PERSONAL

Mr. J. L. Leavelle and wife, of Woodburn, Iowa, having been visiting in the east, came in this morning for a short visit with their cousin, T. B. Brown of this city. They will take in the state fair and visit in Nebraska some time before returning home.

Mr. Robert Flormann, one of the Black Hills tin men, has offered the owners of the Spokane mine \$150,000 for their claim. Mr. John Shafer, a son of W. H. Shafer, of this city, is a half owner of this mine. It is not known whether the offer will be accepted or not as Mr. Hawk Wright, who owns one-fourth of the mine, is away and they are waiting for his return to see whether the offer will be accepted or not.

A stock extra passed through yesterday, composed of twenty-three cars of very fine stock, enroute for the state fair at Lincoln. If other roads do an amount of transportation equal to the B. & M. one may well conclude that the stock exhibit will be complete. It is to be regretted, however, that in one car a very fine blooded horse enroute for the fair, had died before arriving here.

The family of W. H. Malick received a telegram conveying the sad intelligence that E. O. Wait, father of Mrs. Malick, died yesterday at Colfax Springs, Iowa. Deceased will be buried at Lincoln tomorrow. Mr. Wait was not well known to our citizens, but the family of Mr. Malick will have the sympathy of the community in their hour of sorrow. Mr. Malick departed this morning for Lincoln.

This office has received a communication referring to the coming Irrigation Congress which convenes in Salt Lake City, September 15, 16 and 17, 1891. The object of calling the convention is to bring before the people the necessity of better plans for irrigation, and consequently more effective agriculture. The projectors of the scheme hope to enlist the support of the business men's associations throughout the west and eventually bring the matter before congress, with a view of securing legislation pertaining to the matter. Doubtless pamphlets have been received by our business men setting forth the objects and plans of the proposed meeting, and we feel that the enterprise will merit such attention as they feel able to bestow.

John Shafer came down from Spokane camp Tuesday evening. He reports everything moving along in even tenor, and says that the more the Spokane is developed the better it shows up. Ore now being taken out of the shaft at a depth of 82 feet assays 47 ounces of silver to the ton. He anticipates that they will soon be able to work the mine upon a more extensive scale, in which case he says Spokane will make a busy camp, for they have plenty of ore in sight to keep a large number of men employed for a long time. And there is every reason to believe that even if worked upon a larger scale there is ore enough in the Spokane, of a rich paying quality, to last for years. The Spokane is a rich mine and no mistake.—Hermosa Pilot.

Almost a Blaze.
Sunday morning upon entering the laundry Mr. Donnelly, the proprietor, discovered that his building had narrowly escaped being burned to the ground. In the upper floor—the floor above the basement—a hole was found to have been burned about six feet in diameter and the stairway and railing partly burned. The most unaccountable feature is that the fire was extinguished, presumably, without aid, as no one is known to have been near the place at that time. The origin of the fire is unknown, as the furnace was cool Saturday evening; besides, the fire, being about twenty feet from the furnace, could not possibly have had its origin there. The work is supposed to have been that of an incendiary.

Mr. A. C. Scott, of Kewana, Ill., who has been visiting his friend, J. A. Mathews, the past few days, returned home this evening.

C. E. Wescott returned from the state fair last evening where he has been the purpose of purchasing his and winter stock of goods.

Eigenbrodt, stenographer for the state fair, left Saturday evening on a week's vacation in N. Y. and eastern points.

Moody left last evening for Pleasant, Ia., where he will be a few days with his sister, as he has not seen since he left five years since.

Music Lessons.
Mary Giant will return in a few days from her visit to her family, and will resume music lessons next week. Expecting to take lessons in piano and voice orders with J. P. Fitzgerald.

City Schools.
The city schools opened this morning, and we are informed, that never, in the history of the Plattsmouth schools has the outlook for a profitable year been so encouraging. The attendance today being in the neighborhood of 1000 pupils.

With the repairs and appliances added to the buildings; with a school board thoroughly identified with our school interests; with a complete and efficient corps of teachers operating in accordance with the direction of our able superintendent, the patrons of the Plattsmouth schools may feel assured that their children are amply provided for, but while it is necessary to have a building well equipped, and a school board and teachers working harmoniously there is an opportunity for the patron to add greatly to the effectiveness of their labors. The parent should visit the schools frequently, keep informed as to the needs and progress of the pupil and co-operate with the teacher in carrying out every well defined plan.

For sometime there has been a fewer number that have completed the course of study, owing to the fact that the study of Latin was compulsory. Superintendent McClelland informs us, that in order to accommodate a great number, and yet maintain as nearly as possible the same degree of stability and insure the graduates of either courses training equally as thorough, he has arranged two courses of study; viz, a Latin and English, leaving the matter of selection optional with the pupil. The division, as we understood it is made for the accommodation of those desiring English and American, hence more English language, in preference to the Latin. In this all are provided for and yet the same degree of thorough drill and proficiency is maintained.

Pianos and Organs.
Anyone in need of a piano or organ would consult their own interests by calling on J. M. Muir, who keeps nothing but the best, which he sells at reasonable prices to suit the times.

The M. P. Run a Train.
The M. P. runs a train from here to Union to-day, and the arrangement in all probability will remain so until after the state fair. It is hoped that a contract will be made soon, so that the road can run directly to Omaha.

Notice.
The public will take notice that I will not be responsible for any debts contracted by my wife, Nancy J. Chandler. J. J. CHANDLER. Sept. 7, 1891.

The Primaries.
The democratic primaries met Saturday evening in the respective wards as per announcement.

The attendance was very meagre, there being in some wards not a sufficient number present from which to select delegates; and, of those present, paradoxical as it may seem, considerable difficulty was experienced in finding delegates that could be depended upon. But this difficulty was obviated by choosing men who were not present, thus giving them no opportunity to decline.

Every thing seemed to pass off harmoniously and after it had been established to a certainty that a full delegation would likely be present at the convention, everybody seemed satisfied.

A Mistake.
To think we don't keep a full line of school supplies. Books, slates, pencils, tablets and everything for school. Our customers will please bear this in mind. J. J. LERNHOFF BROS.

A New Enterprise.
Mr. John Berge, the genial South Bend pedagogue, has earnestly embarked in the newspaper business. Having bought an entirely new outfit of printing material and supplies he will launch forth a brand new weekly paper devoted to the interests of South Bend and Cass county. We are informed that the paper will be independent in politics.

THE HERALD is pleased to note this additional factor in the newspaper arena, and trusts that Mr. Berge will find the newspaper career both a pleasant and profitable one.

Look out for JOE'S Grand Fall Opening he will announce exact date within a few days.

B. & M. WANT THE EARTH.
Yesterday's Game Results in Favor of the Home Team.

The Cranes of Omaha came down yesterday and received a severe drubbing at the hands of the home team. The visitors put a very good game but in the face of the heavy batting at the hands of the home team, they stood a very poor show. The cranes made three doubleplays worthy of special mention. Score by inning:

Cranes..... 0 2 0 0 0 0 0 3—5
Plattsmouth... 1 3 0 0 0 3 2 1*—10
Errors: Cranes, 6; Plattsmouth, 6. Hits: Cranes, 2; Plattsmouth, 9. Batteries: Carrigan and Swartz, Miller and Maupin. Struck out: By Carrigan 3, by Miller 10. Two base hits: T. Patterson, Schulhoff, C. Miller. Double plays: Elyare to Nelson to Bowman (3), Miller to Gadke, Lincoln to Gadke to S. Patterson. Left on bases: Cranes, 4; Plattsmouth, 6. Umpire: Chet Smith.

THE HERALD office has received a circular descriptive of the "Turner Storage and Receptacle"—a device invented by our former townsman, G. W. Turner, as an attachment to railroad cars, for the purpose of keeping a perfectly reliable record of the car from the time it leaves the shop until it returns for repairs.

Owing to the inconvenience that would be caused all concerned, the railroads can not always use their own cars, and upon receiving a car from another, each road must make out a statement, detailing the condition of the car upon its arrival. This is necessary so that the expense incurred for repairs may be charged to the road causing the damage. According to the usual method of keeping this record, there is great liability of losing the record, hence great uncertainty and often annoyance is caused all concerned. So this matter was taken up by Mr. Turner and the result is, he has planned and constructed a device that operates successfully. If it can be proven conclusively that it can be used with advantage, the sales will doubtless net Mr. Turner a handsome fortune.

A Disgraceful Affair.
Yesterday at South First street, Winterstein Hill, Fireman Chandler and Engineer Rasmussen purchased a large quantity of liquor and proceeded to the home of the former to have a general good time. From reports we learn that after Chandler had drunk a sufficient quantity to render him dangerous he proceeded to abuse and unmercifully whip his wife, the cries of whom at once attracted the attention of the neighbors.

THE HERALD never loses an opportunity to condemn, in no uncertain terms, such manifestations of the brute creation as this. When a man becomes so devoid of manhood and so utterly debased as to wilfully curse and abuse his wife, simply because she is weaker than he, it is high time that the strong arm of the law should come to her rescue.

World's Fair Notes.
Siam has decided to make an exhibit at Chicago, which shall eclipse the one it made at the Paris exposition, where it carried off the honors in the oriental section.

Michigan will construct its building wholly of Michigan material, and will send it to Chicago in sections.

The suggestion made by prominent members of the National Society of the Sons of the American Revolution, that October 11th should be celebrated throughout the world, as the Fourth of July is celebrated in the United States, is meeting with general approval.

The publishers of Puck, the well known comic paper, have been granted space, 50 by 100 feet, for a building on the exposition grounds, in which to show fully every detail of the process of editing and publishing a humorous paper.

Henry B. Worthington has offered to furnish the exposition, free of charge, pumps with a capacity of 40,000/60 gallons of water a day.

The first cotton gin, made by Eli Whitney, will be exhibited at the Exposition by the New Orleans machinery Company, which will also make an extensive exhibition of cotton gins, sugar mills and others machinery.

Among the exhibits from Southern California will be a model constructed to illustrate irrigation. A committee has already been chosen to prepare it.

If you want to see nice clean and well made up clothing you should go to JOE and look his stock over
