 have gone there during the first six months of the present year, as compared with 2,122 during the whole of last year, while in 1889 there were only 228.
